

RATIONING DOES NOT PREVENT A HAPPY AND RESTFUL VACA- TION *at* GRAND HOTEL

You can still have a good time and a restful, healthful vacation at Grand Hotel—a vacation that will mean more to you now than ever before, since now more than ever, a successful vacation is important to you.

At Grand Hotel you will find countless opportunities for good times. Tennis, a putting green, badminton, shuffleboard; fishing, crabbing, boating; archery, horse shoe pitching, table tennis—all these and many other sports and pastimes are available. Equipment is on hand for indoor games.

Competent guides are available for fishing, and the neighborhood offers many opportunities for pleasant hikes to nearby spots of historic and other interest. A visit to Grand Hotel's ranch and chicken farm is an excursion enjoyed by many. Other excursions offer interest, and bicycles, for both women and men, are kept ready for use at the hotel. Besides those named, a great many opportunities for fun and activity will be found on or adjacent to the hotel grounds.

For children, there is a large play house and playground, and nurses can be engaged, leaving parents at liberty to enjoy themselves freely in their own activities.

So we say—come to Grand Hotel confident that a complete and invigorating vacation, full of good times and good cheer, still awaits you. In spite of rationing, you will find opportunity for the kind of vacation you will enjoy, and benefit from, to the utmost!
