

John Schirpke has received a gold watch and pin in recognition of having driven 25 years for Weinbrenner, division of Textron, without an accident. Schirpke is shown receiving the watch from Ed. Ott, vice-president in charge of manufacturing of Weinbrenner with William Martin, Marshfield, Weinbrenner safety director looking on. Schirpke averages about 210 miles a day on truck runs to the Marshfield and Antigo plants, about 50,000 miles a year. That brings a total of about 1,250,000 miles without an accident over the past 25 years. (Jim Freiberg)
