

## M E M O R A N D U M

Subject: Department Headquarters

To: Division Directors

From: Dr. Gettling

Date: July 20, 1944

As the project for the use of the Massachusetts Art School by this Department has not materialized and the Transit Building does not seem practicable, particularly for laboratory use, I am now requesting that you be on the alert for available buildings which would be suitable for occupancy by the Department. Our concerted efforts might result in obtaining a satisfactory location.
