Dear Wife

I again set myself down to write another letter altho I havent got one since the one that had the paper and envelope in.

Well wife we ar back to Kingston. We came back to guard an ambulance and -----train. Kingston is about 30 miles from the battlefield. they ar still fiting yet we have not fiered a----- since the fight comenced and I dont care if we dont for I dont care any thing about fighting any more. there has been-----many kiled and wounded.

Well Esther I am as well as could be expected for I have been tramping and fighting for one month and I have got the ----- but if we stay hear 2 or 3 days I will be all rite again and I think we will. Wife I would like have a letter from you and I would like to know if you have got any of mine for want you to know how I get along. Well I dont know what to write for I dont feel like writing but I want to write you something. there is about 50 Rebs prisoners about 40 yards from me while I am writing to you. I dont feel vary well toward them. I would just as-----cut their throats -----.

Swaringen and Park is all rite what is of them.

the wether is vary warm and dry. the dust is vary bad. we was out of rations when we got here and I went down to ----- Regt that ----- been there and tried to get some meat and they gave me some and I felt vary thankful for it and felt much better than if I had stole it.

Well Esther I will stop for this time. I will write some more before I send it. Well ----- I have had a good night sleep and breckfast and I feel better than I did yesterday and I will tell a little more to you this morning.

We ar here and the probability is that we will stay for 3 or 4 days and mabe longer.

The boys is all on picket but my self I dont have to picket untill some of our sargents come up.

Esther I would like to ge a letter this morning but dont know whether will or not. it is reported that they have been fiting hard in front since we left and I think they have for we could here them all the way as we came down. it is about 30 miles to the battle field and we can here the canons -----plane.

I want you to give me all the news. if one sheat is out hold it take another. I will have to stop for the male is going out this time.

E White to Esther
