[*Letter from Flora Pillsbury (1887-1921) to George Nichols (1889-1961)*]

"Wayback on the Farm"

March 12, 1914

Dear Brother N -

Of course I will report if you don't go, partly because I am always glad to do anyone a favor and partly because I want to ask a favor of you; that is if I can get my courage up to ask you, I don't know as I dare, and if I do and you will do it and think it is all right I don't know as my courage will stick long enough for me to carry it out. It has something to do with a person we were discussing last night but I don't believe you can guess which one as I believe we mentioned several.

You had better go to Pomona, I don't see as your being Master makes you in any way more responsible than any of the rest of us (the Ladies especially; "yours truly" Sec of same) and where you are not a farmer you could not be expected to be particularly interested in his talk – But don't pay any attention to my advice as you know your own business best of course.

Hope you all have a good time over at Maud's. I don't intend to go as I want to go over and stay a few days with her soon, but please don't tell anyone I didn't intend to come as I didn't tell Shirley but what I was going – I would like to though for I know you will all have a dandy time. It's one of the best places to go that I know of. I didn't mean to write so much – hope you won't be late to work reading it all – skip half of it. This is all so cheer up.

Fraternally yours,

L.A.S.
