60 Years of continuous Service of a Woolen Snow Suit

The year was 1937 and Marion's class attended a tour of the Merrill Woolen Mills with their teacher Mr. Styza. Upon returning to class, Mr. Styza informed the class that the Management of the Mills were offering a prize of a snow suit to the winner of an Essay Contest about the student's impression of what they observed during the tour. Marion won the contest and she is wearing the jacket in the above photo. Her children, Gregory, Danny, David, Tommy and Michele have all worn the snow suit throughout the years and it is still a quality bit of clothing to this day! This speaks well of the type of merchandize manufactured locally!

"Merrill, Wisconsin was a Great Experience in my life," Marion says
