

An Offering of Fine Wine by the Glass and Bottle

For your enjoyment, we have chosen our cellar's finest values for the list of wines we proudly offer below. Value depends equally on quality and price, and these selections are the most exceptional wines we have found in this very affordable price category.

We invite you to select a few wines by the glass before choosing a bottle, or suggest you select a different wine by the glass to accompany each course of your meal. Our staff will be most happy to assist you should you have any questions.
