Dr. William A. Hinton  
Boston Dispensary  
Boston, Massachusetts

Dear Dr. Hinton:

Last October at the A.P.H.A. meetings you told me you were now making acacia for the spinal fluid serology. We are about to run out of the supply you so generously sent us and would like to make some. May we have the directions?

Also are you ready to recommend a procedure using cardio-lipin antigen for the Hinton indicator?

May I extend my personal congratulations on your recent appointment.

Yours truly,

*Esther E. Brintzenhoff*  
(Miss) Esther E. Brintzenhoff  
Chief Technologist
