

AND WHAT'S MORE—

Your work was never more important. And so, if you can't find time to take a full vacation this year, just a few days at Grand Hotel will do you worlds of good and you'll return to your desk—ready for action! The location is most convenient to all points in the South and Midwest—easy accessible by rail, auto or plane. Reviewing briefly the facilities not pictured:

A delightful Orchestra plays for the Cocktail Hour each evening and, after dinner, for dancing until 11:30. On Saturday evenings the music continues until midnight.

"Julep Point"—a screened piazza on the extreme of the point. It borders the shuffleboard floor, where there is also outdoor dancing in the evenings. Icy drinks made with mint right out of beds on the spot give the point its name.

Children's playground and a big play-house make it a simple matter for mothers to relax while the youngsters amuse themselves in safety. Nurses may be engaged.

The Cocktail Lounge is just off the lobby. Here your favorite drink is served by a skilled bartender in a cozy atmosphere that spurs conversation. Drinks also are served on the front verandah nearby.
