

Nov. 22, 1914.

Dr. C. H. Kimberly,
Stockbridge, Mass.

Dear Dr. Kimberly:

I am very anxious to learn more about M. Cowen. The Wassermann test is negative and the Hinton test is doubtful by the enclosed report, and as I understand sometime ago it gave a positive Hinton.

Thank you.

Very truly yours,

WAB/GB

William A. Hinton, M.D. Chief
Wassermann Laboratory
