OIL  
NOMENCLATURE

Title: [ill.] London Plane Tree Allee. Looking from south Terrace to Garman Road, wide allee between rows of tall, branchy (sycamore?) trees in full leaf. Allee begins in foreground across entire bottom of canvas and ends at center left midground. The end is an undefinable lighter green and some blue. Trees visible all the way to end on right side but not on left. Behind trees are an abundance of fuschia and white rhododendrons in full bloom. They extend to end of allee. Small patches of sky visible at top of canvas. Two long, dark blue shadows lie across allee at center.

ICA treatment, February 1990. heavy surface grime was removed with naphtha followed by a mild enzymatic solution. Painting was removed

from its stretcher and tacking edges were flattened with minimal moisture and weighted. Reverse was cleaned. Painting restretched to its original dimensions on a new ICA spring stretcher. A final varnish of Soluvar and xylene was sprayed onto surface.
