

Budget
January 21, 1929.

Dr. Benjamin White,
Director, Antitoxin and Vaccine Laboratory,
375 South Street,
Jamaica Plain, Mass.

My dear Dr. White:

As indicated in my latest annual report,
the necessity has arisen for the employment of an
additional technician in the Wassermann Laboratory.

Therefore, I recommend that provision
be made, by an emergency appropriation or other-
wise, for nine hundred dollars (\$900.00) for
the employment of such an individual on a full
time basis, at that rate.

Very truly yours,

WAM:MBS
