ROBERT DOLLAR BUILDING - SAN FRANCISCO

February 16, 1926.

Messrs. Zoological Society of San Diego,
Balboa Park,
San Diego, California.

Dear Sirs:

I note from your letter of February 13th that your Society is interested in acquiring a sailing vessel to be converted into a combination nautical museum and aquarium at San Diego.

We have 2 sailing vessels which I think would be adaptable for this purpose, the S/V "Reinbeck" and S/V "David Dollar". I am attaching particulars of these two vessels. They are both at the present time here in San Francisco harbor. We have placed a price of \$20,000. each on these two vessels, delivery to be taken in their present condition at the berths where they are now lying. In view of the educational purposes for which you desire to use the vessel we would in your case be willing to absorb the cost of towing the vessel to San Diego and deliver either one of these vessels to you at San Diego for the price of \$20,000. This offer is subject to acceptance by February 27th as we could not tie up the vessels for a longer period owing to other prospective sales which we are developing.

Yours very truly,

R. Stanley Dollar
