

Guest rooms are in the three great wings spreading out from the center of the Hotel, thus assuring complete privacy and quiet. Natural and man-made beauty is on view from every window... which in azalea time and succeeding floral seasons... camellia, magnolia, wisteria, crape myrtle and mimosa... will delight the eye. Cypress-panelled, air-conditioned, each room and suite is of luxurious but restful decor, inviting true comfort and relaxation.

Spacious Accommodations

The cottage colony lying between the Bay and the Lagoon is perfectly suited to family vacations. Each guest house looks out upon water and is divided into two suites, each with two bedrooms, two baths, and a spacious living room. They may be opened into one. Full room service for meals indoors or out makes you independent... and the Yacht Basin and swimming pool are but a step away.

It is in the Main Lounge, the Sky-lounge, the Card Room and the new Terrace cocktail lounge that friends are made among agreeable and congenial guests from far and near. Many make an annual stay at the Grand Hotel a delightful habit.

Informality reigns and here is found the opportunity for companionship with new and interesting... often distinguished... people.

From baby sitters for the very small to supervised play for the more active, the Grand Hotel is ready. Plenty of fun... with safety... is the watchword.
