L. Beatrice Hancock, M. T.
The Austen Riggs Associates
Stockbridge, Massachusetts

Dear Miss Hancock:

We have been trying to locate a case sent by Dr. C. H. Kimberly under the name of Bascom Little as requested in your letter of February 5, but it is very difficult for us to do this because we have received several cases at the laboratory without slips during the past week. We cannot be sure that any one of these specimens is the one in question because none of them showed a Stockbridge postmark.

We would suggest, in order to be absolutely sure of a correct report, that you submit another specimen for examination.

Very truly yours,

Wm. A. Hinton, M.D., Chief

Dear Sirs:

A sample of blood serum was mailed to-day to the Wassermann laboratory. Thru an oversight the enclosed label was not attached to the specimen. If possible, will you kindly take care of this for me. Thank you.

Yours very truly,

L. Beatrice Hancock M.T.
