

February 18, 1935

Dr. Miriam Van Waters, Superintendent
Reformatory for Women
South Framingham, Massachusetts

My dear Dr. Van Waters:

Mr. Ralph Perkins has told me that he has applied to you for a position in the Reformatory. I have known Mr. Perkins for the past fifteen years or so and so favorably that I can not help writing to tell you about him.

He has a great store of useful information concerning every line of building and building maintenance. In fact, he not only has this knowledge but he is thoroughly capable of practically executing it. His judgment on these matters is excellent. His honesty and character are beyond reproach.

If you should decide to appoint him, I can assure you that the Dispensary will lose a very capable man, and I will miss one who has been of very great assistance to me in carrying out my own work there.

Very truly yours,

William A. Hinton, M.D., Chief
Wassermann Laboratory

WAH:MRM
