Westfield State Sanatorium
Westfield

Nov. 10, 1953.

Dear Doctor Hinton:

I came to see you last February, when you were very kind in listening to my future plans. In the meantime ^I have been thinking things over.

I am now jr. bacteriologist at Westfield State Sanatorium, hope to become permanent civil service employee within a very short time. I have definitely decided to go on for a Ph.D., preferably in Boston. In the meantime I published my first paper in the Am. J. of Clin Patholgy in Setpember on "Blood mediupms for routine cultivation of tubercle bacilli". I am interested in this field and hope to be able to work on it toward my degree.

Would you be kind enough to advise me what the chances are to become a graduate student at Harvard - if this is possible at all. Being a permanent employee, perhaps I could take a year off and be a full time student to take the required courses.-I would be glad to come into Boston to get additional information. The state car goes in every first Tuesday and sometimes during the month.

I hope you do not mind that I am asking you for this advise, I appreciate your interest very much.

Very truly yours,
Evelyn Reinisch

Miss Edith Reimisch
Westfield State Sanatorium
Westfield, Massachusetts

Dear Miss Reimisch:

In reply to your letter of November 10 I suggest that you make an appointment with the Assistant Dean of the Harvard School of Public Health. I am sure that he will be able to work out a program for you.

Very truly yours,

Wm. A. Hinton, M. D., Director
Wassermann Laboratory
