Dr. John A. V. Savie,
101 Bay State Road,
Boston, Massachusetts.

Dear Dr. Savie:-

I am very grateful for the reprints of the papers, "A Method of Collecting Small Blood Specimens", and, "A Comparison of the Savie-Hinton and Wassermann Reactions in the Cerebrospinal Fluids" which I was very glad to receive a few days ago and which I appreciate very much. These reprints will be very valuable and helpful.

I shall also be very grateful if you will be so kind as to let me have a small amount of the antigen for the performance of your test as I should like very much to run some of these tests and should like very much to show it to a friend who, I feel sure, will be very much interested also.

I thank you again very, very much.

Very sincerely,
Ralph D. Turner.
