

G. F. MAC MULLEN

THE
EX-MERIDIAN CALCULATOR.

BY
JAMES SMITH, Master Mariner.

Complete Tables for finding the Latitude by an Ex-Meridian Altitude of the Sun, Planet or Star, within the Latitudes of 61° North and 61° South, and with all Declinations from Ursa Major to the Southern Cross, and within all practical limits of Hour Angle.

By using these Tables, the correct Latitude can be obtained by observing Stars at twilight when they are near the Meridian, and when the horizon is then quite clear.

PRICE—TWO SHILLINGS & SIXPENCE.

THIRD EDITION.
