

I wrote to you in my
last letter that I wanted
some money, you may think
that I have been spending
money fast, I can spend money
here and not know where
it goes I lost one dollar
of my money and have
spent almost all of the
rest, we have plenty
to eat now we have plenty
of government shingles
and coffee and meat
we have been moving
so much that we have
been short of provision
and would by any thing
that we could get to eat

The camp is always
full of women with pies
and cakes apples every
thing else (and plenty of
and so forth) but I
have not brought any
of that yet now have
no anxiety for it
This letter is purely
written I have to write
on my knees and in a
hurry
I want you to write
often if you don't want
me to get the blues
I bought a package of paper
the other day and got a
fire in it and will
send it to you

Tell G Downy I am
looking for an answer
to that letter that I wrote
to him
you wanted to know
whether I got that tobacco
and tea that you sent
me I got them and
somebody stole the tea
from me

~~G Downy~~
I must close the
letter for I am hungry
so good by for
the present
