New! Northlander Service

Toronto-North Bay
North Bay-Timmins

Luxury travel, and passenger comfort in a special Ontario Northland passenger train

Hon. William G. Davis, Premier
Hon. James Snow, Minister of Transportation
and Communications
Roy K. McChesney, Chairman, Ontario
Northland Transportation Commission

The 'Northlander' – a new concept in Canada in a single-unit passenger train... styled in the manner of the famous Trans-Europ-Express

Now you can travel in luxury between Toronto, North Bay and Timmins aboard the Ontario Northlander's exciting new single-unit, four-section 'NORTHLANDER' six days a week.

Check these special features:

Seat reservation service. All seats on the Northlander are reserved and reservations can be made by telephone or in person. Seat selection is available as you board the train.

Choice of compartment or coach accommodation— at the same fare. One section of the 'NORTHLANDER' consists of European-style, glassed-in, six-passenger compartments. They are ideal for families, small groups or individuals. In the coach section there are single facing seats on one side of the aisle and double facing seats on the other side of the aisle.

Dining car meal service. An attractive 'NORTHLANDER' dining car with unusually large windows offers full course meals and full bar beverage service.

Snack cart service. Sandwiches, hot and cold beverages, chocolate bars, nibbles, etc., are available in all sections of the 'NORTHLANDER' throughout your trip.

Smoking and non-smoking sections

permit you to sit where you'll be most comfortable.

Washrooms and water fountains are located throughout the 'NORTHLANDER'.

Passenger-handled baggage is stored in generous overhead racks to keep your personal items close at hand, and eliminate waiting for luggage to be unloaded. Checked baggage service is not available.

Adjustable seating. The seats and back

cushions in both the compartment and coach sections of the 'NORTHLANDER' can be adjusted by depressing a button on the arm-rest.

Compartment facilities include seats with centre arm-rests that can be folded upwards, and pull-out ash trays. For added passenger convenience, pull-out tables are located under the windows. **Air-conditioned throughout.** All sections of the

'NORTHLANDER' are automatically air-conditioned to create a pleasant atmosphere throughout your journey.

Litter bags are provided for your use.

'NORTHLANDER' Service is available six-days-a-week, including every weekend. Check schedule on back of this folder.
