often that they become an indelible part of the workplace culture. He believes that these same points could be utilized to make drivers on Highway 69 South safer.

We all know that the more we see, hear and say something, the more it becomes ingrained in the way that we go about our day-to-day business. The idea of a Drive Smart Decal for cars is a fantastic idea. I certainly hope that a sponsor is found.

## Museums offer city an economic boost

### To the Editor:

Museum Helps Preserve Capreol's History — Aug 26.

On behalf of the Northern Ontario Railroad Museum and Heritage Centre, I would like to thank *The Sudbury Star* and Rob O'Flanagan for the article on our museum.

We are happy to draw tourists to Capreol, however it is important to state that one of our goals is to partner with the City of Greater Sudbury's tourism attractions to bring tourists to the area and to have visitors extend the length of their stays to our region.

Currently, we are sharing the results of our feasibility study on the expansion of our museum with

municipal and provincial agencies and expect to move more "rolling stock" onto our site soon.

We continue to collect and accept railroad, lumbering and mining artifacts that pertain not only to the history of Capreol and the Greater Sudbury area but also to the development and identity of all of Northern Ontario.

Comments from our regional, national and international visitors amplify our belief that we have a "great" museum and we invite everyone, especially school groups, to visit our site.

For more information or to book a tour please call 858-5050 or e-mail us at [normhc@vianet.ca](mailto:normhc@vianet.ca).
