

*Mobile Bay tempers the seasons with cool breezes in Summer and a warming influence in Winter.*

The pleasure peninsula called Point Clear is lavishly blessed with the natural assets considered most valuable of all to a resort: scenic beauty and a climate that is ideal for enjoying the outdoors at any time of the year. For nearly a century before air conditioning, the first and second Grand Hotels on this site were Summer resorts.

Spaciousness, indoors and out, makes vacationing here utterly relaxed and enjoyable. One is never crowded or hurried on the golf course, in the dining room, or anywhere on this private 500-acre estate. Whether you seek diversion in activity or in quiet contemplation, there's room to find happiness in your own way, without intrusion.
