Wassermann Standardized

Mr. C. C. Pierce, Asst. Surgeon General,
Bureau of the Public Health Service,
Washington, D. C.

Dear Sir:--

Your letter of February 14 with criticisms attached, bearing on my article entitled "Standardized Wassermann Technique" has been received. The article referred to is primarily a synopsis of an article which is to be published shortly, a copy of which I will send you. In fact Dr. McCoy has already read the manuscript and was kind enough to give me his criticisms on it.

Respectfully yours, .

WAH/SA
