NEW SCHOOL NAMED THE "C.R.JUDD" SCHOOL.

The Board of Education holding its regular September meeting on Thursday evening, September 3, in the Public School considered at length the numerous names submitted for the new Public School It was decided to call this the C.R. Judd Public School in recognition of the long faithful service Mr. Judd has given to the school, and the esteem in Which he is held in the community.

Members present were the Chairman Mr. F.B. Greaves, and Trustees, Mr. M. Carisse, Mr. E. McKinley, Mr. H. Dunsby, Mrs. Helen O'Rourke, Mr. H. Hayston, and Mr. A. Smith. The principal of the High School was present and the Secretary, Mrs. Catherine Gilbert. The first part of the meeting concerned High School business.

All members were very anxious to know whether the school would be ready to open on Tuesday. The opinion of Mr. J.B. Sutton, the architect, was that the old part of the school should be available, and probably the new Assembly Hall. Also, by the beginning of the next week, two or three new classrooms should be in shape for use. The amount of plumbing work necessary in the Science room should cause some delay there. The new desks had arrived, but not the ones for the Science room or Typing room.

The principal asked that plans be changed so that a large number of the boys' lockers would be placed in the hall to avoid congestion in the boys' basement Board members hesitated to make this change, feeling that lockers would mar the appearance of the halls. It was decided to leave the matter over till a meeting with Mr. Sutton the following morning.

The Secretary was directed to procure prices from Mr. G.W. Napier on insurance on window glass in schools; break age being such a problem. The chairman of the property committee stated that thirty dollars worth of glass had been broken in the Public School the preceding night. (Continued on Page 4.)

COMMITTEE FORMED FOR NEW GOLF CLUB

Ernie LePage guaranteed the newly formed golf committee last week that at least five holes will be ready for play by spring at his farm on the Ella Lake read.

A temporary committee has been setup with Art Ireland as chairman. Other members include Allan Irwin, Eddie Trusz and possibly Den Prescott and Doug Dunsby. Ernie Lepage is president.

The club, to be known as the Capreol Golf and Country club, will begin a membership campaign shortly with the following yearly fees: single person - \$25; married couples - \$40.

Art Ireland will canvass the CNR fireman and engineers; Don Prescott the mine workers; Ed Trusz the business men; and Al Irwin the trainmen.

Their objective at present is 50 members which will enable the club to apply for a government club licence.

The club house is expected to 52' by 48' with showers and lockers in the basement.

Five holes will be opened in time for spring play and four others tentive ly scheduled for completion in the summer months.

The length of each are: 1 - 450 yds; 2 - 335; 3 - 155; 4 - 300; 5 - 285; 6 - 300; 7 - 380; 8 - 280 and 9 - 315.

CAPREOL LITTLE LEAGUERS WIN TOURNAMENT

CAPREOL HOTEL WINS 1st GAME OF SEMI-FINAL

Both Capreol teams, softball and baseball were successful over the weekend with the Little Leaguers winning a four team tournament at Capreol Monday and the softballers edging Park Hotel 3-1 in the first game of the semi-finals, played at Capreol Friday.

Ezio Bevilacque pitched a one hitter for Capreol while striking out 13. Park Hotel scored their lone run in the second when R. Joliceur walked and came in on a single by L. Joliceur, the only hit for Park. (Con on page 6)

LETTER TO THE EDITOR

ARE WE FAILING THE CHILDREN OF CAPREOL

In view of the always present criticism of teen-agers in general and the prevalent trend of taking it for granted that children raised in Capreol automatically become either bums or railroaders, I feel compelled to address an open letter to the parents in town.

We appear to have our quota of sideburned, greasy looking black jacketed teen-agers—so has every other town I've visited recently. I don't like them; I'd like to put every one I see into a bathtub cut his hair and redress him but them perhaps there were those who in the 1940's would like to have confiscated my bobbysox, tucked in my shirttail and cleaned my saddle shoes.

The point is if our children are delinquents or lazy drifters or any of a number of things they are accused of being whose fault is it?

Who buys their black leather jackets and tolerates their hair cuts? Why are teen-agers permitted to be out at midnight tearing around in cars or peeping in people's windows? If it's because they defy their parents, WHO is at fault? Why have they reached teen-age so far apart from and antegonistic to their parents that they can get away with defying parental authority.

What do most of us offer our children? A roof over their heads; three meals a day; jeans and a black-leather jacket? Is this enough?

Have you listened lately to a scout master or guide leader complain that there is no help for the few men and women in town who are interested in working with young people? Have you ever compared the names of the people who are active in children's work with the members of the recreation commission and found that it is always the same fifteen or twenty people who are active in all organization? Why aren't there more parents willing to miss Perry Como or John's Other Wife once in a while to spend an evening giving something-even if it's only their company to their children.

On the other side of the books, who are the few who manage to dampen spirits of the occasional new-comer to town who has some experience or good ideas or interest to offer to public affairs? Why do we have to go on doing things the way grandfather did them rather than let some new blood into things? Why do so many eager beavers give up and stop doing things because they invariably (Con. : Pg.3)

LETTER (Con. from Pg. 2)
hit the stone-wall group in town who's
motto seems to be "I'm not going to do
anything myself but I'm #% if I'll let
you do it".

How long do we have to put up with second rate activities because hobody has imagination enough to make them first rate or grace enough to step down and let someone else do it who can.

what is the story behind the abysmal high school marks which appeared in the newspaper? Are our children—all of them—consistently morons? Does the Dept. of Education consistently and prejudiciously discriminate against Capreol students? Let's face it—are our children being given a decent chance to learn the work upon which their departmental examinations are graded?

Are no students happy with what we parents are asking them to put up with?

Has your son ever played interscholastic rugby, or hockey, or baseball? Has your daughter ever had the or-

Has your daughter ever had the opportunity to be a cheer-leader or majorette?

Has your child had any chance to develop his musical talent in a school band?

Has your daughter learned any home economics at school?

Has your son ever thrilled you with a gift of a lop-sided but loving whatnot shelf made in craft classes in school

Is there any healthy normal activity in our schools for our children or do they sit around on the grass behind the school or tear around in cars for lack of something better to do?

If you were a young and vital graduate of a university looking for a new

post in which to teach would you turn your four or five years of expensive training into a high school where the calendar is stopped at 1930?

Let's all do a little soul searching and realize that when we fill our children full of well balanced meals; vitamin pills and polio shots we are turning out a group of the healthiest most intelligent, full of beans young people it has been natures privilege to produce in the history of the world.

Our kids are not morons or delinquent nor is anyone but ourselves discriminat-

ing against them.

When you give a child a healthy body, he'll develop a healthy mind to go with it if he has half a chance. Are we giving our children that chance or are we turning them out with energy to burn and no opportunities or facilities to burn it in the proper way?

I feel that it is being complacent in saying "Isn't it a shame so and so's child is getting to be such a bad boy." I am failing my own children. How about you?

JUDD'S SCHOOL (Con. Pg. 1)

There were six applicants for the position of caretaker in the High School. The applicant chosen was Mr. Robert Smith The Board directed that a letter of thanks be sent to Mr. Don Gibson for his conscientious work in the High School during the past three years.

Though the Board had been trying since March 1, it having proved impossible to get any other teacher with a Commercial certificate, it was decided to hire Mrs. C. Gilbert to teach Typing in the High School for the one year on a part-time basis. Mrs. Gilbert holds a Commercial Specialist's Certificate. time required was roughly estimated at three periods a day.

The second part of the meeting dealt with Public School business. Present werd the Chairman, Mr. F.B. Greaves, Mr. H. Hayston, Mr. M. Carisse, Mr. E. McKinley, Mr. H. Dunsby, Mr. A. Smith. Mr. C.R. Judd was present, and the princi pal of the new Public School, Mr. Steve The Secretary was also present. Telenko.

The big question in the minds of all whether the new school would be ready for September 8. Mr. Hayston reported that the architect stated that it would be open by the following Monday. It was decided meanwhile to hold stagger ed classes in the old Public School, the children who would be enrobled in the new school to attend in the afternoon. All the pupils' desks, teachers' and principal's desks had arrived, and the only remaining major purchase of furniture for the new school was for the staff room. This matter was left to Mr. Carisse. Mr. Hayston was appointed to have the grounds of the new school graded. Mr. Smith reported the alterations required to turn the Grade One classroom into a kindergarten were finished except for a little of the painting. Furniture

NORMAN THREAT TO FUTURE OF CAPREOL PLANNING BOARD MUST BE RE_APPOINTED DEPARTMENT OFFICIAL TELLS PLANNING BOARD

The Township of Norman is a real threat to the future of Capreol, Mr J. Pearson, of the Department of Planning and Development, told the Capreol Planning Board last week.

Capreol will grow extensively in the next few years, he said, and it is imperative to define the planning area that will come under the jurisdiction of the Capreol planning board. In principal it is wise, he said, to take in Norman now - from the standpoint of both the citizens of Capreol and Norman.

Pearson, an official of the Community Planning branch, has been attending the Municipal Convention in Sudbury and asked Clerk Allistair MacLean to contact members of the newly formed planning board for an informal meeting at the council chambers. Councillor Frank Mazzuca and Coun. Jim Coyne, along with Norm Fawcett represented the planning board.

The first step in setting up a planning board, he said, is to send a resolution to the Minister defining the planning area.

"You must think in terms of how the Town will look in the future," he said. "Norman eventually will be under the influence of the Capreol planning board so it would be advisable to bring them in now. I would also suggest that you appoint one member from Norman as well."

The present planning board will have to be re-appointed, Pearson said. Those appointed by council last month were: Tommy Short, Norm Fawcett, Jim Farquharson and Don Prescott. Mazzuca and Coyne represent council.

It was brought out that no employee of a town with the exception of school teachers can act on the board. Don Prescott, therefore, can not act on the board but can be an advisory member without a vote.

"This leaves the way open to appoint a member from Norman," Pearson said, "if you so desire to act for that area.

"There are three things a planning board must do. First of all study the building by—law and check it against the provincial counterpart, a 64 page report. Insurance rates and real estate value go together with a building by—law so you must have sub—division control to prevent cutting up of lots which decreases real estate values. Look to the future, not what has happened before.

"Four or more areas should be defined - industrial, commercial, residential, parks and possibly public buildings.

"The purpose of zoning," Pearson continued, "is to protect essential values of the residential areas. The business district should be kept together to generate good shopping for the whole area. The commercial base deserves your complete attention.

"You should be wary of letting small stores start up in (Con on page θ)

DEATH - Requiem high mass was sung in Our Lady of Peace Roman Catholic church on Thursday September 3, 1959 for Leandro Sbrega who died at his home, 97 Young street, Capreol, on Monday, August 31.

The Mass was celebrated by Rev. H.A. O'Neill, with burial taking place in Capreol Roman Catholic cemetery.

Honorary pallbearers were:
H. Colasimone, G. Colasimone, G. Coulson,
C. Fitzsimmons, D. Christopher and H.
Normand.

Active pallbearers were:
N. Tagliabracchi, M.J. Lee, L. Fouceault,
L DelGreco, L Leduc and G. Larocque.

Surviving besides his wife, the former Nina Colasimone, are two sons, Henry and Armand, two daughters, Mrs. Lawrence MacDonald(Virginia) and Frances, five grandchildren all of Capreol and one brother, Guiseppe of Italy.

Relatives and friends from out of town included Mr.& Mrs. O. Sbrega, Sudbury; Mrs. F. Penzin, Windsor; Mrs. L. Manni, Detroit; Mr.& Mrs. M. Arezza, Mr.& Mrs. Dolcetti, Mrs. J. Massara, Mrs. P. Bould, Grant and Allan MacDonald, all of Toronto; Mr.& Mrs. T Dellelce and Mr. Leo Lasorsa of Sudbury.

CARD OF THANKS

We wish to express our sincere appreciation to our relatives, friends and neighbours for their many acts of kindness during our recent bereavement.

To all who supplied cars and food, sent spiritual or floral offerings go our heartfelt thanks.

We are especially grateful to Rev. H.A. O'Neill, the Daughters of Isabella and the Knights of Columbus.

Mrs. N. Sbrega and family अरुप्यत्यसम्बद्धाः

SOFTBALL_BASEBALL con. from page 1)

Bevilacque had two strikeouts in each of the fifth, sixth and seventh and struck out the side in the eighth.

Capreol scored one in the first inning on a single by Gil Poukkula, a walk and an error. The winning run came in the second on successive doubles by Ezio Bevilz cque and George Hastis. Doug White tripled in the third and scored on a fly to centre by Sil DelPapa.

J. Doaust on the mound for Park Hotel allowed five hits, struck out four and

walked two. Bevilacque walked one.

The second of the semi-final played in Sudbury, Sunday, ended in a tie 1-1 and will be replayed this week.

residential districts; is they fail they are eyesores; if they succeed others will follow which create many problems. With the possible exception of a grocery store no shops should be allowed in the new sub-division you have planned. This does not apply to industry, however.

"Capreol has a very bad parking problem," Pearson went on, "and it will someday hurt your commercial area. Parking

should be either angle or

"Long term outlook for a planning board is to protect a council for the next 15 years. Some tewns have let nature take its course resulting in loss of their potentalities and many of their youth leave for better prospective areas.

"You also need a complete new sewer system. This happens to most towns because they do not think aheas as much as they should. You should think almost

further than you dare.

"It is also wise to be honest with industries. You must have the services

to back up your statements.

On a question by Alistair MacLean regarding use of the Elliot Lake by-law as a model, Pearson agreed that it would be an excellent one to follow.

A meeting will be held soon to reappoint a planning board with Mayor H. Prescott acting as chairman during the election of a chairman, secretary and treasurer.

RECREATION REPORT - by Norm Fawcett

It is the opinion of the writer that serious thought should be given to the matter of properly organizing playground baseball in Capreol.

Many of the boys who have been competing in exhibition games in the Little League group this season will be too old for this age group by the time another summer rolls around and some provision should be made to previde the oppurtunity for these lads to follow up this sport as many of them are outstanding for their age.

At the present time there are a number of boys who played in the Little League group a year ago who were deprived of the opportunity of competing this past summer because of the fact that they were a matter of a very few months beyond Little League age.

These boys will be eligible to play in what is known as the Pony League group next season as will some of this years

Little Leaguers.

The combination of the two could mean a top notch Pony League term; in addition there are s sufficient number of this years Little Leaguers still eligible for next year to form the nucleus of a better than average Little League team.

It takes time and money to properly operate a playground baseball setup, locally or otherwise, and much volunteer help is required. Proper organization is the prime requisite and in order to handle the matter locally, a local playground association

should be formed. The first steps should be taken now; an executive set up, plans made for financing, the matter of a proper playing field and facilities, thoroughly gone into and details worked out with interested neighbouring communities.

It would be appreciated if all interested people would make it a point to contact the writer so that arrangements can be made for an organizational meeting.

Whether or not you know anything about baseball is not important. The prin consideration should be to give the beys who are interested the opportunity they deserve and anyone who has witnessed the ability of these lade will agree that they are deserving of that opportunity.

NEW MEDICAL OFFICES OPENS NEXT MONDAY

Capreol' new medical offices on Young Street are scheduled to open Sept.

The building constructed by W.A. Gibson, contains two modern apartments on the top floor, two identical offices and medical rooms on the first floor and rooms suitable for business concerns on the ground floor.

Dr. D.A. McGowan and Dr. G.H. Shield will formally open the building on Monday

September 14th.

The medical office on one side has the doctors office, an examination room, another exam. room, wash room and an emergency room. The office on the other side of the building is identical except that in place of the emergency room there is a room for pediatrics.

Between the two offices which run from front to rear of building, there is a waiting room, a nurses laboratory and

a reception desk.

The archictect was Harold Saville who also designed the C.R. Judd Public School.

The building uses an oil fired hot air heating system. Has two separate systems, one for the clinic, the other for the apartments. It has three electrical systems, one for the clinic and one each for the apartments.

The ground floor has the office of the EXPRESS and the Licence bureau, and a large room to be used for recreation.
