William Hinton, M. D.
Boston Dispensary
Boston, Mass.

Dear Doctor Hinton:

Would you kindly examine the enclosed section of
gasserian ganglion from a dog for evidence of rabies.
This dog was killed immediately after biting and
the head sent to this laboratory.

→ LAB NO B-48-015

Yours truly,

Malcolm C. Hinchliffe

August 9, 1948.

Mr. Malcolm C. Hinchliffe, Principal Bacteriologist
Rhode Island Department of Health
Division of Laboratories
State Office Building
Providence 2, Rhode Island

Dear Mr. Hinchliffe:

We have examined the section of gasserian ganglion, laboratory No. B-48-015, which you sent us, and it showed no histologic evidence of rabies.

Hereafter, will you kindly send any slides to me at 281 South St., Jamaica Plain, rather than to the Boston Dispensary Laboratory.

Very truly yours,

Wm. A. Hinton, M.D., Chief
Wassermann Laboratory
