Conservationists in Training, The Good Companions</i> <p>*ARCHIVIST'S NOTE: <i>Rosalie Barrow Edge (November 3, 1877 – November 30, 1962) was an American environmentalist and suffragist. In 1929, she established the Emergency Conservation Committee to expose the conservation establishment's ineffectiveness and advocate for species preservation. In 1934, Edge also founded the world's first preserve for birds of prey—Hawk Mountain Sanctuary near Kempton, Pennsylvania. Edge was considered the most militant conservationist of her time, and she clashed publicly for decades with leaders of the Audubon Society over approaches to wildlife preservation. An environmentalist colleague described her in 1948 as "the only honest, unselfish, indomitable hellcat in the history of conservation".</i> (Wikipedia)</p> | unknown | 12 | 1, R. Edge, "Good Companions in Conservation" |
| <ul style="list-style-type: none"> • Pgs. 39-84 of <i>An Implacable Widow</i>, again very poorly copied and worn, with edits in black ink, beginning with, <i>I Ask for the Membership List</i> | unknown | 12 | 2, R. Edge, "Good Companions in Conservation" |
| <ul style="list-style-type: none"> • Pgs. 90-138 of <i>An Implacable Widow</i>, again very poorly copied and worn, with edits in black ink, beginning with, "(Alas, the rivers and lakes, the valleys and waterfalls, of the Parks are also endangered by commercial interests..." | unknown | 12 | 3, R. Edge, "Good Companions in Conservation" |
| <ul style="list-style-type: none"> • Sheet of white printer paper with a note written in pencil by Jeremy Linden, previous employee (Special Collections Curator-?): "NOTE – PGE #'s Duplicate, Text is different. -J. | <p>Gathering of xeroxed scans of typewritten pages on:</p> <ul style="list-style-type: none"> • Tikal National Park, Guatemala, with transportation/hotel information, birds to see, and a book recommendation • 4-pg. checklist on bird species to find • Hand-drawn “MAP OF TIKAL, GUATEMALA” (this map is drawn in the more sketchy original style of previous maps) | 1975-1976(?) | 12 | 1, Alden and Gooders, “Finding Birds in the World” |

| | | | |
|---|--------------|----|--|
| <p><i>*ARCHIVIST'S NOTE: this text mentions the suggestion of bringing "chigger repellent". Chiggers are a type of mite, also called 'berry bugs' and their bite causes severe itching. Chigger bites are caused by the larvae of the chigger. The bite produces blisters (vesicles) and bleeding into the skin (purpura). These bites itch intensely and are usually located on exposed areas of the skin where the chigger larvae have access. (mountsinai.org)</i></p> | | | |
| <p>Gathering of xeroxed scans of typewritten pages on:</p> <ul style="list-style-type: none"> • Lake Atitlan Area, Guatemala, with transportation/hotel information, places of interest, and specific birds to see in those locations • 3-pg. checklist on bird species to find • Hand-drawn "MAP OF LAKE ATITLAN AREA" AND "SKETCH OF PANAJACHEL AREA (NOT TO SCALE)" | 1975-1976(?) | 12 | 1, Alden and Gooders, "Finding Birds in the World" |
