CLYDE ARBUCKLE, SECRETARY
988 FRANKLIN AVENUE
SAN JOSÉ 25, CALIFORNIA

Dear Jerry:

Here's the Hunneman dope that I forgot to take to Sacramento. It came from an unpublished manuscript just donated to our museum.

By the way, Ed Cismondi, a good friend of mine, will soon be sailing from San Francisco to Eneñada in his 30-ft. ketch, with intent of putting into San Diego for information on ports farther south.

Ed owns one of our city's largest Camera shops, teaches camera craft in our school system, and is a swell fellow. But owing to some aberration of what would ordinarily be good taste, he thinks sailing is great. (What a pity.)

Nevertheless, I have suggested that he visit you at the Star of India, etc. If you can give him any advice or have a drink with him, you'll please me mightily.

He leaves San Francisco about the end of July. I'll keep you posted.

Con mucha prisa,

CA:ep
Enclosure
