[*Letter from Flora Pillsbury (1887-1921) to George Nichols (1889-1961)*]

Please excuse my delay in sending the key, have intended to return it for a long time but would never think of it when I was at home and had time to hunt it up. It was a good thing you gave me that letter for I should never have received it, addressed as it was.

As long as things are being returned to their original owners I think I should have a certain ring back, don't you? It can't be doing you much good and I have been questioned as to its whereabouts. So you might hand it to me at some convenient time.

Many thanks for the Thanksgiving card.
