Dear Mr. McMullen:

Mr. Kortum of the San Francisco Maritime Museum suggests that I wrote you and see if you could spare us a photograph of the Star of India. He recently sent us one of Balclutha to go with an article we are running by Harold Huycke on the old Star Fleet.

I had not known before that the Star of India was being restored but it seems to me that a short note along that line and photograph of her would make a good followup to the series of articles we will be running.

Sincerely yours,

Wm H. Taylor
