AUGUST 2002

FEDERAL FUNDING OF \$9,410 FOR THE NORTHERN ONTARIO RAILROAD MUSEUM AND HERITAGE CENTRE

In support of the Federal Job Creation Partnership Initiative, Human Resources Development Canada and the Northern Ontario Railroad Museum and Heritage Centre have partnered their efforts to create an opportunity for one unemployed individual to obtain valuable work experience in the field of website development. The participant will be upgrading the Museum's website, creating an Operations Manual for website updates and training Museum Board members and summer students employees in these procedures.

Canada

Dear Friends,

I would like to acknowledge my continued support for the Northern Ontario Railroad Museum and Heritage Centre. This recent project is another indication of how the Museum is committed to creating an environment that residents will consider a source of community pride by attracting more visitors to the facility and the community.

Best wishes and kindest regards,

Raymond Bonin
