### State News from the Capitol

OLYMPIA, JAN. 16, (UP)—The

last meeting of the Advisory Tax Commission was almost entirely devoted to consideration of the proposal of Dr. N. D. Showalter, state superintendent of public instruction, for complete revision of the school financing system in Washington.

While Dr. Showalter's measure for correcting the inequalities of school finances may not be submitted to the 1931 legislature in the same form as last year, the commission made it known that it favored some sort of revision and would back the educator 100 per cent in his efforts to work out a practical solution to the problem which is annually becoming more aggravated.

Inequalities of the system are chiefly due to the vast differences in valuation of property in school districts, or the value behind each pupil attending school.

In a majority of cases, the lower the valuation of a district, the higher the taxes for support of the schools within that district placing an unjust burden upon the taxpayers therein.

In Island county during the school year 1928-1929, for example, graded schools in Greenbank district had the highest valuation behind each pupil in school, or \$4,255 while Langley-Clinton district had only \$1,719 valuation behind each pupil, the lowest in the county.

Thus the cost of maintaining a pupil in school greatly varies, making the cost prohibitive in some of the poorer districts.

Coupeville Union High School district in the county had the highest cost per pupil in graded schools, paying \$139.80 per pupil during the year and Coupeville No. 2 district had the lowest cost per pupil, or \$56.72 during the year.

In one room-schools in Island county the valuation behind each pupil varied from \$131,244 to only \$50,600.

These are only a few of the dissimilarities noted in the most complete analysis of the school financing system ever made in the state of Washington.

Dr. Showalter intends to leave nothing to conjecture in the future when he is dealing with men who know little about this type of taxation. L. D. Burrus, director of the bureau of statistics and information, of the department of education, has worked for several months compiling statistical information of every description to show doubters and unbelievers.

The Advisory Tax Commission, appointed by Governor Roland H. Hartley to evolve a new tax program for Washington, will hold meetings in virtually every section of the state and have urged taxpayers and citizens to come forward with suggestions for betterment and improvement of the school financing system or any other branch of taxation now in vogue or applicable to this state.

Open public meetings will be held in Vancouver on Feb. 3, Chehalis or Centralia Feb. 4, Hoquiam or Aberdeen Feb. 5, and Olympia Feb. 6. Other meetings will be held later in Everett, Bellingham, Seattle, Tacoma, Port Orchard, Port Angeles, Yakima, Walla Walla, Spokane and Wenatchee.

### Election Board Pay Raised

Henceforth members of the Coupeville election board will be paid \$4.00 for services rendered on election day, according to action taken by the city council in its regular meeting Tuesday night.

The new salary constitutes an increase of \$1.00 over the previous wage. In 1912 the council passed a ruling fixing the wage of each member of the election board at \$3.00. It has been in force ever since.

### Reasons Given

Reasons for raising the pay were that other cities the size of Coupeville are observing the \$4.00 per day, or 50 cents per hour scale for election day services; that \$3.00 was an insufficient amount in relation to wages in other lines of work; and that the sacrifice by the members from their own work warranted the raise.

The council discussed the advisability of setting election hours officially from 8 a. m. to 8 p. m. This time limitation is in accordance with state regulation, and it was the consensus of opinion that it should be adhered to in Coupeville.

### Fund at Lowest

The general expense fund of the city was reported at the lowest it has ever been. However minor bills were allowed, but two major debts were ordered held up until the fund could take care of them.

Other actions taken were to put in to good running condition the gas line engine rented from Wallace Benson a year and a half ago and to return it; and to proceed with the foundation for the city equipment house as soon as weather will permit.

### FORMER ISLAND BOY RECEIVES APPOINTMENT

George W. Winterburn, well known throughout the county has been chosen for appointment to the Military Academy at West Point by President Hoover.

Young Winterburn, now living in Bellingham, was until three years ago a resident of Fort Casey. He is a private first class, in Company I 161st Infantry, Washington National Guard.

### SCHOOL DIRECTORS OF COUNTY MEET IN ALL-DAY SESSION

W. J. MATTERS ASSISTANT STATE  
SUPERINTENDENT, SPEAKS TO  
DIRECTORS AND TO P. T. A.

School directors from the various districts of Island County came together on Wednesday, January 30 for their annual session. The meeting was called in the courtroom of the county building at Coupeville at 10 o'clock with a fair representation of directors present.

The morning was devoted to a round table conference on many topics of particular importance. R. L. Maylor, County Clerk, led the discussion on Exempt License Forms, Ralph Lindsay on Liability Insurance, and Mrs. Nelle Benson on Uniform School Calendar.

### State Directors' Report

Reports of the state directors meeting held in Olympia last year were made by C. E. McIntosh and Mitchell Wagner. Their reports were well received and both were elected to represent Island County at the state meeting again this year. Mr. McIntosh is delegate from the 2nd class districts and Mr. Wagner from the 3rd class. Mrs. Nelle Benson was chosen as delegate-at-large. The State Directors' Meeting will be held Feb. 12 at Olympia.

### Feek Again President

All the officers were re-elected for another term. Charles Feek will serve again as president, R. P. Kinosh as vice-president and Mrs. Jessie Watson as secretary-treasurer. This election is an evidence of the splendid work done by these officers during the past term.

### Resolutions Committee Reports

The committee on resolutions named by President Charles Feek included Mrs. Nelle Benson, chairman, Mrs. Clarence Hunziker of Langley, and Fred Arnold of San de Fuca.

Three resolutions were made by the committee and accepted by the directors' association. The first was to adopt a uniform school calendar for all districts in Island County. This calendar is to be drawn up by the County Superintendent, Mrs. Evelyn Spencer, at the beginning of the school year.

The second resolution was to hold county directors meetings semi annually rather than annually as has been the practice. These meetings will be held the last week in March and the first week in November.

Thirdly, the directors resolved to thank the state office for the courtesy in sending Mr. W. J. Matters, assistant state superintendent to their meeting and to thank Mrs. Spencer for her large part in arranging the meeting and making for its success.

### Matters Speaks to P. T. A.

Dr. N. D. Showalter, unable to attend the meeting sent as his substitute, W. J. Matters, assistant state superintendent, who very ably led the afternoon discussion on the Showalter Bill and addressed the P. T. A. at the high school in the evening.

Mr. Matters' talk to the P. T. A. was most interesting and the small group who heard him were very attentive and asked many questions at the close.

### LAST RITES HELD FOR MRS. NELLIE CRAWFORD

Mrs. Nellie Crawford, one of our old residents, passed away last Saturday at the Everett hospital. Her body was brought here for interment last Monday. The funeral service was read at the Sunnyside Cemetery by Rev. J. R. Butler, as the remains of the deceased were consigned to their last resting-place.

Mrs. Crawford came to Coupeville with her husband and children nearly 30 years ago. She was a genial refined lady and a great reader. She made many friends on the island. Her husband passed from earth several years ago. Her son, William Crawford of Eastern Washington, and her daughter, Mrs. Ronald Race, survive her. The deceased had been a semi-invalid for some time due to injuries sustained when struck by a car.

### COUNTY GAME BOARD GIVEN \$825 RELIEF

Relief in the form of a \$825.00 voucher has come to Island county game warden M. DeVries from State supervisor S. F. Rathbun.

Similar financial relief was granted to other county game commissioners whose revenues were limited.

The state game division by practicing strict economy in expending its revenues acquired sufficient funds to provide for this relief. A provision for this action was included in the budget governing the present biennium.

This financial assistance promised to be very helpful to the county game work, according to Warden DeVries.

Further relief of a similar nature has been virtually promised for 1930 if the proper state authorities so find it. Rathbun has announced.

The tastiest basketball dish of the season will be served Island county fans tonight, Friday, in the Coupeville gymnasium when Oak Harbor and the county seat schools tangle.

Competition has always been most spirited between these two schools. A triple-dose will be administered to the followers of the hoop sport as the reserve and girls' teams will also lock elbows and ankles.

### First Game at 7

The reserve teams will open the evening at 7 o'clock with the first tussle. This game will be followed with the feminine affair, and last the real struggle for supremacy of the county between the first teams.

According to preseason and early season dope the two schools stand off about even. The Wildcats have bucked up against more and stiffer competition than have the Wolves although against the same weaker teams the Wolves have shown a little hedge. The winner of tonight's game will be the favored team to represent Island county at the preliminary playoffs at Everett.

### Fight at Centers

Coach Fish and Coach Hagensen are expected to start their regular lineups. Pre-game dope seems to indicate that the tip-off position and the playing of the respective centers will probably be the deciding factor in the outcome of the game as both teams seem to be evenly matched otherwise. It should be a battle of centers.

The girls' struggle will mark the first county game in that division and the first time this season that the Coupeville girls' team show at home. Athletic Manager Brower announced that popular prices will prevail and the stove red hot.

## WHY MAKE CHANGES?

Change is improvement. People don't seem to think of it that manner. When a change is suggested they hold back and say, "What we have is all right—it does the work. We have been getting along with it for years, why change?" Doing the work and getting along is important, but improvement is more important.

In the world of industry it is a question of change, change, change, all the time—and it is always going to be that way.

People, like industries, who do not change and who become satisfied with themselves don't last long. While they are admiring themselves and feeling self sufficient others have forgotten the looking-glass and have been moving ahead.

## BELIEVE IT OR NOT

Men in the United States are disabled by illness on an average of once a year, according to figures published in the current issue of The American Druggist. The average woman can expect one to two periods of illness more than twice each school year.

Most of these periods of illness occur during the three months of January, February and March, and the chief causes are colds and bronchial conditions, influenza and grippe.

## BE SEATED

Coupeville high school needs a few tiers of seats erected in its gymnasium to take care of the fans and supporters who attend games held there and for those others who would come if such accommodations were provided.

As it is the single row of benches along each side of the gymnasium is occupied by players and a few students. The rest who are present at games must stand at the entrance and peek over each others shoulders to view the game.

The same spirit that prompted the community to build the grade school play-shed (gymnasium) should start the ball rolling for this needed improvement.

## What Happened Here 30 Years Ago

From the Files of Jan. 19, 1900  
Laurin Gillespie went to Seattle Thursday.

Capt. J. E. Evans, after twelve years service as keeper of the Admiralty Head light has been promoted to a better position, with his estimable wife takes his departure for Astoria, Oregon, this week, where he will have charge of the light house stores for this district. While the many friends of Capt. and Mrs. Evans rejoice in the good fortune which the change brings to them, this pleasure is mixed with a sincere regret that it necessitates their removal from a community in which they have so long been honored members. The Times follows them in their new home to keep them posted on exciting events transpiring here at the old stand.

1900

Joseph Sweeney of Friday Harbor a Whidby Island pioneer, passed through Coupeville on his way to Port Townsend last Saturday. Mr. Sweeney and associates have valuable fish traps located on the straits and he is a member of the syndicate that is making preparations to put in a large fish cannery at Port Townsend.

## "PERMANENT" HAIRDRESS FOR MILADY 1800

The busy modern woman has many things to be thankful for, among them the fact that she didn't live at the beginning of the last century when the lady of fashion was expected to wear a tower of greased and powdered hair a foot and a half high—and, moreover, was expected to sleep in it!

A writer in the current Harper's Bazaar, describing this most incredible of civilized fashions, reproduces the advertisement of a firm of London hair-dressers of the period:

"Messrs. Clark & Clark claim to have discovered the secret of doing gentle-women's hair to last them in perfect condition throughout a quarter of a year."

Among the individual touches the same firm's offer to willing clients is "a miniature coach and six to be built into the snowy towers of hair."

## ..The Hostess..

### The Informal Dinner

The most enjoyable and most thoroughly appreciated of all home entertaining is perhaps the informal dinner.

The homemaker who delights in hospitality even when her family is alone will find few embellishments necessary when entertaining guests informally.

### The Table

The table should be laid with as much care as for a formal dinner. White or delicately colored damask, now so popular, is laid over the silence cloth. Service plates, silver and tumblers or goblets are arranged as for the formal dinner. Individual bread and butter plates are placed just above the fork. The centerpiece of flowers or fern should be simply but artistically arranged. Salt and pepper shakers remain on the table throughout the meal, as well as bonbon and salted nut dishes, if used.

### The Question of Serving

Everyone, guests as well as family members assist in passing accessories around the table. Each dish should be passed first to the hostess who helps herself and passes the dish to the one on her right, each guest in turn helping himself.

If the dinner is to be served family style the host serves each plate from the platter and vegetable dishes placed before him. The first plate is passed to the hostess. Vegetables and sauces may be served by the host but are frequently served by the hostess. When serving very informally they may be passed.

A simple way to serve the informal dinner is for the hostess, or a waitress, to serve the courses direct from the kitchen, serving the guest of honor first. This method of serving is particularly appreciated by hosts who do not like to carve.

### The Menu

The menu should be well balanced and attractive but need not be elaborate. A simple dinner would consist of a cocktail or soup, a meat course with at least three vegetables and a salad, and a dessert course with tea or coffee.

If a five course dinner is desired both the cocktail and soup would be served, then the salad, as a separate course, the meat course and the dessert. The courses should be well chosen so that there will be a variety in the meal. Such mistakes as serving a fruit cocktail with fruit salad or soup and salad both of vegetables should always be avoided.

A few carefully selected courses, well cooked, simply but colorfully garnished and properly served make any home dinner a success.

## THIS WEEK'S RECIPE

We have this week two cocktail recipes which may be served as a first course for either a formal or informal dinner.

### Crab Cocktail

To four tablespoons tomato catsup, add one tablespoon each of lemon juice and horseradish and ½ teaspoon finely chopped chives. Season with salt, paprika and a very little cayenne and mix thoroughly.

Put two tablespoons crab meat in each cocktail glass and pour a portion of the mixture over each. Sprinkle with finely chopped green or red peppers.

### Mint Fruit Cocktail

Mix one cup grapefruit juice, the juice of two oranges and one lemon, 1-3 cup sugar syrup, eight mint leaves and a pinch of salt. Put in a mason jar, cover and shake until thoroughly blended. Strain and chill. Fill cocktail glasses with cubes of orange and pineapple in equal parts. Pour over some of the prepared juice and garnish with finely chopped mint leaves.

Crisp salted crackers are served with either cocktail.

### Accidents of Mental Origin

Ninety per cent of accidents are of mental origin, according to Dr. Harold S. Hulbert of the Department of Mental and Nervous Diseases, University of Illinois.

In an address before the National Safety Council, Dr. Hulbert explained that these accidents are the result not of insanity or mental incompetence, but of thoughtlessness or carelessness.

A combination of salt and sugar and saltpepper makes a good "cure" for pork. Salt used alone is apt to make the meat rather harsh and dry, but the sugar mellows the cure and improves the flavor of the meat. A good grade of dairy salt, or table salt, should be used.

## LAMB ADAPTED TO BALANCED DIET

The housewife is often puzzled as to what to serve with her various lamb dishes. Dressings, vegetables and sauces add greatly to the flavor of any dish, and the delicate flavor of lamb is especially enhanced if care is taken in this matter.

The following list is an excellent guide for preparing a meal that will be both well balanced and attractive to the sense of taste.

### Roast Leg of Lamb

Dressing: browned potatoes, creamed potatoes, baked potatoes, sweet potatoes, new peas, asparagus, new string beans, scalloped tomatoes, mashed rutabagas; mint sauce, green grape jelly, or any tart jelly.

### Roast Breast of Lamb

Bread dressing; potatoes roasted with meat, baked potatoes, boiled rice, asparagus, spinach, white turnips, squash, creamed peas, peas with mint, scalloped onions; brown, cream, or tomato sauce with peas; currant, mint or green grape jelly.

### Crown Roast of Lamb

Fill center with vegetables Mace-doine, potato straws, Saratoga chips, potato balls, French fried potatoes, Bernhardt potatoes, buttered peas, puree of chestnuts, glazed chestnuts; if centers are not filled, serve with puffed potatoes, creamed potatoes, new peas, spring onions, string beans, turnips in white sauce; mint jelly, or tart jelly.

### Lamb Stew

Cooked with onions, potatoes, tomatoes, rice and carrots. Serve with apple sauce or mint jelly.

### Boiled Lamb

Boiled or mashed potatoes, buttered peas with carrots, new peas, asparagus, string beans, tomatoes, cole slaw; caper or onion sauce, currant jelly sauce.

### Stuffed Chops

Mashed potatoes, turnips in white sauce; brown sauce, Allemande sauce, Bechamel sauce, tomato sauce, onion sauce.

## A FEW WAYS TO SPEND WINTER HOURS ON FARM

The farmer who regards winter as loafing time is likely to find himself far behind the procession in the spring, notes The Farm Journal for January. The modern farm is an all-year-round job, it observes, and lists a few examples of profitable winter activity, as follows:

Order fertilizer.  
Burn out the chimneys.  
Spread lime on sour soil.  
Test seeds for germination.  
Start keeping farm accounts.  
Plan the garden and order seeds.  
Start hotbed and make cold-frame.  
Lay cement walks during mild spells.  
Buy or hatch chicks for June-laying pullets.  
Change automobile tires to different wheels.  
Put lawn-mower and garden-cultivator in shape.  
Grind valves on tractor, and have dealer go over gears and bearings.  
Plan rearrangement of fields and fences for greater economy.  
See that poultry and stock get direct sunlight or something to take its place.

## RECORD MADE CLEARING OFF LAND OF STUMPS

With the vacuum burner one farmer in Pierce County burned out 264 stumps, many of them quite large, on two and one-half acres of land this fall at a total cost of \$4.70.

The necessary work of attending to the burners was done at odd times while he was milking 20 cows, delivering the milk to the roadside, harvesting his hay crop and doing other farm chores.

### WELCOME

Well, here we are back again. After an absence of about three weeks we are glad to be able to publish our school news again. We have resolved to make the news better and bigger than before.

If you enjoy our news, tell some of the news class, we'll appreciate it.

### SEMESTER EXAMS

This week is a very important one to most of the high school students. It brings the dreaded "semester exams." To some students it might mean an additional year in school but we're optimistic—of course we'll get through.

### The JOKSTER . . . .

### REDUCTION IN PRICE

#### MADE ON TRACTORS

The Caterpillar Tractor Company has recently announced a generous price reduction on all "Caterpillar" products, including five sizes of tractors, eleven types of road machinery, and three combine harvesters. According to Harry B. Fay, president of the Western Tractor & Equipment Company, Western Washington distributor of "Caterpillar" products, this reduction is the sixth in four years.

Reductions on the "Caterpillar" Tractors are from \$125 to \$25; on road machinery (formerly Russell) from \$285 to \$100; and on combine harvesters, from \$495 to \$115.

It is expected that the great reductions on harvesting machinery will lead to more general use of this type of equipment in Western Washington, where the grain fields are relatively small and the economies of combine harvesting have hitherto been offset by an initial investment out of proportion to the service rendered.

### DEBATERS LOSE TO SEDRO WOOLEY HIGH

#### Season Closes With Only Two Reverses; Affirmative Side Successful

The debate season closed last Friday when our team journeyed to Sedro Wooley and lost the second negative debate. Jack Engstrom, Hollis Stoddard and Robert Pratt who compose the affirmative team, have won both of their affirmative debates, but on taking the negative side, lost.

Our first debate was with Stanwood here. Having the affirmative side, we won. Then the negative team, composed of John Brower, Amos Schulke and Tom Whalen, went to Lake Stevens. They lost the debate.

Friday Harbor's negative team lost to our affirmative team here in the only evening debate of the season.

The debaters, besides receiving valuable training in public speaking, will receive suitable awards.

### BASKETBALL REVIEW

Since the beginning of the basketball season, the boys' first team has played the town team several times, mostly practice games. They seem to be about an even match and changed about, winning the games.

The first high school game was played with Custer, Coupeville coming through victoriously with a score of 25 to 15. This game was played in the Coupeville gym December 27.

The following Thursday night both the boys' and girls' teams went to Port Townsend where the boys successfully defeated their Red and White opponents, 27 to 8. The girls

### DECEMBER ATTENDANCE

#### LISTED AT 96.69 PER CENT

The attendance record for December is as follows: Seniors, 96.82 per cent; Juniors, 94.75 per cent; Sophomores, 97.05 per cent; and Freshmen, 98.73 per cent. The average for the entire school was 96.69 per cent.

however, were not quite as successful, losing their game 20 to 7.

On January 3 the boys played Toit and defeated the Contented Milk huskies, 33 to 9.

The first game of the county championship conference, was played against Langley January 10. The first team game was very close, two overtime periods being necessary to play off the tie. The final score being 16 to 18. The second team was much more successful, defeating their opponents 21 to 7.

The following night the Wolves played Mount Vernon and suffered their first defeat of the season. They were ahead 9 to 8 at the end of the first half and held their own until the last 4 minutes of play, when Mount Vernon surged ahead to win the game 20 to 13.

### WOLVES TAKE CLOSE GAME FROM LANGLEY

#### Two Overtime Periods Necessary to Decide Winner; Close Checking Featured

In the most exciting and thrilling game of the season so far, Coupeville defeated Langley 16-18 last Friday night. The game was a nip and tuck affair until the last whistle sounded. Two overtime periods were necessary to determine the winner.

Langley's two speed bounds, Dahlman and Smith were constant threats to Coupeville and kept the Wolves constantly on the defense. Smith was high point man for the losers with 8 markers while Race featured for the winners with 10.

The game ended at 14 ailt, with Wildes of Langey to shoot two fou shots. The strain and responsibility was too much for him and the two teams went into the first overtime period with the score still tied. This period ended 14-14 and another overtime period made necessary. With the score 16-14 in favor of Langley, and a little over a minute of play left the Wolves showed their first real fight of the year. The game ended 16-18 in favor of the Pack. The next game between these teams is guaranteed to be a thriller.

As a curtain-raiser to the main event the Wolves' second team drubbed the Langley subs to the tune of 21-7. Schulke was high point man for the Pack with 11 markers to his credit.

Many seemingly impossible long shots were made in this game. This game showed that Coupeville has some fine reserve material. Schuke had his eye on the basket, converting six successive free throws. Willard played a fine game at guard.

### NEW UNIFORMS ON WAY

New suits have been purchased for the boys' basketball team. The trunks arrived last Thursday, but the jerseys are delayed until Jan. 20.

(Ye'd better watch your step: "there's a chiel amang ye takin' notes.")

Folks going along all humped up on account of the bracing weather. Why not straighten up and take it "like a little man?"

A GIFT BOX in one of our stores, marked "Two and a half"—Where does the gift come in?

A lady prophesying that this weather may last for six weeks. And another lady threatening the prophetess with mob violence—people have been hung for some lesser offense than that!

Our oldest citizen carrying home a suspicious-looking package. He confessed (more or less shamefacedly) that it really was a bottle—and he a reputable man at that.

Plumbers with a satisfied smile playing around their lips. Too many people are always rejoicing at others' misfortunes. But it is all in the way of business, you see.

A prominent church-member attending church last Sunday with his face in a truck. Alas! how demoralizing freezing weather is.

Four strange men going into the Central Hotel. As it was about noon time, it is possible they were seeking something for the inner man. Our village wag, however, suggested they had gone in because they had too much sense to stay out-doors in the cold. Then along came somebody else who said maybe they were hunting for every nook and corner for the prisoner who broke jail last Sunday night. Anyhow, if the latter freezes to death, he may wish he had staid in his former warm quarters.

A kind-hearted lady feeding the poor hungry birds. She says they will sing all the sweeter for her next summer. At any rate there will be three or four times as many of them to do the singing as there would be if half of them starved to death this winter.

Three jolly septuagenarians in front of one of the stores. Coupeville must be conducive to longevity, as in and around town there may be counted over forty persons who have reached, or passed, the sixty-five year limit.

A bevy of youth and beauty entering the Masonic hall one afternoon. Mayhap the Eastern Star sisters were planning how to spend their surplus fund—if surplus there be.

A store-keeper's wife (we had almost said one of the merchant's wives) counter-jumping, while her husband was away for a short time on business.

A smiling butcher, unaccompanied by the "baker and candlestick-maker" that Old Mother Goose classed him with in the Post Office. But he wore his white apron—badge of his calling—anyway.

## PACK DROPS GAME

TO MT. VERNON FIVE  
Last Saturday evening Mt. Vernon defeated Coupeville in their stiffest game of the season. The Wolverines were tired from their hard game with Langley the evening before and wilted before Mt. Vernon's barrage in the last period.

In the first half the Pack displayed some of the best teamwork of the year. The half ended 9-7 in favor of Coupeville. But the second half was a different story. Two games on two successive nights were too much for the Pack. The players began to weaken very noticeably in the last quarter and Mt. Vernon found the hoop for three successive baskets. The game ended 20-13 for Mt. Vernon. Neff was high point man for the winners with 10 points to his credit. Davies was high for the losers with 5.

SCHOOL DIRECTORS OF COUNTY HOLD MEET  
(Continued from Page 1)  
ties of educational opportunity he showed how parts of the Showalter Bill, recently defeated would have helped to remedy the situation. This bill would have provided for larger state support and decreased local support of education which would help materially in equalizing educational opportunity throughout the state.

At present there are a few small districts so rich in tax valuation that one or two mill levy provides a surplus of money for school needs. Other larger districts are less able to provide adequate budgets although the tax levy has been raised to from 20 to 47 mills. A larger state share of school support would help to equalize this discrepancy.

The speaker pointed out that the cost of education in the U. S. had increased 20 times in the last 50 years while the population had increased only three times and the school attendance four times.

This great increase in cost is due to the widened curriculum of today and to the fact that the increased attendance has been largely in secondary schools and colleges and universities, the expense of which is much greater than that of the grade school.

A very encouraging thought was given by Mr. Matters after showing that Island County was not able to expend as much per child as richer counties. He challenged the P. T. A. members to make the best possible use of the tools they had at their disposal, to improvise when the tools were lacking and to encourage teachers to do so.

In this way, he believes, that other deficiencies may be made up to some degree. He declared that a poor teacher with good equipment often failed but a good teacher with poor equipment could still be a good teacher.

## BASKETBALL PLAYOFF

GOES TO EVERETT

Again Everett high school will be host to the Snohomish and Island County basketball tournament, February 14, 15 and 21. This was the final decision after claims by Snohomish and Everett had been considered by the county athletic board. The three winners go on to the district meet at Lynden and the district winner gets the trip to Seattle and the state tournament.

The winner of the Oak Harbor-Coupeville game clinches a ride across the water for the Everett eliminations. Langley is virtually out of it as that school has dropped one county game—that to Coupeville. However, upsets do occur and the south team may turn the tables in the return engagement with Coupeville January 31.

## FAREWELL DINNER HELD

Mr. and Mrs. James McCarthy, (Hazel Watson,) arrived from California last week, after an arduous trip of five days. In passing through Oregon, their car was one of two hundred stalled in a heavy snowfall in the mountains. One car skidded over a bluff killing five.

As Mrs. McCarthy was assisting her husband to place their car upon the level, she slipped and fell on the ice, bruising her foot to such an extent that upon her arrival in Seattle she was taken to a hospital for treatment. The next day, however, she was brought to the home of her mother, Mrs. Nellie O. Watson, where she still remains, slowly recovering from nervous shock.

Mrs. J. W. Straub went to Bellingham the latter part of last week to spend some days with her daughter, Mrs. Phil Morey, and the new baby.

Mrs. F. O. Maxson and her daughter, Evelyn, took the S. S. Atalanta for Seattle last Sunday afternoon to attend to business matters. They returned on the steamer Monday evening.
