Dear Miss Stewart:

I am enclosing slide sections of the ganglia from
the brain of a fox.

Impressions from Ammon's horn show no evidence of
negri bodies.

Dr. Falkenburg, our state pathologist, would appreciate it if you would give your opinion on these slides.

Regards,

John P. McCormick

Dear Mr. McCormick:

I received the three slides of the sections
of the ganglia which you sent for examination.

I would say that they show no histologic
evidence of rabies.

Very truly yours,

Genevieve O. Stuart
Assistant Director
