FRIDAY, SEPT. 27, 1912

**JOHN M. RALSTON**  
Candidate for Superior Judge, Island,  
Jefferson and Clallum Counties.

Island County is to be congratulated on the nomination of F. A. LeSourd for Representative. Mr. LeSourd has always been loyal to the interests of our county and can always be depended upon to vote right upon all measures that may come up in the legislature.

It seems too bad that the county Commissioners of Island county failed to bring the road bond proposition before the people for a vote at the general election in November. King county is voting on a road bond for \$3,000,000 as a business proposition. Island county could well vote \$100,000 for the same purpose.

The fact that the Republican County Central Committee unanimously elected Luther Weed in as State and Congressional Committeeman shows their confidence in Weed in. He certainly was entitled to the position by reason of his general acquaintance with the leading of men of the party over the state.

Again it is our pleasure to comment favorably upon the attitude of our people in the matter of the canning plant. The plant is assured and this means the ultimate increase of fruit land values to a sum likely to be many times the entire capital of the canning plant, to say nothing of the increased income assured from the orchards and gardens, by reason of having a market—a dependable home market—no more shall the lusty commission man dope it off to us that he has too much stuff now and that anyhow Whidby product is not in demand—possibly we can dispose of his services a great deal, if indeed, not entirely.

The Langley Islander appears to consider that one of its principal missions on earth is to find fault with some one or about something, at Coupeville. Two weeks ago it indulged in a false charge against the county superintendent of schools, insinuating, among other things, that it was through her poor advice that the school bonds were declared illegal. Nothing could be farther from the truth and any one of ordinary intelligence should know that the issuance of bonds by a school district has no connection with the duties of the superintendent. Especially would this be true in regard to setting the hour at which the bond election is to be held, the flaw which invalidated the Coupeville bonds. Talk about something you understand, Mr. Islander.—Island County Times.

Drop a nickle in the slot and you get a cigar; criticize any county or public official and you get a ready-made apology from the county apologist, the Island

County Times. The facts are The Islander never mentioned Miss Kohne's name, and our criticism regarding the "flaw which invalidated the Coupeville bonds," was directed to those who are to blame. If a county superintendent of schools or a school board really have nothing to do with looking after the legality of things pertaining to school matters than we must look to others for past blunders. Will the Times kindly explain in its next issue who was to blame in this instance?

The Islander was not misinformed when it said that the fair at Coupeville was a county fair. The Coupeville Times and the Oak Harbor News know, too, that the Islander was correct when it said it was. It was advertised as such on large posters gotten up by no less people than the officers of the fair who, as we said, all reside at Coupeville. It is true that under the law the county need appropriate no funds for a year after its incorporation, but it can do so then. The whole affair amounts to just this: Certain people at Coupeville fearing that Langley or Oak Harbor might attempt to hold a fair got together and organized a fair association, elected themselves officers and when they run short of men elected their wives and daughters to fill the various offices. Then they proceeded to hold a fake fair in order to get in line for the county appropriation. The Times and News know that it was a fake fair but as usual, they come to the rescue of the Coupeville officials because its a paying proposition to do so. It's the same old story with the Times—the same ready-made apology.

### A Correction.

Port Townsend, Wash.,  
Sept. 23rd, 1912.  
Editor Langley Islander,  
Dear Sir:

I am a subscriber to your paper, and as such feel that I am entitled to ask you to be fair and do me justice. In your issue of September 13th, speaking of the contest for the judgeship in the district composed of Island, Jefferson and Clallum counties, you said: "The unofficial vote on superior judge in this district with a few isolated precinct to hear from gives Coleman 1,574, Ralston 2,323, and Still 1,171, and the indications are that Mr. Still is defeated." Now Mr. Editor, while it is true that Judge Still is defeated, and the race is therefore between Mr. Ralston and me, yet it is not true that Mr. Ralston has 2,323 votes to my 1,574. On the contrary, the official count in the three counties shows that I have received 1,825 votes and Mr. Ralston has received only 1,448 votes, or 377 votes less than the number cast for me, instead of having beaten me 749 votes, as your published statement said he had. Will you do me the justice to publish this correction of the error contained in your issue of the 13th instant.

A. R. COLEMAN.

While cutting wood this morning with an ax James Newman had the misfortune to cut his forehead quite badly. It took several stitches to close the gash.  
H. P. Wells shipped in this week about 200 sacks of ground limestone, he is to use to fertilize on his ranch near town. Mr. Wells has about ten acres in onions this year.

Mr. and Mrs. Croffuth, Mr. and Mrs. J. H. Fulton and Mr. and Mrs. J. E. Myrick, of Everett, visited Langley today. One of them will probably become a resident and all of them were much impressed with our little town.

You have got to hand it to Langley when it comes to prompt response to call for an industry, such as the canning plant will prove to be. People from all over the south end of the island were right there with genuine grit and gold coin.  
Mrs. Kraber received a slight stroke of paralyzes Thursday morning. The attack has caused her to lose control of one side of her body. The stroke is not thought to be permanent, and she has improved somewhat since she was confined to her room.

Prof. Haller and his troupe played Langley all week. This was by far the best show that we have had. The music was good and there was sufficient variety to make matters interesting. Prof. Haller is negotiating about putting in roller skates this winter. From here they go to Oak Harbor.

Those of our people whose political prejudices forbid them to attend the lecture given by L. W. Buck at the Langley school house last Saturday night missed a good, sound, sensible talk. Mr. Buck is the socialist candidate for state senator from this district. He is also the editor of a socialist paper at Bremerton and publishes one of the best weeklies in the state.

The Democrats will organize a Wilson and Marshall club in Langley Saturday evening, Sept. 28, and after a permanent organization is effected Judge W. W. Black of Everett will address the gathering. He will arrive on the 4:30 boat and will be accompanied by other prominent democrats. The meeting will be held early so as to get through in time for the visitors to return on the 8:30 boat.

The Republican County Central Committee met in Langley last Saturday and organized by electing officers as follows: A. D. Stevenson, Coupeville, chairman; H. M. McLeod, Langley, secretary; Jerome Ely Oak Harbor, treasurer; Luther Weedon, of Coupeville, was elected state and congressional committeeman. Harvey Bantz, San de Fuca, was nominated to fill the vacancy for caroner on the ticket. The Committee will meet at Coupeville October 2nd, at 7 p. m.

**The Canning Plant.**  
The second public meeting was held Saturday at the High School and was well attended; after being called to order by Chairman McMaster the minutes of previous meeting were read by Secretary Funk.  
Committee reports were then called and showed decisively that the canning is fully assured. It is not likely that more than half of each subscription will be called inside of a year or two, the surplus subscriptions being allowed to run open, as a reserve against contingencies or possible 10 per cent. of each subscription now payable to Secretary Funk.

The plant is especially fortunate here in that a most competent and efficient manager is available in the person of Mr. Beane; his thorough knowledge of the business relieves the Company at the outset, of the first serious factor to be met in an industry.  
H. P. Jensen offered a very desirable site for the plant, upon generous terms, and after additional committee appointments the meeting was adjourned till Saturday, September 28, at the Langley High school, at 1 o'clock p. m. All are requested to come and to consider their subscriptions as wise investments rather than as donations for the management assures success and dividends.

**Investment.**  
Do not fail to secure a few shares of the capital stock of the Langley Canning Company—this stock is being sold at \$25 per share, ten per cent down, balance on call.  
Good management is already assured, and crops neither fail nor have markets any indications of inactivity in the line of high grade canned fruits.

Every indication is that the stock shares will in time become very valuable and return large dividends to investors; the capital stock issue is small and yet ample for considerable expansion.  
Those who have not been fortunate enough to reserve a block of stock should send their order to the secretary immediately, together with check for 10 per cent. of amount subscribed. This opportunity may not be open long.

**Saratoga.**  
Mr. and Mrs. McKay have been over on a visit from Vancouver, B. C.

**London's Smoke Nuisance.**  
Half of London's smoke nuisance is caused by the coal fires in private dwellings, the owners of which are not liable for prosecution. It is expected that a good deal of missionary work will have to be done among householders before the smoke evil can be lessened appreciably.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

**Proofreader in Embryo.**  
A primary grade boy in Fred was told to write a sentence containing the word "chicken." He was not quite sure how to spell the word, so he wrote: "A chicken is a small hen, (I can spell hen.)"

Pinkham's Vegetable Compound I began to improve and I continued its use until I was made well."  
—Mrs. HENRY LEISBERG, 743 Adams St.

—Mrs. G. B. WHITTINGTON.

THE CHINESE DOCTOR

The various diseases which people commonly suffer with succeed in the penetrating action of the remedies compounded by me from Roots, Herbs, Buds and Berries which have been known for their medicinal value for many centuries by the physicians' families of the Chinese. Not only are most of these vegetable remedies rare, but are gathered at great expense in remote quarters of the globe.

I can refer you to hundreds of well-known people in the Northwest who have taken my treatments and were quickly and permanently cured. So sure am I of the reliability of my methods that I offer

**The Old Wagon Show.**  
The wagon show of long ago, it has a funny clown; we lined the way a break of day to see it into town. Our money went to the last cent to get us boys inside. But what of that? For hours we sat with eyes distended wide The wagon show of long ago, it only had one ring, and we could sit close to it, and never miss a thing.

There is longevity in the sunny soul that eases our joys and makes our ills shake, with laughter. There is a wonderful medicinal effect in good cheer. Good news and glad tidings have a magic effect even upon invalids. We often see a whole store or factory or home transformed by one sunny soul. On the other hand, we have seen them blighted and made dark by a gloomy, morose, fault-finding person.

**When Wrinkles Come.**  
The first wrinkle of age comes on the side of the cheek just in front of the ear and its possessor is, as a rule, the last person to notice it. Just behind the ear there is usually a falling off of the roundness of the neck, and the hair becomes thin, leaving a bald look on the woman over 40 if she is not careful to remedy these important blemishes. Massage will do more for these growing imperfections than almost any other facial defect.

## PRaises FOR PANAMA CANAL

### Charges of Bad Faith Give Way to Admiration.

Greater Influence on Commerce Than Suez—Issues of Tolls Dropped for Present.

London—The announcement from Washington that the Panama canal will be opened formally next year is a signal for fresh discussion of all the broad possibilities of the undertaking. So far as the question of tolls is concerned, there seems to be a growing disposition to think Europe has been precipitate in charging Americans with bad faith or with taking an unfair advantage.

Everywhere effusive compliments are written and spoken in light of the tremendous display of engineering skill on the isthmus. Pictorial papers here and in Paris and Berlin give sketches of the chief objects of interest along the route and in the construction work. Long special articles, deal with the "revolution the canal is to bring about in international trade."

One able Berlin writer thinks that "the Panama will necessitate greater modifications of the established system of foreign commerce than were necessitated by Suez" and adds that "it is as if Dame Nature had suddenly decided to alter the course of her trade winds."

Another, declaring in London Weekly, that the canal is the "crowning achievement of American force and enterprise," makes the significant admission that the "best business minds of the empire—Britain—are concentrating upon the commercial revolution which is imminent in order that, irrespective of the willingness of Americans to arbitrate concerning tolls, we may use the new waterway to the full and may begin to use it the day it is opened."

Quite the strongest censure cropping out anywhere is the "hope that Colonel Roosevelt, Dr. Wilson or Mr. Taft, whichever may be the next president, will do all he can to prevent our admiration of the phenomenon of mechanics being long diminished by different emotions as to the international use to be made of it." No annoyance is exhibited anywhere in Europe, not even in Spain, over the latest admonitions addressed directly or indirectly by the Washington government to Mexico, Nicaragua and Cuba. On the contrary, the prevailing sentiment is one of approval.

European capitalists who have investments in many of the republics south of the Rio Grande long have chafed at the chronic confusion created by the local politicians for selfish ends, and would welcome the application of a strong hand. A London financial paper is "astonished at the forbearance of Americans in their dealings with the Mexicans."

### 82 EGGS LAID IN 82 DAYS.

Product for Ten Months Totals 237—Prizes Won Are Many.

St. Louis—"Lady Show You," a 2-year-old white Plymouth Rock hen from Millersville, Ill., is breaking all records in the national egg-laying contest at the Missouri State Poultry Experiment station at Mountain Grove. She is leading the egg producers, numbering 640, representing 39 varieties from 25 states and Canada.

Her record for 10 months is 237 eggs, and her nearest competitor is a barred Plymouth Rock hen, which has produced 216 eggs in the same period. Lady Show You also has broken the world's record so far as known for continuous egg production with 82 eggs in 82 days.

When she had reached a record of 65 eggs on consecutive days, the advisory board tacked the prize ribbon on her nest and gave her an extra portion of meal, but she kept right on for more than two weeks. She has six weeks more to complete her record for the year's contest. Government statistics give the average egg production as about 80 per hen a year.

### Boy Gives Leg for Girl.

Gary, Ind.—William Rugh, a newsboy, will permit the amputation of his crippled left leg in a few days so that its skin may be grafted on the body of Miss Ethel Smith, a girl he has never seen. Miss Smith has been in bed for four weeks as a result of severe burns and the attending physicians say that the only hope of her recovery is to graft enough skin on her body to cover the wounds. When Rugh was appealed to he promptly consented to make the sacrifice.

### Maid of Mist on Rocks.

Niagara Falls, N. Y.—The Maid of the Mist, the little steamer that for years has carried tourists close to the tumbling waters of Niagara Falls, ran on the rocks Sunday a short distance below the cataract. Life boats were made ready for launching and the 20 passengers were equipped with life preservers. By skilful maneuvering, however, Captain Carter released the steamer by its own power and brought the passengers to the landing.

### Coffee Export Tax Increased.

Guatemala City—An additional tax of 50 cents gold per hundred pounds on coffee exported has been ordered. The total tax now amounts to \$1.50 gold.

## C. O. D. LIQUOR BARRED.

All Shipments Must Be Plainly Labeled and Addressed.

Washington, D. C.—Attorney General Wickersham, in instructions to all United States attorneys, is urging prompt and vigorous prosecutions of any persons found violating sections 238, 239 and 240 of the new criminal code, which provide conditions under which intoxicating liquors may be shipped from one state to another, or from a foreign country into the United States. These statutes, however, do not apply to shipments entirely within a state, that being a matter over which the Federal government has no jurisdiction. The laws in question do not undertake to prevent the shipment of liquor into "dry" states or "dry" towns, it having been held by the courts that the government cannot interfere with legitimate interstate commerce.

The three sections named, however, are designed to be an aid to the authorities of a "dry" state or town, in that they enable the state and local authorities to learn whenever liquor enters their jurisdiction. After its delivery to the consignee, it comes under state or local authority, and Federal jurisdiction ceases.

The most sweeping provision of the criminal code, to which the attorney general calls attention, requires that every package containing intoxicating liquor of any sort, when shipped from one state into another state, shall be "so labeled on the outside cover as to plainly show the name of the consignee, the nature of its contents and the quantity contained therein," and any person who ships liquor from one state to another in violation of this section—that is, ships it in packages not marked as required shall, upon conviction, be subject to a fine of not more than \$5000, and liquor so shipped shall be forfeited to the United States.

Section 238 prohibits officers, agents or employees of railroad companies, express companies or other common carriers from delivering any package containing intoxicating liquor to any person other than the person to whom it has been consigned, except upon the written order in each instance of the bona fide consignee, and also prohibits the delivery of such packages to any fictitious person or to any person under a fictitious name. Violation of this section subjects the guilty party to a fine not exceeding \$5000 or imprisonment for not more than two years, or both. This section also applies only to liquor shipped from one state into another.

The third section, No. 239, provides that any railroad company, express company, or other common carrier, or any other person, who, in connection with the transportation of any intoxicating liquor from one state to another, shall collect the purchase price or any part thereof, before, on or after delivery, or shall in any manner act as the agent of the buyer or seller of any such liquor, for the purpose of buying or selling or completing the sale thereof, save only in the actual transportation and delivery of the same, shall be fined not more than \$5000.

### GROWING FEET COSTLY.

Weavers of Women's Stockings Must Put in New Machinery.

Washington, D. C.—Young women of Washington and New York have bigger feet than those of any other cities in the world. Department stores in Washington and New York are being greatly inconvenienced by the change that is taking place in the young women. It is said that these stores have asked stocking spinners in New England to add three larger sizes to their measurements, not only in the feet, but also in the calves. Stocking salesmen who have come to Washington lately contend that the young women here have abnormally large muscles in the lower parts of their limbs, due to athletic endeavors. It will cost manufacturers about \$300,000 for new forms for the spinners and knitters.

### Alaska Packers Do Well

Seward, Alaska—The salmon packing season is practically at a close now, and the canneries of the Cook's Inlet and Kenai peninsula have, with scarcely an exception, taken their guaranteed pack for the season. In this immediate vicinity the Alaska Packing company at Kasloff has the largest pack, amounting to 170,000 cases for the season. Alaska reds and pinks were plentiful, but at the close of the season there was an unusually large run of humpbacks, which were packed largely for the foreign trade.

### Cashier Newly Accused.

Abilene, Kan.—Eleven new charges have been filed against John A. Flack, former cashier of the Abilene State bank, recently arrested in New York charged in connection with shortage in the bank's funds, amounting to about \$70,000. The new charges are sworn to by the state bank examiner, and are similar. Each recites that Flack changed figures in the bank's books and in notes and certificates of deposit.

### Mayor Gaynor Sued for Libel.

New York—Mayor Gaynor was served with a summons in a \$100,000 libel suit brought against him by Alderman Curran, chairman of the aldermanic committee investigating graft in the police department. Curran alleges that the mayor made remarks derogatory to his character in connection with the investigation.

**Absent-Minded Professor.**

**Linger Long in Service.**  
Vital statistics ascribe short lives to printers, on the average, but the report of the public printer states that there are employed at present in the government office at Washington 250 persons over sixty-five years of age. The saying that among the government employes, "few die and none resign," seems the only explanation.

### Made His Demands Definite.

The "minimum wage" idea appeals to one English boy who was asked the other day by his teacher to write, as the daily composition, a letter to his father asking for an increase in pocket money. The boy set forth the need of large funds, and ended with a courteous demand for a "minimum sum of money." One of the reasons for the demand was that the boy did not get enough taffy to eat and had no papers to read.
