Dear Kevin,

I enjoyed talking with you today and it certainly sounds like a most interesting program you will be undertaking in developing a aerospace museum in the state of Oklahoma.

As I mentioned there were at least 3 C-47 installed on EDO's 78-29400 floats. As I mentioned we have numerous photographs of the aircraft on floats along with alot of good 16mm movie footage.

I am including herewith a black and white photo of this aircraft. The only set of amphibious floats that I currently know of are in the possession of a salvage company called:

Bryon Salvage Co.
3400 Lover Lane
Dallas, Texas 75223
(214) 361-7432

The last time I spoke to them was approximately two years ago and they had at that time 1 set for sale at the price of \$10,000.00.

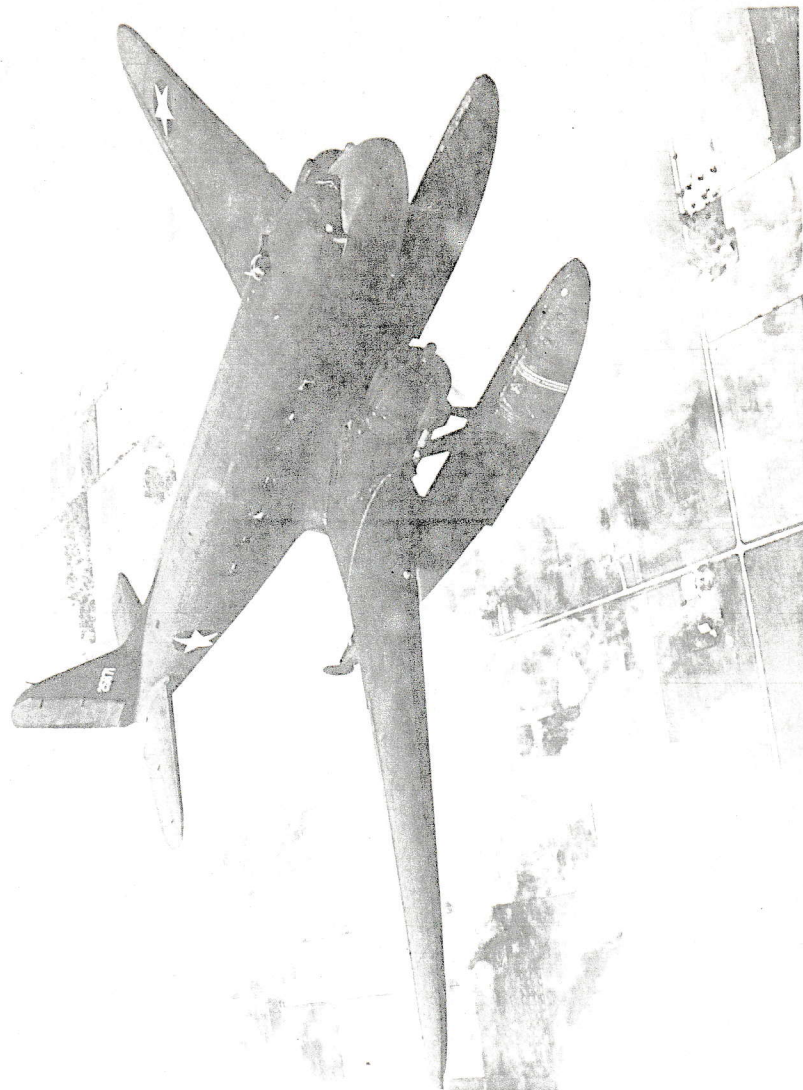

I hope that this will assist with your search for the amphibious float.

Sincerely yours,

J.J. Frey
