Dear Sirs:

We received an invoice amounting to \$14.67 from the Railway Express Company for expressage on the ten cartons (2039 cases) of containers that were shipped to us. This expressage was from the station to the laboratory. Since this is the first time we have been charged for expressage we wonder if there is an error.

Very truly yours,

G. O. Stuart,
Senior Serologist

This item appears to be erroneous. We have on file a receipted freight bill of \$9.78 for delivery to Jam. Plain, Mass. The Railroad usually charges about 15 cents per carton for delivery from station to the laboratory. We do not understand the above charge.

Signed S. Masters
