

MEMORANDUM

44 18-15

Subject: Inside painting, etc.
Bussey Institute Building

To: Dr. MacGready

From: Dr. Hinton

Date: November 25, 1947.

1. Stairs of first floor stairway should be cleaned with paint remover and revarnished.
2. Pipes to serologic baths should be painted with aluminum paint.
3. Raw surfaces of laboratory benches and in first floor office should be stained and varnished or oiled (linseed) to match adjacent surfaces.
4. Shelves in cold room should be stained and given one coat of spar varnish.

As I understand it, all heating and plumbing pipes that were installed in the Wassermann Laboratory are to be refinished in accordance with the specifications which were submitted with your memorandum of November 21.
