NEWS NOTES OF CURRENT WEEK

Resume of World's Important Events Told in Brief.

Carbajal, new president of Mexico, has freed all political prisoners.

A trolley car in Norfolk, Va., strikes a freight train, killing four persons.

Huerta's family arrived safely at Puerto Mexico, where they will embark for a foreign port.

The home of a Eugene, Or., boot-black, was mysteriously set on fire for the sixth time in one week.

The new president of Mexico, Carbajal, is to resign in favor of General Carranza, the constitutional leader.

After attending Secretary Lane's 50th birthday anniversary dinner, President Wilson became ill with indigestion.

Victor Berger, Socialist ex-congressman, declares equal wages for both sexes will practically solve the vice question.

Two sisters who were born joined together, back to back, were cut apart by a surgeon, in Paris. The operation was successful.

Mrs. Pankhurst, the London militant suffragette, was captured as an ambulance was about to take her to address a meeting.

Twelve Baker county, Or. farmers lynched an unidentified man who had attempted a criminal assault on an eight-year-old girl.

Secretary Bryan, in a public statement, openly endorses woman suffrage, declaring he asks no political privilege he would not grant his wife.

Electrolysis has destroyed a number of telephone cables at Oregon City, Or., and it is feared the same agency may render the suspension bridge cables in that city useless.

Bandits held up two auto stages in California and secured \$12.50 from the passengers, but missed \$300 which two women dropped to the floor of the tonneau when they were getting out.

Delegates to the general conference of the Methodist Protestant Church of America, in session at Columbus, O., accepted the report recommending a merger with the United Brethren Church of America. This practically settles a ten-year agitation for a union of the two churches, which would affect about 500,000 persons. The United Protestant Church is the name which has been selected for the new organization.

Flying Boat About to Begin Across-Ocean Flight

Hammondsport, N. Y.—Lieutenant Porte, pilot of the Rodman Wanamaker flying boat, expects to start for Newfoundland not later than August 1 with the America.

As the America now stands, without installing the third motor, it is believed she can carry Lieutenant Porte and George Hallett, his aide, with fuel and oil for 24 hours and another hundredweight of provisions and accessories.

In order to make the trip, the two engines in the America must pound their hardest for 20 consecutive hours, at the least calculation. This will endanger the light framework and eat up at least two-thirds of the fuel. In case an adverse head wind is encountered most of the way, the remaining one-third of the fuel will be exhausted before the boat could reach the Azores.

Assuming that the air currents are favorable, that nothing happens to mar the working of the machinery and that the fuel holds out, Porte and Hallett must drive a course as true as a bullet through 1200 miles of ocean and air and pick out the tiny Azores. They must give unflinching attention to driving and balancing their craft and at the same time find their way over the vast waste with certain death beneath them at all times unless they hit the mark.

Porte and Hallett put their chief trust in starting with a favoring breeze and the swiftness of their flight. Both men believe the craft and its engines will stand the strain. They are willing to take all the risks, modestly accepting the rewards of pioneers if they succeed and passing like men if they fail.

The America is pronounced by all experts a perfect marvel in aero-yacht building. Her hull weighs only 550 pounds, and endures most surprisingly the immense pressure of water met while the great 3000-pound machine is ripping through the water at a rate of 62 miles an hour. No motorboat has yet been constructed whose bow can withstand such tremendous head-on pressure. The wings of the boat were manufactured at the National Physical Laboratory at Tennington, England, and are considered the final word. They will maintain an equilibrium of the twin-propeller hydroplane when it is forced to fly with one propeller dead, owing to the disablement of one engine. The America, which has twin engines, has demonstrated its ability to remain in flight with one engine out of commission.

Tablets in Museum Tell Story 7500 Years Old

Philadelphia—Although it was thought the discovery of the Nippur tablets, giving the oldest extant version of the creation, flood and fall of man, produced the oldest documents in existence in which human writing was shown, it develops that this is not the fact.

There are four tablets which are esteemed to be the oldest human writing in existence, and one of them is at the Pennsylvania University museum. It is only three inches square, is imperfect, and is assigned with some probability to about 7500 years ago, although it is impossible to make a close estimate.

The writing is in ideograph characters, the picture writing of all primitive peoples, and with great labor was translated by Professor Barton, of Bryn Mawr. These conventionalized pictures from a document dealing with the clearing up of a landed estate and the exact purpose of it is not wholly clear, although it tells of killing locusts and restoring the property. It may have served the purpose of a deed.

It is known that in this irrigated land of plenty, where wheat was said to have reproduced two-hundred-fold, any failure of crop was laid to demonology and it was important to remove the spell of witchcraft. Apparently the spell had been lifted from this piece of land.

No other human writing has been found older than the four specimens mentioned.

Abbott Spy for Germany.

Bernay, France—Abbott Huertebout, cure of Fontaine La Louvet, has been arrested on the charge of espionage and has confessed that he acted in the interest of Germany. A railway agent from whom he sought information regarding mobilization acted as a go-between, bringing about the arrest. Photographs, plans and data in the possession of the abbott have been seized.

Girl is Plague Victim.

New Orleans—The sixth case of bubonic plague was discovered here Monday. The victim is Helen Soell, 10 years old. She was stricken Thursday. Her home is 10 blocks from where the first plague case developed June 27. A force of men directly under the supervision of Dr. Oscar Salomon, began inspecting all freight leaving the city by rail. Before each car is sealed it is known definitely that it contains no rats.

Spokane Seeks to Hold Business From Seattle

Spokane—That the Spokane chamber of commerce ought to give what aid it can to jobbers who are seeking to retain an even chance for the trade of the upper Columbia river and Okanogan valleys, recently made alluring to Seattle and Vancouver, B. C., by reason of the opening of the new Great Northern line north from Wenatchee, was vigorously expressed at the trustees' meeting.

From W. P. Romans, traveling field secretary, now in the region of Oroville, Molson and the upper Okanogan, it was learned that Seattle houses are pushing hard the advantage they have on account of lower freight rates. A letter from Mr. Romans was read in which he said that Seattle has an advantage of 12 cents per 100 pounds over Spokane, and that Oroville was full of commercial travelers from Seattle houses, who were booking many orders.

"I do not know that this body can take up this matter. It is, of course, a case that chiefly interests the jobbers' association," said F. W. Dewart, "but I think if there is anything we

can do to help we ought to. The rates discriminate against Spokane and yet the distance is equal as far as Wenatchee, at least within a leeway of five miles, and the haul is easier from Spokane because there are no Cascade mountains to be climbed. We should at least have an even break with Seattle."

"I might say on that point," said R. E. Bigelow, "that the merchants of Vancouver, B. C., are delighted with the situation that exists since the opening of the Great Northern. They expect to do all the business in the Okanogan country."

Further discussion brought out the point that Spokane houses that have heretofore been supplying the bulk of the merchandise consumed in that region, sending it over the Spokane Falls & Northern, will have to abandon the territory or establish branch houses, unless equitable rates can be secured. Emphasis was laid by several speakers on the fact that the rail haul from Spokane to the territory by way of Wenatchee and the new Great Northern branch line is easier than the haul from Coast points.

Apple Crop This Year Will Exceed 1912 Record

This year's apple crop in the United States will exceed the record of 1912, according to a survey of the North Pacific Fruit Distributors, the co-operative selling agency which handles 65 per cent of the Pacific Northwest's commercial shipments.

It is apparent from reports issued by the head offices in Spokane that apple shipments from Washington, Oregon, Idaho and Montana will amount to about 15,000 cars, a smaller total than authorities estimated earlier in the season. However, this figure is not final. The big selling agency is now making a careful survey of the crop in all localities. Each district in the four states will furnish a definite estimate to be reported at a meeting in Spokane July 25.

Conflicting reports of California's apple crop have been received. The Watsonville district and the Pajaro

valley each promise 2,000 cars. Conditions vary widely in other parts of that state.

Colorado, it is reported, will have the largest crop in its history, totaling between 3,000 and 3,500 cars. Utah and New Mexico will show increases.

"Practically all states will have apples," the summary continues. "New York's crop will be the largest since 1896, it is declared. There may be a falling off in Indiana, Wisconsin and Minnesota, but these states are important in point of production. Iowa is still uncertain. There will be large gains in all other New England, Southern and Middle Western states, particularly in the well known apple producing districts."

"Canada's apple crop will be very satisfactory, according to its department of agriculture. England will have only a 50 per cent crop, its apples having been damaged by a May frost."

Phone Girls to Get \$9 Per Week; Under 18, \$6

Tacoma—Flour exports this year are expected to be of record-breaking proportions, and the outlook for the next few months is excellent, according to members of the Washington Millers' association, who, to the number of 30, held their annual meeting here this week.

The millers said the main cause for concern just now is the rust that has appeared in the wheat in some sections of the state, and a slight frost that had recently done some damage in a few localities.

The consensus of opinion was that about 25,000,000 bushels would be ground by the mills, although one miller predicted 30,000,000. Members stated that orders for export have been heavy, and that the season promises to be the best in many years, with the mills operating to capacity from the time the season opens, early next month, until it closes. It was stated that, in compliance with the Federal law, prices were not discussed at the session, which was closed to the public.

The officers of the association are: George F. Folsom, president; O. D. Fisher, first vice president; John T. Bibb, second vice president; J. D. Armstrong, treasurer; Alexander Thomson, secretary.

Washington Flour Millers Foresee Bright Prospects

Olympia—The Industrial Welfare commission issued orders fixing the minimum wage of telephone girls over 18 at \$9 a week and of those under 18 and of messengers at \$6 a week.

The order affecting telephone girls is applicable to any female over the age of 18 years in any establishment operated in connection with any telegraph or telephone line and therefore includes office help in this industry. The order stipulates that at least an hour must be allowed for luncheon and that rest rooms must be provided.

The regulations affecting those under 18 applies both to boys and girls employed in any capacity in the telephone or telegraph service. It also provides that girls or boys under 18 employed in telephone, telegraph, mercantile, parcel delivery or messenger service must not be permitted to go to work earlier than 6 o'clock in the morning or work later than 9 o'clock in the evening.

The decision becomes effective September 7, but, in the case of small exchanges it will not be enforced until further investigation.

Many Acres Wheat Burned In Walla Walla District

Walla Walla—Five hundred more acres of wheat were burned this week, making a total of 1500 acres burned in this immediate vicinity, and nearly 2500 acres in the county, in two days. The loss is the heaviest ever known here from grain fires.

Losers are: Charles Loney, 40 acres of standing grain; Dave Ferris, 350 acres of grain just threshed and in the sack, close to 17,000 bushels, and Coyle Bros., 100 acres of grain in the stack. The fire started from a threshing engine in the Loney field. Losses were the Ennis estate, 1010 acres of standing wheat. Other losses in the county were 200 acres of bunchgrass and 80 acres of standing grain near Waitsburg. The origin of the Ennis fire is not known. That at Waitsburg started from a strawstack on the E. McCaw place, which was fired previously but which it was thought was extinguished. While the McCaw family was at church Sunday a wind fanned the sparks into flame and McCaw lost 400 acres. W. P. Williams lost 70 acres, James Archer 2300 acres and Henry Zuger lost some threshed grain. Two hundred acres of bunchgrass owned by Archer Williams and Zuger also burned. All these fires were in the best part of the wheat section. The grain burned was partially insured. Ferris, the heaviest loser, had his about three-fifths insured. At present prices of grain, the loss in the two days' fire is about \$80,000. As the owners expected to get a higher price they figure their loss nearer \$100,000.

Land Is Leased for Flocks.

Olympia—Commissioner of Public Lands Clark V. Savidge has leased 9680 acres of school land in Klickitat county for grazing purposes. The lease runs for five years and will bring in a revenue of \$3500. Commissioner Savidge recently made an examination of this section and found that for several years sheep men had run their flocks on this land without paying anything to the state. When they received notice of the new policy they readily consented to take out leases.

Cable Bridge Asked at Cispus.

Chehalis—A numerously signed petition has been presented to the Lewis county commissioners for the erection of a bridge across the Cowlitz river near the Cispus postoffice. At that point the stream passes through a comparatively narrow gorge with solid stone walls on either side, and it is believed that a wire cable bridge can be built for the distance of 30 feet at a reasonable cost.

Jane Addams of Chicago, has written a new book, the title of which is "An Ancient Evil and a New Conscience." Senator John Sharp Williams has declared on the floor of the Senate: "I will wager my head that that book alone will do more good in accelerating the spiritual growth—it will bring the men who possess things and the men who do not possess things more nearly together upon a common plane of thought and feeling than all that congress could have done if it had been doing nothing else for the past ten years." Now let the observers note whether this testimony from the Federal Senate is as effective in making Miss Addams' new book one of the "best sellers," as was that other voice of the government which spoke in the past, when sanctimonious John Wanamaker used the power of his office as Postmaster General to exclude a popular novel from the mails, resulting in a million copies being sold.

No doubt the United States Senate is having a good chuckle behind closed doors—you know they have closed doors at the Senate, with Star chamber sessions, executive sessions, caucuses and secret committee meetings. But this time one Warburg with business offices in the suspicious financial district of New York has replied to a request of the Senate that he appear before it in order that he might be questioned in reference to his appointment on the reserve board, telling the Senators in substance to go chase themselves. These real nice Senators do not like to be treated that way, and they have put Mr. Warburg's appointment into a dark pigeon hole. The president wants them to take it out and act upon it. In every other instance since Woodrow Wilson has been in the White House, the senate has obeyed his mandate, but this time they only return a blank stare, murmuring meanwhile: "Why Mr. President, Warburg has been so rude that we could not think of it."

The minds of many ranchers on the irrigated lands of Washington will be much relieved at the news that congress is favorably considering the extension of the period in which settlers on irrigation projects may pay the construction cost on them from ten to twenty years. President Wilson, Secretary Lane, and officials of the reclamation service have approved the proposed extension of time. The settlers, to the number of thousands, are said to have found it practically impossible to meet their payments to the government within the ten-year period.

Best Diarrhoea Remedy

If you have ever used Chamberlain's Colic, Cholera and Diarrhoea Remedy you know that it is a success. Sam F. Guin, Whatley, Ala., writes, "I had measles and got caught out in the rain, and it settled in my stomach and bowels. I had an awful time, and had it not been for Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not possibly have lived but a few hours longer, but thanks to this remedy, I am now well and strong. Grocers' and Butchers' Annual Picnic

The grocers' and butchers' picnic came off as scheduled and everyone had a big time. All the visitors expressed themselves as pleased with Langley as the new home of this annual event, and Langley certainly welcomes them. It is estimated that fully 3,500 visited the island, coming from the mainland, while the island itself contributed several hundred more. Games, sports and amusements of every variety were indulged in. Among the local winners who brought home the bacon were:

Oldest lady on the grounds, Mrs. L. E. Montgomery; largest family, Henry Hunter family; prettiest baby boy under one year, Mrs. Fosse; prettiest girl baby under one year, 1 Mrs. Anton Olson, 2 Mrs. Phil Simon; running jump, 1 Fred Howard; standing jump, 1 E. Rothgeb; grocers' race, 1 E. Rothgeb; boys' race, A. Bosshard; girls' race, Dora Polley; hobble skirt, Dora Polley; stout ladies' race, Cora Polley; boys' sack race, Olsen boys.

The Grocers' Daughters outpulled the Grocers' Wives in the tug-of-war. Langley defeated the Clerks in a closely contested ball game, the final score being 8 to 7.

Dancing continued all afternoon and evening, a large crowd being on the floor at all times.

Transportation facilities were excellent, the good ships Gleaner, Clatawa, Verona, Marguerite, Alverne and several other craft plying back and forth between Langley and other points all day. Altogether the day will go down in history as a pleasant remembrance to all who participated.

Severe Attack of Colic Cured

E. E. Cross, who travels in Virginia and other southern states, was taken suddenly and severely ill with colic. At the first store he came to the merchant recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. Two doses of it cured him. No one should leave home on a journey without a bottle of this preparation. For sale by all dealers.

The state's first experience with the initiative seems certain to result in extended court proceedings to test the count of the petitions being conducted by Secretary of State L. M. Howell. The test will come on one or more of the "Seven Sisters" bills with their petitions, submitted by a coalition of the labor unions, farmers' unions, state grange, and the Direct Legislation league. All of these bills will win or lose places on the ballot by very narrow margins and both friends and opponents have been watching the count with the expectation of taking disputed points to court. The fish bill was shown in the preliminary count to be 176 signatures short and has lost others in the check. Others of the bills appeared in the first count to have sufficient signatures to be valid, but in no case as much as 4 per cent of surplus for probable shrinkage caused by duplicates and irregularities in filling the blanks. There seems every prospect that the average shrinkage will be more than 4 per cent.

Application No. 7299

Notice of Sale of State Lands

NOTICE IS HEREBY GIVEN, That on Tuesday, the 1st day of September, 1914, between the hours of 10 o'clock in the forenoon and four o'clock in the afternoon, commencing at ten o'clock in the forenoon of said day, in front of the main entrance door to the County Court House in the city of Coupeville, county of Island, State of Washington, either by the County Auditor of said county or by a member of the Board of State Land Commissioners of the State of Washington, the following described state lands, together with the improvements situated thereon, will be sold at public auction to the highest bidder therefor, to-wit:

APPLICATION NO. 7299.

All tide lands of the second class, as defined by section 1 of chapter 26 of the session laws of 1911, owned by the State of Washington, situate in front of, adjacent to or abutting upon those parts of lots 1 and 2, section 5, township 29 north, range 2 east W. M., measured along the meander line as follows: Beginning at the meander corner to fractional section 5, township 29 north, range 2 east W. M., and fractional section 31, township 30 north, range 2 east W. M., and running thence south 52°34' degrees west 2.00 chains, south 45°14' degrees west 8.00 chains, and south 52° degrees west 2.20 chains to the terminal point of this description, with a frontage of 12.20 lineal chains, measured along the meander line, according to a certified copy of the government field notes of the survey thereof on file in the office of the Commissioner of Public Lands at Olympia, Washington, appraised at \$10.00 per lineal chain, or \$122.00.

Said land will be sold subject to the terms, conditions and reservations of Chapter 109 of the Session Laws of 1911, relating to easements for rights-of-way and the carrying of timber, stone, mineral and other products over the same.

Said lands will be sold for not less than the appraised value above stated and upon the terms and conditions following:

TERMS AND CONDITIONS OF SALE.—Not less than one-tenth of the purchase price must be paid at the time of sale to the officer making the sale. The purchaser, if he be not the owner of the improvements, must forthwith pay to the officer making the sale the full amount of the appraised value of the improvements, as above stated. One-tenth of the purchase price must be paid annually thereafter on the first day of March of each year, with interest on all deferred payments at the rate of six per centum per annum, together with accrued interest on any balance, at the same rate. PROVIDED, That any purchaser may make full payment of principal, interest and statutory fees at any time and obtain deed or state patent. The purchaser of land containing timber or other valuable materials is prohibited by law from cutting or removing any such timber or materials without first obtaining consent of the Commissioner of Public Lands or the board, until the full amount of the purchase price has been paid and deed issued.

All sales of state lands are made subject to the reservations of oils, gases, coal, iron, minerals and fossils of every name, kind and description and to the additional terms and conditions prescribed in the act of the legislature approved March 20, 1907, being section 3 of chapter 256 of the Laws of 1907.

The above described lands are offered for sale in pursuance of an order of the Board of State Land Commissioners, and an order of sale duly issued and certified by the Commissioner of Public Lands of the State of Washington now on file in the office of the county auditor of said county.

tle passenger Monday morning, return-
ing on same boat in the afternoon. She
went down to meet her brother and
family.

About 75 people brought their din-
ners and spent last Sunday in the
wilds of Glenwood Park. Probably
220 people came over from Everett, and
beach parties lined the shore for two
miles.

J. R. Schumacher no doubt holds the

A carload of cans from Chicago is
expected to arrive here within the next
ten days. As it is certain the cannery
will consume its stock on hand earlier,
a special shipment from Portland has
been ordered.

Quite a number have been taking the
trip to Coupeville and Oak Harbor on
the Clatawa Saturday evening. Dur-
ing the warm weather it certainly is
enjoyable. About four hours are spent
on the water on the round trip, the
boat leaving at 4:15 and arriving here
about 8:30.

What came near being a serious
accident occurred at the wharf last
Sunday noon. While the crew of the
Clatawa were unloading freight Stan-
ley Hunziker, who was on the upper
deck, lost his balance and fell over-
board, striking on the lower railing of
the boat as he fell. He was shoving
an ice cream freezer down a plank
when the latter slipped and Hunziker
and the freezer went into the water.
Luckily he was able to swim and was
soon pulled out. His right arm was
badly cut and bruised, and it is prob-
able he will be laid up for a month or
two. He was taken to Everett for X-
ray examination and it was found that
one of the bones was broken. It will
be necessary for him to carry his arm
in a sling for several weeks.

C. N. Porch was a Snohomish visi-
tor over Sunday.

Mrs. Rupp visited with friends in
Seattle last week.

Born at Seattle to Mr. and Mrs. E.
M. Clyde, a daughter.

Mrs. Knisland spent a few days in
Everett with her sister this week.

Robert Moody of Everett was a Ca-
mano caller between boats last Sat-
urday.

At present three new buildings are
going up and another will soon be
started.

Mr. and Mrs. A. Blomquist of Port
Blakely have moved to Camano for
the summer.

Mrs. Clyde Tetherow of LaConner
returned to her home last Tuesday af-
ter spending a few days picking black-
berries.

Utsaladdy

Will Morrison has a fine stock of
young chickens cornered.

There were about fifty autos over
from the mainland Sunday taking in
the sights.

You must all get wise and come to
Utsaladdy. It's a very pretty place
for a summer resort.

Our storekeeper, A. Anderson, has
been very busy the past few weeks
accommodating campers.

The roads are fine now all over Ca-
mano island. S. J. Barnum has done
some fine work during his term as
county commissioner at road building.

Cured of Indigestion

Mrs. Sadie P. Clawson, Indiana,
Pa., was bothered by indigestion.
"My stomach pained me night and
day," she writes. "I would feel bloated
and have headache and belching
after eating. I also suffered from con-
stipation. My daughter had used
Chamberlain's Tablets and they did
her so much good that she gave me a
few doses of them and insisted upon
my trying them. They helped me as
nothing else has done." For sale by

Reforming Him.

The girl of whom we are about to speak was engaged to marry a young man who for many years had been busy earning a reputation as what is variously described as "a rounder," "a man about town" and a "prominent clubman." That is to say, this lady was going to take a chance on a very sporty bachelor for better and for worse.

"Dear," she said to him humbly, "I know you like your nights out. I know you drink a little—you must teach me to mix cocktails. I know you smoke—I can learn to roll cigarettes. And I know you play cards a lot—but you can teach me to play cards."

"What a darling you are!" exclaimed the man. "I will teach you a game of cards now, and then you'll know all about it after we are married."

"Fine. What game are you going to teach me?"

"Is that other portmanteau yours, then, too?"

"Other portmanteau?"

"Yes; on the floor there by the other."

"Those," said the traveler with dignity, "are my feet."—Houston Chronicle.

FARMERS AGREE TO HOLD WHEAT

Kansas Growers Ask Big Price for 100,000,000 Bushels.

Present Price of 60 Cents Thought Too Low—Dollar a Bushel Popular Slogan.

Topeka, Kan.—Kansas farmers will hold 100,000,000 bushels of wheat this year, or 25,000,000 bushels more than the entire crop of 1913, according to W. H. Mitchell, National vice president of the Farmers' Society of Equity.

Mr. Mitchell is organizing the farmers of Kansas and urging them to hold their immense crop for higher prices. Sixty-cent wheat in Kansas has become the rule and has turned the thoughts of the farmer to the possibility of holding his grain. When the organizers arrive in a community they find little opposition to the idea of holding the grain, Mr. Mitchell said.

"I do not believe more than one-fourth of the wheat grown this year will be sold," said Mr. Mitchell.

Grain bins of frame and cement construction are being rushed all over the state, and in many places wheat is being piled on the ground by the farmers who refuse to accept present prices for it. The Farmers' Society of Equity is campaigning for dollar wheat, but the Kansas members will sell their grain for less than that figure, it is generally believed. Most of them are preparing to hold for higher prices than the 60-odd cents now offered, however.

The money order section of the country town postoffices in Kansas prove that this year is an exception with the harvest hand, as well as the wheat-growing farmer, for the harvest hand is sending his money home. This is probably due to two causes. One is that the harvest hand has learned the value of money, and the other, the farmer has learned that he must protect his helpers to be sure of getting them when they are needed.

For years the popular diversion with a certain crowd of men who followed the harvest was "harvesting the harvest hand." Gamblers began in Kansas and worked with the harvest to the Canadian border. Some of them even worked in the fields, to be better enabled to separate the harvest hand from his money. There was every sort of game that would be easily transported and quickly hidden. The layouts were not of the fancy kind, but they brought quick action on the wagers made, and the quick action resulted in shifting the money from the worker to the gambler.

This year a dozen men have been arrested for attempting to defraud harvest hands.

Gen. Orozco Starts New Revolution in Mexico

Mexico City—Pascual Orozco and General Francisco Cardenas, with 4000 men, began a new revolutionary movement Monday. Orozco is operating north of Aguas Calientes, and Cardenas is preparing to invade the state of Michoacan.

Fugitives who arrived here from Contreras and Tizpan, villages a few miles from Mexico City, reported a serious movement by the forces under Zapata. Contreras was attacked by the Zapatistas early in the day. The garrison, consisting of only 17 federals, was driven off, and several thousand Zapatistas started pillaging and burning the houses. Tizpan is only about 12 miles from here, and connected directly with the capital by an electric railway.

Many of the inhabitants of villages in the federal district are fleeing to the capital for protection. Federal troops were dispatched from the capital to check the advance of the marauders.

Eugenic Marriage Fails.

Cleveland, Ohio—Mrs. Josephine Sanger, 26, and Joseph Sanger, 34, Monday raced to the courthouse to see who would be first to file suit to annul a eugenics marriage. Mrs. Sanger won by a few minutes. Her petition says Sanger misrepresented his physical condition. "He told me he was a marriageable, healthy man," Mrs. Sanger said. "I found he was not." A few minutes later Sanger filed suit for divorce. He declared she misrepresented her physical condition to him. A special hearing will be held.

City Plans Pageants.

New York—The tercentenary of the beginning of chartered commerce in New York and the opening of the Panama canal will be celebrated in a series of pageants in Parks of this city from August 12 to October 12, according to plans of the celebration commission just announced. Boys and girls from the public schools are beginning work on costumes and other accessories to the celebrations. The legislature has voted \$100,000 to help meet the expenses of the festivities.

Grasshoppers in Force.

Pendleton, Or.—Not within the memory of the "oldest inhabitant" have grasshoppers been as numerous or as destructive as at present in the west end of Umatilla county. Reports are that they will greatly reduce the yield of the third cutting of alfalfa. In some cases they have attacked orchards and by eating off the leaves of the trees have stopped the growth for this year.

Sombody Lost His Job.

In a business men's club in a western town there sprang up two factions, one of which criticized the steward because he did not provide the members with good meals and one which defended him hotly.

The dispute got fiercer and fiercer. Half the club wanted to fire the steward at once; the other half said he was efficient.

Then, without warning, the steward himself decided the momentous question. One day at lunch time a member of the club asked a waiter: "Where's the steward?" "He ain't here," replied the waiter. "He said he was going down the street to get something good to eat."—Popular Magazine.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not sleep, nor sleep to do any good, had no appetite, and everyone thought I would not live. Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong. "I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Commercialism.

"Here is a poem that will rank with the masterpieces of literature." "You will insist on writing masterpieces," protested the publisher. "I suppose you would expect real money for this."

"Its value could not be estimated in dollars and cents."

"Why, Milton only got \$25 for 'Paradise Lost.'"

"Oh, well, if you feel that way about it, have your own way. Take it along for \$24.98."—Washington Star.

Late in the Day.

Orville Wright, apropos of his new safety appliance for aeroplanes, said at a dinner in Dayton:

"In a short time now there will be no more aeroplane accidents. In a short time there will be no more aeroplane jokes, either."

"I heard a new joke yesterday. A young woman rushed into a life insurance office, and cried:

"'One life policy, quick! My husband's biplane's falling.'—Sacramento Union.

Making History.

The Guest—And who is the distinguished personage in oil over the mantle?

The Owner—That's my great-grandfather, Hopper Hinkle, painted by Kalosky. He was one of the mob of patriots who dumped the boatload of storage eggs into the harbor.—Cleveland Plain Dealer.

Repertee.

A perspicacious young man, passing where an old colored man was busy setting fire to the dead grass in a meadow, accosted him thus: "Don't do that, Uncle Eb; don't do that!" "Why so, sah; why so?" "You will make that meadow as black as you are."

Not on Exhibition.

"Tell me, dear, is it because you think me very pretty that you look at me all the time?" "Oh no; it isn't that; but papa says you are a two-faced woman, and so I am searching for the other one!"—London Opinion.

Good Intentions.

Mistress—Now Sarah, I want you to be careful about breaking this vase. It cost a great deal of money, and I would hate to have it carelessly broken the first thing.

Sarah (three days later)—There's your vase, ma'am, and I couldn't have broken it more carefully if I'd tried for a month.—Cleveland Plain Dealer.

Needn't Stand for That.

Billy, while being reprimanded by his teacher for some misdemeanor, sat down, leaving her standing.

She reminded him that no gentleman should seat himself while the lady with whom he was conversing remains standing.

"But this is a lecture," replied Billy, "and I am the audience."—Cleveland Leader.

Blood Troubles Are Often Hard to Locate

Catarrh, for Example May Be the Cause of Very Serious Illness.

A Slight Trouble Often Brings Serious Blood Disorders.

A chronic cold means something wrong constitutionally. Pimples mean bad blood. Rheumatism means faulty elimination. These and a hundred other symptoms are easily recognized, but where is the trouble. Where is it located? What is wrong with the bodily machine? If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of those conditions that cause sickness and disease. But don't let anyone work off that old trick of something "just as good." S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectually cleanse the system and thus put an end to all pollution. S. S. S. cleans out the stomach of mucous accumulations, enables every pure, blood-making material to enter the arteries, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification. You will soon realize its wonderful influence by the absence of headache, a steadily improved condition of the skin, and a sense of bodily relief that proves how completely the entire system was loaded with impurities. You will find S. S. S. on sale at all drug stores. It is a remarkable remedy for any and all blood affections, such as eczema, rash, lupus, leprosy, psoriasis, boils, and all other diseased conditions of the blood. For special advice on any blood disease write to The Swift Specific Co., 223 Swift Bldg., Atlanta, Ga. Do not trifle with substitutes, imitations or any of the horde of "Just as good" Counterfeits of S. S. S.
