BRITISH SHIP BRINGS BODY

Late Ambassador to England Receives High Honors.

Portsmouth, England—The British armored cruiser Natal sailed out of Portsmouth harbor Saturday afternoon with the body of Ambassador Reid on board, amid a salute of 19 guns.

Full naval honors were paid to the body of Ambassador Reid on its arrival at this port from London.

Admiral Sir Hedworth Meux, the commander of the port, and all the high naval officers stationed here were present at the station when the train drew in. As it halted at the platform Nelson's flagship, the Victory, fired a salute of 19 guns.

The coffin was borne across the jetty on the shoulders of eight petty officers of the British navy and taken on board the armored cruiser Natal, from the mainmast of which vessel the United States ensign was immediately broken.

All the ships in the harbor and at Spithead raised the Stars and Stripes to their mastsheads as the coffin was taken on board the Natal and then lowered them to half mast. The jetty was carpeted with purple, while guards of honor of marines and blue-jackets stood with reversed arms on each side as the casket was taken through.

The petty officers bearing the casket walked slowly to the mortuary chapel, lined with purple, which had been erected on the weather deck of the Natal, and as they deposited it on the catafalque, the ship's bugler sounded the "Last Post," while the crews of the warships lined the rails.

The wreaths sent by President Taft and members of the royal family completely filled the little mortuary chapel, which was so placed that it could be lowered in case of heavy weather.

By a coincidence, the hospital ship Maine, presented to England by American women, was moored just outside the cruiser Natal.

There was no service on board the Natal, which left port immediately on schedule time, passing through the lines of the other vessels, which all had their flags at half mast, and their crews standing at the salute.

SPED WOULD BE ECONOMY

Engineer Recommends Rapid Work Done On Celilo Canal.

Washington, D. C.—How \$100,000 in cash and more than a year in time can be saved on the construction of the Celilo canal is fully set forth in a report by Captain H. H. Roberts, of the Army Engineer corps, recently transmitted to congress. It remains to be seen whether congress will be willing to direct this economy by increasing the appropriations for the canal, so the work can be completed by January 1, 1915. The report of Captain Roberts, heretofore reviewed briefly, summarizes the appropriation to date, showing a total of \$3,150,000, and adds:

"The amount required to be appropriated for completion of the existing project is \$1,808,392.64.

"The delay incurred since January 1, 1912, as compared with what would have been the rate of progress had ample funds been available, is estimated as at least six months, there having been necessary reservation made of a portion of the then available funds to provide for the possibility of no funds becoming available by the last river and harbor act. This delay was made up of reduction of force and partial suspension of work for several months, total suspension of work for about two months, together with additional delays incident to delivery of materials, collection of force, etc., necessarily incurred in starting the work again.

"After careful consideration of present conditions, it is believed that in view of the above-mentioned delays already incurred, the canal cannot be completed to best advantage before January 1, 1915, even with ample funds available for the work. The canal can, however, with funds available, be completed by that date, which is one year and six months in advance of June 25, 1916, the time originally proposed in the river and harbor act of June 25, 1910.

Death May Free Suspect.

New Westminster, B. C.—On January 7 next Charles Dean, the only Bank of Montreal robbery suspect now held in this city, may regain his freedom. The prisoner's solicitor was granted an order calling upon the attorney general to show cause why the prisoner should not be discharged. Since the preliminary trial one of the principal witnesses, who claims to have seen the accused in the automobile with four other men, has died.

Destroyer Balch Launched.

Philadelphia—The torpedo boat destroyer Balch was launched Saturday from the Cramp shipyard. Miss Grace Balch, of Washington, a descendant of Commodore Balch, christened the vessel. The destroyer is a sister ship to the Aylwin, launched from Cramps' a month ago. The vessel is 300 feet long and has 37 feet beam.

WASHINGTON STATE NEWS NOTES

HOGS DO WELL ON WHEAT

Gain of \$1.19 Bushel in Feeding, Over Sales in Market.

Walla Walla—An average gain of \$1.19 a bushel by feeding wheat to hogs instead of selling it in the market, was made by M. E. Schreck, of LaCrosse, who recently sent in the result of his experiments to Byron Hunter, agriculturist in charge of the local office of the department of agriculture.

The experiments covered the period between October 14 and November 4, and 95 hogs were used. Their weight the first week was 13,625 pounds and at the last weighed 17,670 pounds. The average daily gain was 2.25 pounds. A total of 15,440 pounds of wheat was fed. The average shows that it required 3.5 pounds of grain to put on a pound of flesh. Estimating the price of hogs at seven cents, the gain over the price of wheat a bushel by feeding it to the hogs was \$1.19.

Mr. Schreck last summer experimented by turning 109 hogs into a field of standing grain. When the field was cleared the land was measured and the hogs reweighed. A field of the same size was harvested, threshed and marketed. At the market price of hogs the gain in weight made by the hogs per acre was approximately twice as much as the net return from harvesting and marketing the crop.

Build New Road at Pullman.

Pullman—Pullman is to have two miles more of good road built next summer. The road will be extended from the end of the macadam road which runs south from Grand street. Bids are now being asked. The completion of this road will give Pullman four good macadam roads, extending in four different directions from town a distance of from one and a half to two and a half miles.

Ellensburg to Have Bloodhounds.

Ellensburg—Criminals in Kittitas county will hereafter be tracked with the aid of a pair of bloodhounds, according to Sheriff B. H. German, who has returned from Chehalis county, where he purchased a pair of thoroughbred trained dogs from Sheriff Ed Payette, of Montesano.

Wheat Prospects Are Good.

Washuena—The ground, which has been frozen to a depth of four inches, was thawed by a heavy rain and the weather is considerably moderated. Fall grain has not been injured in the least. Many of the wheat fields are a complete mass of green wheat and the prospects are good.

PROFIT IN WHEAT AND HOGS

Whitman County Farmer Tells How He Combines Industries.

Pullman—Dan Kinsinger, of Whitman county, shipped a carload of fat hogs to Spokane recently, getting 8 cents a pound. Mr. Kinsinger loaded the hogs at Almota and shipped them via Lewiston. They were sold to the E. H. Stanton company. Mr. Kinsinger is farming 2600 acres lying four miles north of Almota. He has 1400 acres fenced hog tight, and raises from 1200 to 1500 head each year. He sold a little more than \$5000 worth of hogs at one shipment in September, and still has about 1200 head left.

Mr. Kinsinger figures on marketing his hogs at from 225 to 250 pounds weight. He has been in the business many years, has made a success of it and is regarded as an authority on hog raising. Asked for a statement of the cost of producing pork in the Palouse country, Mr. Kinsinger said:

"I raise hogs and wheat. I pasture the hogs on alfalfa and summer fallow and turn them into the stubble fields after harvest. I find that hogs can be grown and fattened here at a good profit in connection with wheat raising. When we feed wheat we estimate five bushels to keep a pig from weaning until fattening time and from five to eight bushels to fatten him, making a total of from 10 to 13 bushels of wheat to produce a hog weighing from 225 to 250 pounds. I have found it profitable.

"I ship my own hogs. I can ship one or more carloads of hogs just as well as the buyer and I can save his profit. If he can come to my place and buy my hogs and load them and ship them and make a profit I can do the same thing. I try to get all that there is in the business for myself and cut out the middlemen's profits."

The average price of the lower grades of wheat, which make excellent feed for hogs, has been about 60 cents a bushel, delivered in sacks at the warehouses, for several years. By feeding the wheat to hogs the expense of sacks and hauling, fully equal to 10 cents a bushel, is saved, and reduces the actual cost of the feed to 50 cents a bushel. According to Mr. Kinsinger's figures, it costs him from \$10 to \$11.50 to produce 225 to 250 pounds of pork. This is less than 5 cents a pound, and he has received an average of more than 7 cents a pound for hogs for the last three years, and they have not been below 8 cents a pound for six years, showing a good per cent of profit.

NEW ROADWAY IS INVENTED

Trial Stretch Being Laid in Yakima County This Winter.

North Yakima—Four thousand feet of a patent roadway invented by Chief Engineer Pitman, of the O.-W. R. & N. will be laid in Yakima county this winter on the road from North Yakima to "Oldtown." The road will consist of two concrete "rails" 22 inches wide, set in crushed rock ballasting five inches deep. The rails will be wide enough apart to fit the tread of wheels of wagons and automobiles. The upper side of each rail will be concave.

The work of making the rails was begun nearly a month ago. The rails are cast in forms and will weigh 100 pounds to the foot. They will be laid in broken rock with cross drains every 60 feet leading to gutters three feet deep on each side. The "Oldtown" road will be laid with double track.

WHEAT AT UP-RIVER POINTS

Much Grain Still Held at Landings Above Pasco.

Pasco—According to J. L. Clearwater, of Ringgold, there is much wheat at up-river points which has not been moved on account of the lack of facilities. During the last week one carload came down the river on the boats, this wheat then being transferred to cars here. The Northern Pacific has extended its spur track to within several hundred feet of the steamer docks and this facilitates the work of transferring. It is believed that this is the first move on the part of the railroad company to have direct connection with steamers plying on the Columbia and that with the completion of the Celilo locks, when boats will run through from Portland to Pasco, freight destined to inland points will be easily handled here.

Washington Coal Mines Thrive.

Centralia—The Tono mines are shipping 1000 tons of coal daily, the maximum capacity of the mines until new shafts are sunk. The working force at the mines was this week increased to 225 men.

CASH CANNOT BE CORNERED

J. P. Morgan Asserts Alleged Trust Is Impossibility.

EPIGRAMS OF J. PIERPONT MORGAN.

All the money in Christendom and all the banks in Christendom could not form a monopoly that would control money.

What I call money is the basis of banking.

If he had the credit and I had the money (referring to a hypothetical man in control of the credit of the country), his customer would be badly off.

When a man has vast power and abuses it, he loses it—and he never gets it back again, either.

The question of control, in this country, at least, is personal; that is, in money.

I would rather have competition. You must remember that not all securities sold at 100 are always good, and when there is a responsible fiscal agent, there is moral strength behind them.

American stockholders take little interest in the management of their corporations. That is why we organize a voting trust in order to protect the company.

There is no place where mergers and consolidations have taken place to the extent they have in Great Britain.

"You believe in buying up the competing line?" asked Mr. Untermyer. "Why, sure," said Mr. Morgan.

My idea is that it (the stock of the Equitable company) should be turned over to the policy-holders.

Washington, D. C.—J. Pierpont Morgan told the money trust investigating committee of the house that "all the money in Christendom and all banks in Christendom" could not form a monopoly that would control money. Mr. Morgan disclaimed any knowledge that he wielded a vast power in modern finance, and declared emphatically that he sought no such power.

For nearly five hours the chief witness called by the committee in its investigation of the intricacies of modern finance stood a running fire of questions that covered every phase of financial operation. In some respects it was one of the most remarkable hearings in the halls of congress in years, with Mr. Morgan as the embodiment of financial operations on a colossal scale and the committee's counsel, Samuel Untermyer, the representative of the element that seeks to probe the innermost recesses and conditions under which these vast financial operations are conducted.

Mr. Morgan gave his views on competition, combination, co-operation and control in industry and finance, particularly the latter. He declared he did not "mind competition," but that he preferred "combination" in his operations. He was emphatic in his declaration that "there is no way one man can get a monopoly of money."

AVIATORS' BODIES PICKED UP

One Corpse on Beach; Other Floats With Life Preserver.

Los Angeles—The bodies of Horace Kearney, aviator, and Chester Lawrence, newspaperman, lie side by side in a little undertaking shop at Redondo Beach, finally given up by the sea, which had combined with the more mysterious forces of the air to destroy them as they were seeking to write a new chapter in aviation by a daring over-ocean flight to San Francisco.

Ten hours after the body of the young reporter, battered almost beyond recognition by waves and rocks, was found on the precipitous coast near Rocky Point, that of his aviator companion was picked up a mile away at sea by a searching party in charge of George B. Harrison, a skilled aeronaut and close friend of the doomed men.

Kearney's body was found entangled in kelp and partially attached to a life preserver, the white cloth of which, glistening in the sunlight, attracted the searchers to the spot.

Bill Goes to Conference.

Washington, D. C.—The "literacy test" immigration bill, which passed the house Friday and was brought back to the senate for its concurrence, was sent to conference Saturday. Senator Lodge, of Massachusetts, moved that the senate disagree to the house amendments. A conference was asked for, and Senator Gallinger appointed Senators Dillingham, Lodge and Smith, of South Carolina, as conferees in the senate.

Halibut Brings Big Price.

Seattle, Wash.—Fourteen thousand pounds of halibut sold for the record price of 10½ cents a pound when the fishing steamer Moloka arrived here from a 22-day cruise off Vancouver Island. The price of halibut has jumped rapidly since the fishermen's strike began two months ago and the few independent crews operating are reaping huge profits.

YAQUIS CAPTURE MEXICAN CITY

Inhabitants Resist Until Ammunition Is Exhausted.

Slaughter Follows Victory of Indians—Young Women Carried Off Into Mountains.

El Paso, Tex.—Yaqui Indians, after an attack lasting two days, have captured the Sonora town of San Marcial, slaughtered many of the inhabitants and carried off several girls to the mountains.

The inhabitants of the town, the special says, fought until their ammunition gave out, when the Indians, who attacked in force of several hundred, gained entrance. Scenes of terrific slaughter followed, only a few escaping to carry the tale to the outside world. The Indians retreated to the mountains, carrying the young women with them.

San Marcial is in the center of the Sonora canal district, a little more than 50 miles southeast of Hermosillo. This is the first time so far as known here where Yaquis successfully assaulted so large a town.

The Indians are said to be using military tactics acquired during two years of training in Madero's forces to advantage, gathering force until they have practically what might be termed an army. All are armed with high-power rifles secured during the government service.

Official apprehension of another rebel attack on Juarez was aroused by the operations of the Yaquis in San Marcial.

A recommendation from the State department in Washington in September that 1000 men be kept in Juarez to avoid a repetition of the casualties incidental to the Madero revolution has not been complied with. The town has a garrison of 500 men and a small artillery force.

TAFT ENROUTE TO ISTHMUS

President and Party to Inspect Work in Canal Zone.

Key West, Fla.—With the guns of the United States battleships Delaware and Arkansas roaring a welcome President Taft and his party late Saturday afternoon boarded the Arkansas and set out for the Panama Canal zone. It was shortly after 4 o'clock when the president, after making a short speech here, boarded one of the launches of the Arkansas, together with Mrs. Taft and the remainder of the presidential party, and was taken to the battleships. A few minutes later both the Arkansas and the Delaware, which will act as an escort, had weighed anchor and were steaming out of the harbor.

The presidential party will spend three days in the canal region. President Taft plans to get back to Key West on December 29, and two days later to be in Washington.

Investigations of conditions in the canal zone to determine whether the time is opportune for establishing civil government there is the announced purpose of the president's visit. Mr. Taft has said that he expected to issue the order establishing civil government immediately if he found conditions favorable.

The president for six hours rode through the fruit-bearing country of Florida and part of the everglades. His train then passed out over the open sea railroad extension. A special observation car had been attached to the train in Miami and the President spent much time in it.

A short talk was made by President Taft in Miami, in addition to the one here. In both addresses he said he thought it incumbent upon him to establish civil government in the Panama Canal region and not leave the task to President-elect Wilson.

Aid for Park Asked.

Washington, D. C.—Senator Chamberlain has been urged by the Mazama society, of Portland, to aid in obtaining an appropriation of \$250,000 from this congress for widening the road into the Mount Rainier National park, in the State of Washington, from the south construction of the branch road to the Indian Henry hunting grounds, the construction of horse trails in the park and the survey for a highway into the park along Carbon river.

Garrison Has Typhoid.

Hanau, Germany—An epidemic of typhoid fever has broken out among the troops of the garrison here. Two hundred and eleven soldiers are lying in hospitals suffering from the disease. The river Main is believed to be infected and if this is proved to be so, the health of the entire population will be imperiled.

the Act of Congress of March 3, 1879

FRIDAY, DEC. 27, 1912

Secretary of Agriculture, James Wilson, will retire March 4th after sixteen years of service and in commenting upon present day conditions Secretary Wilson remarks: "Things that used to be are not now; agriculture is changing; for instance, it was once thought only a boy's work to milk cows." Behold now! Secretary Wilson tells us that the dairy product of the country is worth \$830,000,000 or actually one fourth MORE than the annual wheat crop. There are 700,000,000 dozen, (count 'em) eggs produced which are worth more than three hundred million dollars annually; add to this "biddy" herself, and descendants and we have the staggering figures of \$570,000,000, which is almost as much as the value of the annual wheat crop, which is set at \$596,000,000. Secretary Wilson says: "The dairy cow is one of the principal producers of wealth on the farm, although not prominent in the public notice, the products of the dairy cow are worth nearly as much as the annual hay crop, and nearly twice the value of the annual oats crop. Poultry is another industry of great wealth producing capacity on the farm; nine billion, five hundred million dollars is the annual farm product value of all kinds." By combinations of capital and energy the proportion of this vast sum to go to the farmers pockets may be materially increased; the demand for the products themselves is annually increasing, while the amount of productive territory remains about the same.

Colonel Blethen, livid with rage because Hay failed to pardon Wappenstein, goes so far as to forget himself and mentions Hay as "Governor" having for four years elung to the term "Lieutenant Governor Hay." Colonel Blethen submits a list of names of "prominent citizens" who stood for Wappenstein's release, being the same old list of Banker's, Cafe and Hotel men usually prominent in trying to get rascals out of the pen after bonding them and in every other way trying to prevent their going into the penitentiary in the beginning. But the young clerk in the Bank who steals a few dollars gets a long term and no one worries about his "pardon." There is little doubt but Hay wanted to pardon Wappy bad enough. During the excitement one Max Thurna, a notorious white slaver, and Otis Hamilton, state embezzler, were granted freedom, also one Carroll, a "badger game worker." Just why these hardened criminals are so favored is not difficult to guess.

Can you imagine three million pounds of blackberries in one pile—can you conceive of 3,424,874 lbs. canned, and sixty nine thousand crates of fresh ones shipped besides—and all from Sumner-Puyallup and all in 1912? But a few years ago that valley was sleepier than Whidby. What future have we—what possibilities? Of all kind of fruit the Sumner-Puyallup Association required 252 freight cars to handle five million, nine hundred forty seven thousand pounds of canned products and 269 cars of fresh fruit consisting of 135,862 crates. Also they shipped 2661 boxes of apples, pears, plums etc. and 167,832 pounds of cabbage and rhubarb.

Wanted, man with wooden leg to make sauer kraut at Dempsey camp, spruce limb preferred, so the taste won't linger. The loggers of Dempsey's camp were on the verge of a strike last week, when one of them chanced to find their recently acquired sauer kraut maker mixing the German delicacy with his feet. The feat would not have been objected to if there had been assurance of recent ablutions.—Concrete Enterprise.

County Poultry Association

The Snohomish County Association will hold their third annual show in Everett January 8th to 11th, 1913. They offer this year the most liberal cash prizes ever offered by any poultry association in the west, and are endeavoring in every way to make this the biggest and best show they have ever held. Over \$700 in cash prizes are offered, 16 beautiful cups and numerous other premiums. In every neighborhood of Snohomish and other nearby counties there are breeders and fanciers who could and should enter a few birds at this big show. All single birds will be judged by the score card system and these cards alone are worth three times the entry price to the breeder. C. H. Burnett Jr., 616 Seattle, will judge the show. For premium list and further particulars address H. H. Petershagen, Everett, Wash.

Notice of Incorporation

Notice is hereby given that the following petition, asking for the calling of a special election to vote on the proposition of incorporating the Town of Langley will be filed with the board of county commissioners on January 6, 1913, at 10 o'clock a. m., at which time and place any and all parties interested therein should be present:

To the Honorable Board of County Commissioners of Island County, Washington:

We the undersigned, being qualified electors of the county of Island, state of Washington, do respectfully petition your honorable board and state as follows: That we are residents within the limits of the following described territory, to-wit, commencing at the section corner of sections thirty-three (33), thirty-four (34), of township thirty (30) and sections three (3) and four (4), of township twenty-nine (29), north range three (3) east Willamette Meridian, thence East one hundred and sixty (160) rods; thence south eighty (80) rods; thence East to the center of the North half (1-2) of section two (2); thence North to the Government meander line Saratoga Passage; thence meandering along the line of Saratoga Passage in a northwesterly direction to the meander line corner of Sections thirty-three (33) and thirty-four (34) of township thirty (30); thence south, to the place of beginning, including all tide lands adjacent thereto; situated in the county of Island, state of Washington;

That the said described territory contains approximately three hundred and fourteen (314) inhabitants;

We therefore respectfully pray that the above described territory may be incorporated as a town of the fourth class under the provisions of the statutes of Washington relating to incorporation of cities and towns, to be known as "LANGLEY."

No. — Notice and Summons

In Foreclosure of Tax Lien.
In the Superior Court of the State of Washington, for Island County.

Hiram E. Smith, Plaintiff,
vs.
Selby Hare and all persons unknown, if any, having or claiming an interest in real estate and to the hereinafter described real property, Defendants.

THE STATE OF WASHINGTON to Selby Hare the owner or reputed owner of, and all persons having or claiming an interest or estate in and to the real estate hereinafter described.

You and each of you are hereby notified that the above named plaintiff, Hiram E. Smith, is the holder of a Delinquent Tax Certificate numbered 727, issued on the 23rd day of July, A.D. 1911, by the Treasurer of Island County, State of Washington, for the amount of \$5.50, the same being the amount due and delinquent for taxes for the year 1908, and the further sums of \$5.52, \$4.07 and \$5.40 paid for the subsequent years of 1909, 1910 and 1911, together with penalty, costs and interest on said amount at the rate of fifteen per cent per annum. Said delinquent tax certificate being for delinquent taxes upon the tracts or parcels of land situate in Island County, State of Washington, described as follows:

The south half of the northwest quarter of the northeast quarter of section 23 in township 33, north of range one east W. M.

And you are further notified that plaintiff will apply to above entitled court for a judgment foreclosing his lien against said property.

Now, therefore, you are hereby summoned to appear within sixty days after the date of the first publication of this Notice and Summons, to-wit: within sixty days after the 20th day of Dec. A.D. 1912, exclusive of the said day of first publication and defend this action in the above entitled Court or pay the amount due; and in case of your failure so to do, judgment will be rendered foreclosing said tax lien for such taxes, penalty, costs and interest against said lands and premises hereinafter mentioned.

Any pleading or process may be served upon the undersigned at the address below stated.

JAMES ZYLSTRA,
Attorney for Plaintiff,

Order to Show Cause Against Mortgage.

In The Matter of The Estate of Elizabeth Watson Stephenson, deceased.

M. E. Hington and A. P. Wilkinson as executors of the estate of Elizabeth Watson Stephenson, deceased, having filed herein their petition in due form praying for an order of this court authorizing and directing them to borrow the sum of \$1000.00, or such lesser sum as the court may deem proper, wherewith to pay a mortgage subsisting against said estate, and to pay all other debts, costs and legacies of said estate, and for the purpose of securing the payment of such loan, to mortgage to such lender of such money, that certain real property of said estate situated in the county of Island and State of Washington, and particularly described as the N 1-2 of the NE 1-4 and the SW 1-4 of the NE 1-4 of Sec. 11, tp. 29 N. range 3 E., W. M. It is ordered that all persons interested in said estate appear before this court, in its court room at the court house in said county on the 4th day of Jan. 1913, at ten o'clock a. m. of that day, to show cause why the prayer of said petition should not be granted and the real property above described, mortgaged as prayed for; and it is further ordered that a copy of this order be published four successive weeks next before said day in the Langley Islander, a newspaper of general circulation, in Island County, Washington.

For all and further particulars you are hereby referred to the petition now on file herein.

Signed: LESTER STILL,
Judge of the Superior Court.

Dated Dec. 3rd, 1912.

Summons for Publication.

Catherine L. Candland, Plaintiff,
vs.

Sylvanus E. Harris and James Doe Harris, his wife, George W. Harris and Lucy E. Harris, his wife, Annah M. Hurd and John Doe Hurd, her husband, Edward Evans, as administrator of the estate of James C. Jacobs, deceased, Jared Hurd Jacobs and Jane Doe Jacobs, his wife, Catherine L. Candland as executrix of the last will and testament of George A. Candland, deceased.

And all other parties or persons, known or unknown, and all unknown heirs of any party named or referred to herein, who claim any right, title or interest, legal or equitable in the real estate described in the complaint, Defendants.

The State of Washington, to the defendants, and each of them as above named and referred to, in the caption thereof.

You and each of you are hereby summoned to appear within sixty days after the date of the first publication of this summons, to-wit: within sixty days after the 29th day of November, 1912, and defend the above entitled action in the above entitled court, and answer the complaint of the plaintiff, and serve a copy of your answer upon the undersigned attorney for the plaintiff at his office below stated; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court.

The object of this action is to quiet title in the plaintiff to the following described land in Island County, Washington, to-wit:

The NW 1-4 of the SE 1-4 of section 14, township 29, north range 2 E., W. M., containing 40 acres, more or less.

Miss Ethel Cushman, of Seattle, is spending the week with friends in Langley.

Mrs. Murdoch McLeod of Saratoga is visiting relatives and friends in Langley.

Mr. and Mrs. Webb and Mrs. Funk and children were Everett shoppers Saturday.

Hugh M. McLeod ate Christmas turkey at the home of brother Murdoch at Saratoga.

Mr. and Mrs. Geo. Webb left this morning on a short business visit to Sequim, Wash.

Miss Estella Newell spent several days this week with her sister, Mrs. Howard McLeod.

Mrs. Anna Simdars, of Seattle, is visiting her parents, Mr. and Mrs. James Newman.

Mrs. Addie D. Post of Holmes Harbor was transacting business in Langley on Monday last.

A. C. Fox, assistant cashier of the First National Bank of Everett, paid Langley a visit last night.

Notice, number 222 draws the big doll at our store. It must be taken by Jan. 10th. Langley Merc. Co.

Miss Elvira Monson is home from Seattle, where she is employed as a stenographer, spending the holidays.

Miss M. Juliette Moran, teacher of the grammar room, is spending her holiday vacation with friends in Seattle.

Mr. and Mrs. Harry Kraber left this morning for Seattle, where Harry goes to take charge of his moving picture show.

A number of exceptionally good looking school marins were among those leaving this port Monday and Tuesday.

Elmer Rothgeb and Mr. and Mrs. Hasting Brooke went to Seattle Tuesday to eat Christmas dinner under the parental roof.

H. L. Crandall, of Sedro Wooley, was here from Saturday till Monday visiting his parents, Mr. and Mrs. L. F. Crandall.

A number of our young people attended the dance at Mutiny Bay on Christmas night, and all report the usual good time.

Roy and Earl Clark are here from Issaquah spending the holidays with their parents at Maxwelton, Mr. and Mrs. James Clark.

Fred Funk, of the Funk Mercantile Company, has our thanks for a box of cigars of the leading brand. Mr. Funk evidently believes that it is better for the editor to smoke here than in the hereafter.

Assessor Terry, sir? Judge Still has decreed that Mr. Terry is the assessor of Island county for the next two years. The Judge gave his decision on the ballots in dispute last Saturday and gives Terry five votes to the good.

Harry Kraber and Sam Mortland have gone into the moving picture business. They have purchased a machine and have bought an "exclusive" on some high-class films. They will start on the road about the first of the new year, beginning their exhibitions in Seattle.

We are sorry to report that L. F. Crandall, who has been ill for several weeks, is no better. He is gradually growing weaker and hopes of his recovery have been abandoned by his family. H. L. Crandall, a son of the patient, was called from Sedro Wooley and arrived here this morning.

The Camano was gaily decorated during the holidays with Christmas trees to main mast, mizzen-mast, jib-top-sails, bow and stern, and Capt. Lovejoy wore his best Christmas smile. The passenger list of Camano and Calista for the early part of the week was beyond the power of our scribe to enroll.

The entertainment given in Olympic hall last Friday evening by the students of the Langley High school was well patronized, the hall being filled to its seating capacity. The entertainment throughout proved interesting and was in every way beyond the expectations of all present, the acting in several instances bearing the earmarks of the professional rather than the amateur. Space forbids individual comment of those taking part, but suffice it to say that everyone taking part acquitted themselves proud. The gross receipts was \$22.00.

Mr. and Mrs. A. Melsen entertained a number of friends Saturday evening. Among those present being, Mr. and Mrs. English, Mr. and Mrs. R. McLeod, Mr. and Mrs. Fred Funk, Mrs. E. Howard, Mr. and Mrs. James C. Langley, Mr. and Mrs. A. C. McLeod and Mr. and Mrs. Woodward of Pasco, Wash., Misses Etta Kraber, M. Juliette Moran and Gertie McLeod, Messrs. Frank Kraber and Ebb Boynton, Mrs. Woodward is a daughter of A. C. McLeod. An enjoyable evening was spent at whist, and Mr. and Mrs. Langley carried off the prizes. At a late hour a dainty lunch was served.

It is really too bad that there is so much rivalry between our two churches that they can not lay aside their church differences long enough to join hands at Christmas time. How much nicer for all concerned had they joined in the exercises Christmas eve. The little folks who so largely contributed to the programs would much rather mingle together on such occasions. The least that could have been done was to hold the exercises on separate nights. Some people wonder why the congregations in our churches are diminishing instead of keeping pace with the growth of the community. It is because of the eternal vigilance of the petty, the jealous, and the un-Christian. "Oh, Jerusalem, if you only knew."

A number complaints have reached the Island office from subscribers residing in the rural route the past few days because they did not receive their paper until Monday instead of Saturday. Heretofore it has been the custom to receive the papers for delivery as late as Saturday morning, and while, we presume, no law compelled him to do so yet the former carrier, Fred Howard, always proved accommodating in cases of emergency and when we were late in getting to press. Last week we had an exceptionally number of new "ad," being the week just before Christmas, and were late in getting to press, in fact, we worked till midnight Friday so as to get them off on the mail wagon the next morning only to have them refused for delivery till Monday. If we all acted on this principal, doing only that which we are actually required to do, what a sad old world this would be. Most of us make mistakes and expect a certain degree of forbearance from the public. Probably our new carrier makes no mistakes; if so all is well, if not he should remember that duties are reciprocal.

The exercises held in our churches Christmas eve were fairly well attended and interesting programs were rendered at both places. The program at the M. E. church consisted of scriptural reading by the pastor and recitations by the Sunday School children interspersed with appropriate songs by the choir. The church had been tastefully decorated with evergreens and other seasonal greenery. The Christmas tree occupied prominent space on the platform, which was at once the center of attraction. After the distribution of the presents the congregation was treated to candy and apples. At the Friends church, while the audience was not so large, the exercises were equally good with the exception of the singing, owing to the absence from town of a number of the members of the regular choir. A real Santa Claus in the flesh took charge of the distribution of presents which proved great fun for the little folks. Taking it all in all the Christmas exercises of 1912 were very good and those in charge are deserving of much praise for their untiring efforts in drilling the little ones on this occasion.

Ted and Don Stevens, who are attending school at Pullman, Wash., are spending the holidays with their parents, Mr. and Mrs. Henry Stevens.

I. Bainter, Henry Bosshard, Wm. McGinnis and K. P. Hartley all stockholders in the Okfuskey mines located in British Columbia, attended a directors meeting of the company held in Everett yesterday. Mr. Bainter, of this place, was elected the company's treasurer.

Lloyd Mackie, aged 15 years, son of Mr. and Mrs. Herbert Mackie residing at Maxwelton, died Tuesday forenoon, December 17, at 10 o'clock in Everett, where he was attending school. Interment was made in the cemetery at Everett Thursday, December 19. Lloyd was an exceptionally bright boy and was a favorite among his school mates. Deceased was a grandson of Rev. Chapin, of this place.

That High School Entertainment

That High School Entertainment.
 Say, wasn't it just grand!
 And the way them girls and that boy can act.
 Certainly beats the band.
 The first thing on the program.
 Was a High School yell;
 The next thing was a song
 Whose name I dare not tell.
 The next thing was the Dumb Waiter.
 A little Farce, you know,
 With Mrs. Sigbee and Miss Warren
 Who had to be just so.
 Then there was Sally Vernon
 With Hatty Mason too,
 And also Lucy Deering,
 Who had to say boo! hoo!
 The next thing was a recitation,
 Entitled to The Bridge,
 And the little girl who spoke it
 Must have needed a sandwidge.
 The next was the Boat Song,
 By our crowd of High School belles,
 And the way that they sang it
 Was certainly very swell.
 The next thing was a classy drill
 They called the Evergreen
 And it was the best of its kind
 That the people have ever seen.
 The next was a recitation,
 Called My Sister's Best Beau,
 It was spoken by Miss Hatty Marsh
 And made quite a hit you know.
 The next was another song,
 Called The Hate of Other Days,
 Which brought from the house so crowded
 Shouts of loudest praise.
 The next thing was a comedy,
 In three short acts, you know,
 Whose only gentleman character was
 Jedediah Brown, AM PH D BO.
 There was also a Fastidious Lady,
 Named Miss Matilda Dix,
 Who when Mr. Brown came on the stage
 Got him in an awful fix.
 Then there was the Misses Barnaby,
 Who were never, never late,
 But for all of their painstaking
 They did not meet their fate.
 Then came Miss Hannah Staples,
 Always busy with her work,
 And no matter how tedious,
 She would never shirk.
 Then there was Miss Smith,
 Who put powder on her face,
 And the way that she can powder
 Kept the others out of the race.
 The next thing was a song,
 Whose name I cannot tell,
 And then the program ended
 With another High School yell.

MORGAN DEPOSITS HIGH IN MILLIONS

Financier Confirms Figures of Government Prosecutors.

Brigandage and Lawlessness Rouse Ire of American Government, and Must Be Stopped.

Washington, D. C.—Henry Lane Wilson, United States ambassador to Mexico, who has been here in conference with the State department officials regarding conditions in Mexico, has gone to New York, preparatory to sailing for his post. He is without the expected note of representation this government is preparing to send to the Mexican government demanding protection for citizens and their property.

This action is taken as a further evidence of the intention of the administration to deal circumspcctly with this delicate situation. The communication is being prepared with the greatest care in the State department, and will be transmitted to the United States ambassador early in January.

The deliberation with which the officials are moving is expected to result in the production of a brief that is expected to be well-nigh unanswerable except by a promise of prompt and adequate action on the part of the Mexican government to meet fairly and fully the demands of the United States in the matter of the plain American interests in Mexico.

Justification for this demand by the United States is declared to be found in the numerous reports from every quarter that conditions in Mexico have grown worse since the dispatch of Secretary Knox's note of protest last September, and that there has been a marked increase in brigandage and in the kidnapping of citizens of the United States for ransom and in the levying of forced war loans by rebels on American mines and plantations.

TOBACCO COMPANY WINNER

Verdict in Suit Brought by Jobbers Is for Defendants.

New York—The American Tobacco company won a verdict by decision of Judge Mayer in the United States District court in the \$300,000 damage suit brought by E. Locker & Company, Brooklyn tobacco jobbers. The Metropolitan Tobacco company, co-defendant, received a similar verdict.

The plaintiffs sought treble damages under the Sherman anti-trust law, alleging they incurred losses through violation of the law by the defendant companies.

Judge Mayer told the jury that the questions involved were of law, not of fact, hence it was for the court to decide the case. John E. Locker, of the plaintiff company, said he would take the case to the Supreme court of the United States if necessary.

DEFENDS ISSUING PARDONS

Arkansas Governor Tells Why He Freed 316 State Convicts.

Little Rock, Ark.—Characterizing the Arkansas penitentiary under the lease system as a burning, seething hell, consuming human beings, who are being fed into it in a manner which results in nothing but making fortunes for contractors, Governor Donaghey, issued a statement in defense of his action recently in issuing pardons to 316 state convicts.

According to a newspaper compilation, based on the state records, 43 of those pardoned by Governor Donaghey were convicted of murder or manslaughter, 111 of grand larceny, four assault, five robbery, 19 forgery, 32 burglary, 26 assault to kill and 76 of crimes ranging from hog stealing to bigamy.

Barbers' Mortality High.

Sacramento—Fewer bankers and more barbers die of tuberculosis than any other workers classified by the state board of health, according to a report just made public. Bankers, brokers, business men and those in general whose work is mental rather than physical and whose surroundings at work and at home are almost ideally sanitary, show the highest resistance. Barbers and hairdressers show the astonishing death rate from tuberculosis of a fraction more than one in every four.

Wealthy Galicians Fleeing.

Paris—Austria-Hungary is spending \$800,000 a day to defray the expenditures of the mobilization of her army, according to an estimate made by a correspondent of the Temps, just returned from Galicia, Austria. The whole of the commercial and industrial life of the country has been disorganized, he adds. In Galicia neither money nor food is to be had and the wealthier part of the population has fled from the country.

Big Drydock Asked For.

Washington, D. C.—A \$1,000,000 drydock in San Francisco bay will be asked of congress by Secretary of the Navy Meyer in a recommendation he will soon send to the house appropriations committee. The secretary definitely decided to ask congress for the \$1,000,000 dock at this session. The appropriation will be included in the naval appropriation bill. If the sum is granted work on the dock will be begun within the year.

THREATEN LIFE OF WILSON

Second Letter Is Now in Hands of Postal Authorities.

Newark, N. J.—President-elect Wilson's life has been threatened by a letter writer. The letter was mailed in New York on December 12, received by the governor's secretary at Trenton the next day and turned over to the postal authorities. It is now in possession of United States Assistant District Attorney Lindabury, who declines to discuss it.

The receipt of the second threatening letter became known at the arraignment of Jacob and Warren Dunn and Seely Davenport, of Wharton, the three so-called mountaineers, who were charged with having sent Governor Wilson on November 11 last a letter demanding \$5000 under threat of death.

The hearing was not concluded, but United States Commissioner Stockton dismissed the case against Warren Dunn and took under advisement a motion to make a similar ruling in the case of Davenport.

Against Jacob Dunn, alleged author of the threatening letter, the government made out a strong case, Commissioner Stockton said. He held Dunn, pending the conclusion of the hearing.

WAR MAKES MANY DESTITUTE

Mrs. Rockhill Describes Misery and Relief Given By Red Cross.

Washington, D. C.—The condition of dying men crowded around wells endeavoring to obtain water is described by Mrs. Rockhill, wife of the American ambassador at Constantinople, in a letter to Miss Mabel T. Boardman, of the American Red Cross.

Mrs. Rockhill writes that in and about one building in San Stefano were lying 500 men in complete destitution as a sequence to the Balkan war. She says it is impossible to estimate the number of the sick or dead, but that many corpses are unburied.

She reports that American efforts in San Stefano have resulted in taking care of the dying and the dead who hitherto lay in helpless, hopeless misery.

Through the co-operation of several members of the British Red Cross hospital unit, the American committee had been able to start a field hospital of 50 beds in tents.

GIBBET FOR PANIC MAKERS

Wilson Promises Punishment Dire for Financial Disturbers.

New York—President-elect Wilson held up a warning finger to any man who might deliberately start a panic in the United States in order to show that intended legislative policies were wrong.

In a speech at the banquet of the Southern society of New York he declared he had heard sinister predictions of what would follow if the Democratic party put into effect changes in economic policy.

The president-elect first distinguished in his speech between "natural" and "unnatural" panics. He said that in many cases panic had come naturally, because of a mental disturbance of people with reference to loans and money generally.

"But the machinery is in existence," he said, "by which the thing can be deliberately done. Frankly, I don't think there is any man living who dares use the machinery for that purpose. If he does I promise him, not for myself, but for my fellow countrymen, a gibbet as high as Haman's."

Lissner Added to List.

Washington, D. C.—Senator Dixon, chairman of the Progressive national committee, said that the committee of seven which is to visit Europe to study governmental questions in behalf of the Progressive party, would be named when the executive committee meets in New York Thursday. He said that only three men had been decided upon. Two of these, Medill McCormick, of Chicago, and Dr. Walter Weyl, of New York, were announced in Chicago, and Meyer Lissner, of California, may be added.

Message Is Discussed.

Washington, D. C.—President Taft and his cabinet discussed the president's forthcoming message to congress at the regular Tuesday meeting. It probably will be the last session of the year, because the president leaves Thursday for Panama and will not be in Washington again until December 31. The forthcoming message will be devoted largely to a review of the accomplishments of the government departments in the past year.

Ranchmen Rout Raiders.

El Paso, Tex.—Fifteen ranchmen defended the Dumbre ranch, an American property in Chihuahua state, for nearly two days against 150 bandits, who later were dispersed by Federal troops, according to reports received here. Troops sent from Parral, near by, through appeal from the American consul, J. I. Long, routed the bandits, killing 32.

Alfalfa Men Optimistic.

Wichita, Kan.—Alfalfa millers from Kansas, Nebraska, Oklahoma and Colorado closed their semi-annual meeting here with a prediction that \$20,000,000 worth of alfalfa products would be the output of their mills this year. Uniform grading rules were adopted, so that alfalfa millers can be protected.

MEXICO MUST MAINTAIN ORDER

Emphatic Note Being Prepared for Dilatory Madero.

Investigating Committee Goes Deep Into Secrets of Big Banking Institutions of World.

Washington, D. C.—J. Pierpont Morgan occupied the center of the stage Thursday before the so-called money trust investigating committee of the house of representatives. The noted financier reached Washington in response to a subpoena from the committee, but it was not until 2:40 in the afternoon that the way was cleared for his testimony to begin. Meantime Mr. Morgan sat for nearly an hour listening to the mass of statistics which Mr. Untermyer and the committee were piling up concerning the colossal financial operations of leading New York, Chicago and Boston institutions, through so-called interlocking directorates.

Mr. Morgan heard his own name and that of his firm referred to many times as tables were presented showing the affiliations of that concern with many banks, trust companies, transportation and industrial corporations. He appeared unmoved throughout it all.

Mr. Morgan's testimony lasted barely 20 minutes and was largely preliminary.

The chief point made was that he favored allowing interstate corporations to deposit their funds in the hands of private bankers without restricting them to institutions under government supervision. He said this was a matter to be left to the discretion of the board of directors of the corporations in question.

Mr. Morgan confirmed data prepared by members of the Morgan house showing that 66 accounts with the Morgan firm in January last had deposits of \$68,113,000 and that 78 accounts on November 1 had deposits of \$81,968,000. The total capital, surplus and funded debt of these depositors, Mr. Untermyer said, was \$9,765,000,000. Mr. Morgan agreed to this.

Prior to Mr. Morgan's examination the committee heard testimony bearing upon the so-called concentration of money and credits. This was presented in the form of charts prepared by Philip J. Scudder, which were placed in the records. This explanation showed that the charts dealt with the affiliation of 180 directors in 18 banks and trust companies in New York, Chicago and Boston. It showed that "these 180 men held directorships in 134 banks and trust companies, transportation and industrial corporations having total resources or capitalization of \$25,325,000,000."

AIRMEN FOUND OCEAN GRAVE

Biplane Seen to Lurch and Disap- pear—Wreckage Identified.

Los Angeles—A section of a biplane, a life preserver and a gauntlet, further evidence of the fate of the aviator, Horace Kearney and his passenger, Chester Lawrence, were found on the beach about nine miles south of Redondo. Two boys discovered the articles entangled in a heavy mass of kelp, part of which had been cast on the rocks.

That Kearney's hydroaeroplane plunged into the ocean soon after it had passed out of sight beyond Point Firmin was indicated by the discovery of the wreckage, and this theory was strengthened by the story of R. J. Kinney, a ranch hand on the Palos Verdes ranch near Point Vicente, who may have seen the fatal fall of the two men. Kinney reported that he was working some distance from the ocean Saturday afternoon and caught sight of the aeroplane as it rounded the point. He saw the machine suddenly lurch as if caught in a changing current of wind and then drop down behind a high bluff which intervened.

Elk Will Cross Oregon.

Washington, D. C.—Representative Raker recently secured permission from the department of the interior for the transfer of 50 elk from the Yellowstone national park to the Shasta forest reserve, at the request of the Redding Game association. Raker was notified that the game warden of Oregon would not permit the transportation of the animals through that state. Raker protested to the United States biological survey, which has telegraphed the Oregon authorities to permit the passage of the elk.

Guile Denied By Russia.

St. Petersburg—"There is no ground for suspecting Russia of selfish designs in the Balkans," was the statement of Premier Kokovosoff in the Douma in the course of a speech on the policy of the Russian government. He said that as the great Slavonic and orthodox power, Russia could not be indifferent as to "whether the Balkan peoples obtain better conditions of existence and thus avert dangerous complications in the future."

Lucrative Find in South Africa.

South Africa's possibilities as a producer of vegetable oils are wide indeed if the results of recent experiments under the auspices of the Mozambique authorities are translated into commercial realities. For instance, the fruit of the "macumacus" was shown to yield no less than 60 per cent of fine edible oil, and of the "pombula" 52 per cent.

Scotch Query.

A bluff, consequential gentleman from the south, with more beef on his bones than brain in his head, riding along the Hamilton road, near to Blantyre, asked a herdboy on the roadside, in a tone and manner evidently meant to quiz, if he were "half-way to Hamilton?" "Man," replied the boy, "I had need to ken whar ye hae come frae, afore I could answer your question."—Exchange.

Just Like Other Men.

Most surgeons simply go way up in the air when one of the world's great ones is stricken. When Sir Frederic Treves was called to operate on King Edward he split him open as nonchalantly as if the king had been an apple or a watermelon.—New York Press.

Law of the Harvest.

The law of the harvest is to reap more than you sow. Sow an act and you reap a habit; sow a habit and you reap a character; sow a character and you reap destiny.—George D. Boardman.

Has Its Advantages.

One of His Worst.

The Doctor—Did you hear about that Methodist preacher's daughter down south who turned sleuth, hunted up the pickpocket who had robbed her of her purse, and finally landed him in the penitentiary? The Professor—Good for her! She was an M. E. sis, with a vengeance.—Chicago Tribune.

Indexing Extraordinary.

Indexers have been responsible for many errors, but possibly the strangest example of curious indexing occurs in a law book. Turning over its index, a correspondent of the London Chronicle noted the entry: "Beat, Mr. Justice, His Great Mind," and reference to the page brought this: "Mr. Justice Best said he had a great mind to commit the witness for contempt of court."

Had to Know the Time.

"I understand," said the judge, "that you stole the watch of the doctor who had just written a prescription for you at the free dispensary. What have you to say to this charge?" "Well, your honor," said the prisoner, "it is true, but I found myself in a hole. His prescription said a spoonful every hour, and I had no watch."

Andrew Lang's Handicap.

The London Spectator says that Andrew Lang always had poor health, and most of his work was done when he was tired and sick. This being the case, it is easy to understand and forgive his frequent crankiness.

FOR COUGHS AND COLDS

Mad'n't Done So Badly.

"I might have married a millionaire," declared Everywoman. "One of my old schoolmates is now one." "And several of your schoolmates are working right in this town for \$10 a week," retorted Everyman, "while one of them is in jail. I guess in marrying a chap getting \$1,500 a year your average is fairly good." And then Everybody set up a howl and they had to stop quarreling to attend to him.—Pittsburg Post.

For a New Umbrella.

Before using a new umbrella inject a small quantity of vasoline into the hinge portions of the frame. Vasoline will not spread like oil and spoil the covering, and is a sure preventive against rust. Wet umbrellas should be stood on their handles to dry; this allows the water to run out of them, instead of into the part where the silk and ribs meet, thus causing the metal to rust and the silk to rot.

Obliging Clerk.

An out-of-town man walked into a Port Scott store and asked if the "boss" was in. A clerk who sat lazily gazing into space blinked several times, muttered his lips, and lapsed back into his former stage. "I say, is the boss in?" inquired the man in not a very mild tone. "No, he's gone out," returned the clerk, without taking his eyes off the space. "Will he be back after dinner?" inquired the man. "Nope," yawned the clerk, "that's what he went out for."—Kansas City Star.

Destiny of America.

A nation is not a conglomeration of voters, to be represented by hungry politicians empowered to partition the spoils of office, but a people animated by a common impulse and seeking to work out a common destiny. The destiny of America is mutual service; labor is the corner stone of our nationality, the labor of each for all.—Ralph Waldo Emerson.

His Best.

"He's a brute." "How so?" "When she promised to be his wife he said he would do everything in his power to make her happy." "Well?" "He spends all of his time at the club!" "Well, if he is really a brute that ought to help some."

What He Called It.

"Are you troubled with insomnia—sleeplessness?" "I should say I am. Some nights I don't sleep three hours." "That so? I've got it awfully bad. I've been afflicted now about two years. The doctor calls it neuritis insomnis paralaxitis." "I've had it about eighteen months, and we call it Ethel."—Ocean View Vidette.

Sliding Scale.

"I'm a taxpayer," gibbered the citizen, "and I demand consideration." "Lemme see your tax certificate," responded the city official calmly, "and then I'll know just how much consideration you are entitled to."—Kansas City Journal.
