Dr. George Bush
136 Forest Street
Medford, Massachusetts

Dear Dr. Bush:

The agglutination test for bacillus
abortus on Dr. Russel Holt's blood showed
a slight but definite reaction in the
1-50 dilution. The 1-100 and 1-200
dilutions were both negative.

Very truly yours,

Wah/d

Wm. A. Hinton, M.D., Chief
Wassermann Laboratory
