

**As you can see,
Point Clear is exactly
what it sounds like.
So is our Grand Hotel.**

Come to the Point. Stroll under the massive moss-draped oaks. Pause on the white sand beaches. Tee off down a bright green fairway. Look across the blue, blue Bay. Breathe in the clear air. You'll know why this is the perfect peninsula for pleasure.

The first resort hotel in the South was built here in 1840. Today's modern Grand Hotel is third in a proud line. All the traditional charm and hospitality of the first two Grand Hotels blended with every comfort and convenience of today's resort living. We didn't spoil the setting. We only aim to spoil our guests.

When is the best time to come to the Point? Any time. Thanks to the temperate influence of Mobile Bay, we're a four season resort. The breezes blow cool across the Bay in summer. All you need is a light sweater for golf in January.

And when you come, you'll find more to do than you have time for. One visit isn't enough to enjoy all the pleasures of our 500 wooded acres. Which

is why our guests return again and again. Come once and we won't worry. We know you'll return. As one of our guests put it, "To such a destination as the Grand Hotel, the road is never long."
