

Newly Expanded, Beautifully Restored... and Just Waiting to Be Discovered!

Point Clear, Alabama — A splendid resort location.

Year-round meeting in a tranquil setting.

Welcome to Marriott's Grand Hotel. This magnificent resort retreat is situated on 650 secluded acres encompassing moss-draped oaks...open fairways...shimmering lakes and lagoons...spectacular gardens...tempting recreational offerings...the sparkling white sands and crystal blue waters of Mobile Bay...and so much more.

Without a doubt, you've just discovered one of America's finest year-round meeting sites. A southern landmark with a tradition of over 140 years.

Getting down to business ...southern style.

Successful meetings are just part of a grand tradition at this Marriott. Steeped in fascinating history—and carefully restored to its original splendor—today's Grand Hotel embodies all the elegance, charm, and gracious living of the Old South. And now our expanded, redesigned facilities give meeting planners *and* meeting goers over twice as much space as before. With 310 rooms and over 12,000 square feet of meeting space *under one roof*, we're exceptionally well-equipped to handle all your convention, banquet, conference, and reception needs.

New bayhouse and marina house.

At the heart of it all is our richly-rustic main building with octagonal lobby. Its massive cathedral fireplace towers three stories from the wide-wood pine floor to the high, cypress-beamed ceiling.

The Grand Hotel's newly-expanded conference center, connected by covered walkway to the main building, is structured for meeting privacy. Here you'll find over 6,500 square feet of flexible meeting space to work with; space which can be sectioned off into seven separate meeting rooms, accommodating up to 750 people.

There are two new boardrooms, located in the main building, with handsome conference tables and comfortable armchairs which add to meeting pleasure. (Please refer to the capacity chart on back panel for floor plans, room dimensions, and more complete information.)

Excellent audio/visual facilities are available, including large, electronically-operated projection screens in four rooms, and individual 110 volt electrical outlets with telephone lines for computer hook-ups. Easels, podiums, chalkboards, microphones, and other technical aids are also available. And you can select from a complete line of rental audio/visual equipment.

Flexible facilities assure successful meetings.

But above all, Marriott's Grand Hotel offers you the highest level of professionalism. No detail will be overlooked. No request will go unheeded. So you can be assured of successful meetings *every* time.
