

# ISLAND COUNTY TIMES.

VOL. XXI. NO. 34

COUPEVILLE, WASHINGTON, FRIDAY, AUGUST 18, 1911.

WHOLE NO. 1124

## Steamer Calista Launched

The new steamer Calista, built by the Island Transportation Company to replace the steamer Whidby which was burned at Oak Harbor on May 9, was launched at Dockton, on Saturday afternoon at six o'clock. A crowd from Coupeville, Longley and Clinton went to Seattle on the Verona in the morning. At two o'clock they were joined by others at Seattle and taken to Dockton on the Camano, there being about one hundred altogether who went to the launching. The Camano arrived at Dockton a little after four, giving the invited guests a good chance to inspect the hull of the new boat before she was sent into the water.

We are not giving our own opinion alone but of every one present who saw the boat and that is: She is one of the best built and has one of the finest modeled hulls ever seen on a boat in Puget Sound. We wish that every Islander could see the solid construction of the hull and the material put in the new boat. It is all of the very best and the nicety of the construction shows that only workmen of ability were employed. The Calista is 130 feet long with a twenty-two foot beam. She will draw 6½ feet of water and has a tonnage of 190. The estimated speed is about seventeen miles an hour. A new 500 H. P. engine with two boilers will be put in her and it is thought that a speed of eighteen or nineteen miles an hour can be developed if wished. The passenger capacity will be about 250, with about 400 allowed on excursions. The estimated cost of the steamer is \$45,000.

The launching took place on schedule time without a hitch. Mrs. James D. Esary christening the handsome boat "Calista" and breaking the proverbial bottle of champagne over her bow as she started on the way to the water. She was lashed to the side of the Camano and towed to Seattle on the return trip where the machinery will be installed and the upper works finished. The Company generously furnished a colored band and on the return trip most of the guests enjoyed dancing on the deck of the Calista. Lunch was furnished free to all, and, outside of the beautiful scenery seen and to many a new part of Puget sound, it was made an occasion long to be remembered by all who participated in the generous hospitality of the Island Transportation Company.

In the building of the new steamboat the company have displayed an enterprise hardly to be expected so soon after their big loss of the Whidby and The Times is firmly of the belief that the citizens of Island county will take as much pride in the new boat as they did in the good Whidby, and show their appreciation of the Company's efforts by according them every bit of patronage they have to give. We shall have the privilege of patronizing one of the best built and finest looking passenger boats on Puget Sound. It costs lots of money to operate such a steamer and to retain her she will need the combined patronage of us all. Success and a long life to the Calista.

The boat is named in honor of Mrs. Calista Leach, of this city, the name being proposed by Mrs. Luther Weedin, J. J. Straub and L. E. Wahlberg in response to an offer of \$25 prize by the Company to the one who could send in a suitable name to be selected by the stock holders for the steamer. So far as we can learn the name is a very popular one and more so from the fact that Mrs. Leach is one of the early pioneers of the county and the mother of Captain Howard Lovejoy of the Island Transportation Company.

Miss Sadie Cook went to Everett Tuesday to visit friends.

Miss Mary and Mr. Gilbert Le Sourd, of Tacoma, spent the first of the week here on a visit to their uncle and aunt, Mr. and Mrs. F. A. Le Sourd.

Mrs. C. H. Pickens and her daughter Louise, of Vancouver, B. C., returned home Tuesday after a week here and on Smith's Prairie with former friends and neighbors.

Mr. and Mrs. Ben Tufts spent Tuesday and Wednesday in Everett visiting friends and, by way of diversion, seeing the big circus along with the rest of the boys and girls.

## Town Council Doings.

A special meeting of the town council was held Monday evening for the purpose of making the estimate of expenses for the coming year and to consider the advisability of putting in some street lamps. It was decided that the street lamps were needed and prices will be submitted and the question decided at the next meeting. The estimate for taxes, for next year's expenses was placed at \$800, to be divided as follows: For park purposes \$80, maintaining lights \$150, attorney's salary \$100, printing and stationery \$50, election expenses \$10, streets \$410. The estimated source of income besides taxes is: From dog tax \$50, shows and itinerant merchants \$50, pool room licence \$25.

The Mayor ordered the street committee to look after the opening of certain streets and estimate the cost of the work on same.

### Law Suit Over a Hog.

The court room at the court house was filled with a crowd on Thursday afternoon of last week, which went there to listen to a suit between W. W. Burt and Walter Aubert of Smiths Prairie over the possession of a hog. Mr. Burt had some pigs belonging to Mr. Aubert locked up, because they had come onto his place and did some damage. In return Mr. Aubert caught one of Mr. Burt's hogs and locked it up, sending him a written notice to come and get the animal and pay damages. Mr. Burt brought suit in replevin to regain possession of the hog and this was the case tried before Justice Craddock. A jury was empaneled which, after listening to the evidence decided that the hog belonged to Mr. Aubert. There is some talk of the case being appealed.

Of those drawn for the jury two were women, Mrs. James Gillespie and Mrs. Mary Hendricksen. Mrs. Gillespie secured a release but Mrs. Hendricksen decided to serve and enjoys the distinction of being the first woman to serve on a jury in Island county.

Miss Ada Herrett spent Saturday and Sunday with friends in Everett.

Mrs. A. J. Comstock spent from Saturday till Monday visiting friends in Seattle.

Miss Hattie Lerom, of Seattle, visited here for a week with her friend, Miss Elva Nuttall.

Mrs. William Hampton returned to her home at Snohomish Saturday after several days visit with her former neighbors.

Mr. and Mrs. E. Hess, of Bellingham are here visiting their brother-in-law, and wife, Mr. and Mrs. Ralph Moorman.

Mrs. M. L. English, of Fort Casey, accompanied her sister, Mrs. J. C. Beach, home to Lyden for a two week's visit on Saturday.

An 11½ pound son was born Saturday, August 12, to Mr. and Mrs. Ed Byrd, at the residence of Mr. and Mrs. Frank Vader.

Miss Helen Van Sant came up from Alki Point Monday and is spending the week here with her friend, Miss Edith Hancock.

Miss Henrietta English, the photographer, will be at the sample room of the Central hotel Saturday and attend to the wants of those wishing photos taken.

Born, July 30, at Elma, this state, to Mr. and Mrs. A. F. Gookins, an eight pound son. The mother was formerly Miss Alicenia Engle, superintendent of schools of Island county.

Miss Eva Lingenfelter, who has been here from Iowa visiting the Dean girls, went to Seattle Monday and on Tuesday Miss Lillian Dean and her brother Merle also went down. From there the young ladies will go to Altoona, Iowa, Miss Dean's former home and also the home of her friend.

Prof. G. B. Jones, of Cincinnati, Ohio, and Mr. L. W. Hammond of Everett, Wash., visited with Prof. and Mrs. T. R. McNally at the residence of Miss Clara Haughton on Eby's Prairie, Friday and Saturday of last week. Prof. Jones is making a tour of the west and came up from California. He is much impressed with the Puget sound country and especially with Whidby island.

## State Tax Assessment.

To decide whether or not the county is being accorded just treatment in the matter of state taxes the board of equalization at its meeting in the early part of September will hear the complaint of every county which feels that it is not getting justice in the matter of state taxes. It is the intention of the board to give every county in the state a fair hearing and if any county has been paying or thinks it has been paying more than it ought to in state taxes, the board will be glad to hear and determine the matter. The assessor of Island county, Ernest E. Gaskill, has been notified in a formal letter written by the state tax commission that the 6th day of September is the date set by the commission for him to present his figures to the board. A warning has also been sent by the state tax commission to every council of an incorporated town in Island county and to the county commissioners that if the law which requires that an estimate of all expenses for the ensuing year be made in advance of the fixing of the tax levy is not complied with that the taxing boards are liable to a fine of from \$100 to \$500. This law is to be put in effect from now on as the tax commission thing that every person should know how much money is spent and for what purpose it is spent.

### Cherries in Washington.

Under this title, the State Agricultural Experiment Station at Pullman has recently issued a bulletin (General Bulletin No. 92) which gives the results of twelve years' variety tests made in the orchard on the College Farm and of observations made in many orchards in different parts of the state. All varieties which have been studied are described in detail. Some new and very promising varieties which are specially adapted to Washington conditions are discussed. The method of propagation, cultivation, harvesting and marketing the crop which are best adapted to Northwest western conditions are also described. The bulletin is written by Professor W. S. Thornber, the Horticulturist of the Station, who recently resigned to engage in commercial orchard work. A copy of this bulletin may be obtained free of charge by writing to the Director of the Experiment Station, Pullman, Wash.

Mrs. Compton and daughter, of Snohomish, visited here last week for a few days with Mr. and Mrs. J. F. Gleason. The ladies were delighted with the scenery of this part of Puget Sound and expressed a wish that they would like to live here.

Mr. and Mrs. H. McConnaughy, of Portland, have been visiting the lady's parents here this week. Mr. and Mrs. Eddy, and her sister, Mrs. Roy Gillespie, Mr. McConnaughy is a newspaper man and is connected with the Portland Evening Telegram.

A good circus seems never to lose its attraction for people. The Times reporter went to the wharf Wednesday morning, thinking to get the names of fifteen or twenty who would go when, lo and behold! they came in such numbers that it was impossible to keep track of them. Mr. James Gillespie, who was there, counted 95 who passed over the gang plank and it looked as though there were as many more aboard the boat. Among the many younger children who went we noticed: J. W. Clapp, M. L. Strong, Mr. and Mrs. Fred Krueger, Mr. and Mrs. S. G. Farmer, A. B. Coates, J. Wanamaker and others.

The proper place to go to hear fish stories now is to the young gentlemen who, chaperoned by Rev. Hartly, spent a week and a half in the Olympics on a fishing excursion. Vernon Coates claims the championship, so far as size is concerned, he having caught a fine trout 20 inches in length. Rev. Hartly caught the largest number, having got 45 one day. And he says the boys eight them all! They had a great time and met with no mishaps or danger, but once, and that was when Frank Morrill and George Todd wounded a sand piper and were in danger of their lives for a while from the fierce attacks of the infuriated animal. They were finally rescued by the bravery of Glenn Sabine and Everett Jenne.

## The W. C. T. U. Convention

The Women's Christian Temperance Union convention held in the W. C. T. U. hall on Tuesday and Wednesday of this week, was one of the most successful ever held in Island county. The attendance was good considering that so many were out of town and the work accomplished will be productive of much benefit. "Even though we have local option and woman suffrage the W. C. T. U. still finds much work for them to do."

Mrs. M. B. Platt, state president, and Mrs. Margaret Nunn, state secretary met with the convention and were enthusiastic and helpful workers. Mrs. S. L. Clark and Mrs. Kingsley were present from "Island Union," Clinton, and the Oak Harbor Union was well represented there being six members present, one honorary and two visiting.

The following officers were re-elected: Mary F. Le Sourd, president; Ada Mackie, recording secretary; Henrietta Frostad, treasurer; Daphne E. Merrill, corresponding secretary, and Rosetta Warring, vice-president.

Special interest was taken in the subject, Anti-narcotics, and it is hoped that every man using tobacco will in the future abstain for the benefit which it will be to our growing boys. The reports of the committees on Legislation, L. T. L., Lumberman, Medal Contests, Mother's Meeting's Parliamentary Usages and The Press were received and acted upon. An entire family were present at the convention who are life members of the White Ribbon. They are Mr. and Mrs. F. Izett and children and they were photographed. The talk given by Mr. Izett was interesting and helpful. The paper by Mrs. Nunn, "The Women of the State of Washington; their Opportunities" was a splendid argument and a forceful presentation of the many opportunities which are open to the women of Washington to aid in the moral uplifting of her people. Every mother of Island county should have heard this paper.

A lecture bureau for the W. C. T. U. of this county was established and the funds necessary for the same were partly raised. In the future, as in the past, the watchword of the W. C. T. U. will be: "For God and Home and Native Land."

### RESOLUTIONS

Resolved—I That we pledge continued allegiance to the principles of the W. C. T. U. and will do our utmost to increase membership and build up our organization throughout Island county.

II That we will use our best endeavors to further the work of Scientific Temperance Instruction and the education of all our people against the use of tobacco, opium and other poisons and we will appeal to our teachers and pastors to aid us in this work to the full extent of their ability.

III We urge our members to wear the white ribbon at all times; to attend our meetings as regularly as we can; to follow our state plan of work as far as possible; to uphold our officers and superintendents in their work and by all means at our command to support our state organization in every effort made to bring about state wide prohibition.

Wilford Hartley, of Tacoma, is here visiting his uncle and aunt, Rev. and Mrs. Robert Hartley.

Mr. and Mrs. W. T. Pillman, of Everett and their daughter and husband, Mr. and Mrs. W. E. Townsend, of Seattle, spent yesterday here while Mr. Pillman was looking after his interests in the clothing store.

Miss Rose Langley, of Lincoln, Nebraska, is spending the week here the guest of Mr. and Mrs. W. T. Howard. Miss Langley is an old acquaintance and warm friend, having been a pupil of the editor's in his pedagogic days. She is a teacher herself now and taught the last year near Kennick, this state, and the coming year has a position in the Spokane city schools.

Those from the Island who attended the launching of the steamer Calista, so far as the reporter could learn, were: Mr. and Mrs. J. J. Straub, Mr. L. E. Wahlberg, Mr. and Mrs. E. O. Lovejoy, Mr. and Mrs. W. T. Howard, Mrs. A. D. Claxton, Mr. and Mrs. Luther Weedin and Mrs. Chas. Sweet from Coupeville, Postmaster and Mrs. Ed Howard of Langley and Postmaster and Mrs. O. L. Nelson of Clinton.

Few realize that right at their very door is located a medical and surgical sanitarium, planned and conducted on the same principles as those which made the great Battle Creek, Michigan, sanitarium famous. It is true, however, that at Port Townsend, just a little south of the city, is located the North Western Sanitarium. It is beautifully located on an elevation overlooking Port Townsend Bay. The building, a five-story structure, considered critical and dangerous, was held in readiness to go to London.

We are giving good bargains in clothing, shoes, ladies' and gent's furnishings. Buy at home and save money. Everett and Seattle prices. Pillman & Brown 32-3t.

### REAL ESTATE TRANSFERS.

Q. C. D.—H. W. Libbey and wife to John T. Wilkins, lots 1 and 2 blk. 38, town of Coupeville; \$50.

Mortgage—Mary E. Mumaw and husband to Andrew Anderson, 5 acres of sw of sw of 34-30-3 east; \$800.

ISLAND COUNTY TIMES,  
COUPEVILLE, WASH.

The following paragraph appears this week in the report of the doings of the board of county commissioners:

The honorable board of county commissioners, deeming it advisable that a 60 foot main trunk highway be established from Deception pass to Skagit head and from Elger's bay to Davie's slough, do hereby authorize the county engineer to make an examination and report on same.

In the opinion of this paper the members of the board never took a more important step in the history of Island county than this. It may prove the opening wedge of movement which will result in ing us a main line of road from end of both Whidby and Camano islands to the other, and that is what The Times has long contended must be done before people can have good roads and Island county enjoy that era of development which is sure to come with such a movement. The members of the board, H. O. H. Becker, Ed Power and W. F. Beachum, are to be congratulated on their progressiveness in ordering a survey. There is not a person in Island county who can produce a single bit of solid argument against such a proposition while there is everything to be said in its favor and we believe that nine tenths of the voters are in favor of building such a road. We shall await, with interest, the report of the engineer.

A writer in an exchange which comes to our desk says that there is a "coming boom on the coast." Everything tends to show the truthfulness of the assertion. The people of the who'e great Middle West are just beginning to appreciate the possibilities that are to be found in the wonderful resources of the coast states. This with the advantages of climate and great commercial development sure to follow the opening of the Panama canal is destined to make the Pacific coast, and especially Washington, the Mecca for hundreds of thousands who are seeking new homes. If you wish to benefit by this coming boom, young man, buy yourself some land.

Rutledge Rutherford, editor of the National Food Magazine of Chicago has printed a list of deaths and sickness traced directly to the eating of adulterated food within a year. The list totals 1120 deaths and 26,582 cases of illness. But this serves only as a foundation on which to base an estimate of an actual number of casualties not reported and superinduced by a weakening of the system. He estimates the total of children alone killed in this country in a year as 250,000 and he believes that a third of the cases of sickness of adults could be traced to the same cause, and that the total of deaths would reach half a million.

At a meeting of the commercial club some time ago the subject of holding a county fair was discussed and a committee to draft articles of incorporation for a fair association was appointed. It was afterwards thought to be rather late in the season to start a fair and the matter was dropped. The idea should not be given up, however. Let us take hold this winter and get things in shape so that we can have fair next fall. It will prove a big thing for the whole county and a splendid advertisement of its products.

It is not long since the Democrats were laughing at the supposed split in the Republican party. At present many of the so-called insurgent Republicans are

climbing into the Taft band wagon while it looks as though there was a row brewing among the aspirants for the Democratic presidential nomination that bids fair to rival the quarrell of the famous Kilkenny cats. As usual Billy Bryan is responsible for considerable of the commotion in the Democratic soup bowl and the fun will be good to

Commissioners met in adjourned session this 10th day of August 1911. Those present H. O. H. Becker (Chairman), W. F. Beachum and Edgar Power with H. T. Wanamaker, Clerk of Board. The following bills were allowed on current expense fund:—

W. H. Otto, care of John Mackie ..... \$6.00  
Horace Holbrook, launch hire. 24.00  
Ernest Gaskill, incidental exp. 21.30

Minor Happenings  
of the Week

An order has been issued by the navy department placing Rear Admiral Seaton Schroeder on the retired list August 17.

Prince Su declared that opium smoking in China will be prohibited after January next. Thereafter persons found smoking opium will be arrested.

Eight years in congress and no money or bank account was the statement made by Representative Daniel J. Riordan of the Eighth New York district when testifying in legal proceedings.

Trial races to select three motor boats to represent the United States in the competition with an English trio for the British international trophy will be held this week at Huntington, R. I.

Known imports of diamonds and precious stones at the port of New York for July exceeded those of a year ago by over \$1,000,000, according to statistics compiled by Appraised Francis A. Bird.

A check for \$42,395 has been received by the department of justice from the Standard Oil Company in payment of costs in the dissolution suit brought by the government under the Sherman anti-trust law.

VETO BILL PASSES LORDS  
BY SMALL MAJORITY.

London, Aug. 12.—Amid a scene of emotional excitement entirely unexampled in its history, the house of lords passed the veto bill tonight by 131 votes to 114. The government was saved from defeat by the accession of twelve bishops and about the same number of Unionist peers.

Debate was carried on throughout the evening in intense suspense and uncertainty, as every hour brought forth fresh estimates of the respective strength of both sides, but the general tendency of the feeling was that the insurgents were winning.

Fervid Appeals Are Made.  
Fervid appeals were made by Lord Rosebery and Lord Curzon to the insurgents to hold their heads, but Lords Salisbury, Selbourne and several others answered with defiance, though told their victory would mean Lansdowne's resignation of the leadership.

The truth is that the insurgents felt absolutely confident of winning and were utterly surprised and crestfallen when the figures were announced. They intend to maintain their organization for self-defense and still have hopes of capturing the machine from Balfour and Lansdowne as exponents of the progressive Tory policy.

USE SEINES TO CLEAR  
SPOKANE LAKES OF CARP.

Spokane, Wash., Aug. 12.—Fishing with a seine 5,400 feet in length and 30 feet in width, operated by a powerful windlass, is the work in which employes of Bartholomew Brothers, of St. Louis, Mo., will engage the middle of this month, in an effort to clear the lakes in Spokane county of carp. The fish will be sent to St. Louis, Kansas City, Chicago, and other Eastern points in refrigerator cars. It is estimated that the total shipments will amount to more than 50 cars. Trout, bass and other game fish caught in the draws will be put back into the water, according to an agreement with the firm and J. A. Uhlig, fish and game warden of the county. The seine fishermen will be accompanied by a state officer, who will see that the game fish are protected. Warden Uhlig says that carp weighing up to 30 pounds have been caught on vegetable and fish bait in the vicinity of Spokane this summer. It is estimated that the carp have destroyed billions of trout eggs during the last few years.

FIRST CONTRACT LET ON  
NEW HUDSON BAY ROAD.

Ottawa, Aug. 11.—A contract to build the first section of the Hudson Bay railroad, Canada's newest route to tide water, was made by the government yesterday. The section called for is eighteen miles long, extending from the Pas, the present rail head, to the thickest portage. The cost of construction will be about \$3,000,000. Work will start at once.

Seals Not Needed.  
Olympia, Friday, Aug. 14.—County assessors acting as clerks of boards of equalization need not procure seals to attest orders and citations of that board, according to an official ruling made by the tax commission in a letter to the assessor of Yakima county.

Washington State  
News Items

Prisoners in the Chehalis county jail have been put to work cutting the brush and weeds on the road between Hoquiam and Montesano.

The old Minemie mill at Montesano will be used for the purpose of storing lumber.

Grays harbor during July this year are less than those of July, 1910, yet the record for the last three months exceeds the record for the corresponding months in 1910 by more than 5,400,000 feet.

Construction has been commenced on the electric railway which will connect Raymond and South Bend. Men were put to work clearing the right-of-way this week by Sanderson & Porter, who have the contract to build the line. A steam shovel is on the way and dirt will be flying within ten days.

When a company agrees to give a property holder water in return for an easement over the land for the ditch, the contract must be fulfilled and cannot be voided at the whim of the company, says the supreme court today, in affirming the Okanogan superior court in the case of the Methow Cattle Company against W. E. Williams and wife.

SECRETARY FISHER  
ON WAY TO ALASKA.

Seattle, July 15.—Declaring that he favored the development not only of the coal mines of Alaska, but of all the natural resources of the country along the right lines, Walter L. Fisher, secretary of the interior, discussed the reasons of his trip to Alaska in an interview with a Post-Intelligencer reporter at the Washington hotel yesterday.

"To permit me to pass intelligently upon Alaskan questions which will come up to me for action soon," said Mr. Fisher, "I am going to Alaska to secure a physical knowledge of the country. Owing to the fact that my start was delayed three weeks, I will be unable to make an extended trip into the interior as I had desired.

To Examine Transportation Problem  
"I intend, however, to go over the lines of the Copper River & Northwestern railroad and the Alaska Northern railway and secure first-hand information on the railroad transportation problem, which is the most important."

The secretary declares he wants to talk to the people in Alaska and ascertain their state of mind as well as get first-hand information from a visit to the territory.

His first stop will be made at Kattalla, where he will be met by the revenue cutter Tahoma and taken around Controller bay. It is his intention to visit the Bering river coal fields, around which the coal controversy regarding the Cunningham claims and others have revolved.

Several experts, including Dr. Joseph A. Holmes, director of the United States Bureau of Mines, are with Secretary Fisher.

GOVERNOR TO VISIT  
SOUTHWEST CITIES.

Olympia, Aug. 14.—Governor Hay will leave Olympia Wednesday for a trip in the southwestern part of the state. He plans to be absent for ten days.

One of the features will be a visit to the Lyle road along the Columbia River, which he will inspect. The following itinerary has been arranged:

August 16, morning, Lyle; evening, White Salmon; August 17, Stevenson; August 18, Vancouver; August 19, morning, Clarke County; evening, Woodland; August 21, Kalama; August 22, Kelso and Castle Rock; August 23, Astoria; August 24, Ilwaco and Long Beach; August 25 and 26, South Bend and Raymond.

## To Re-Seed Idaho Forests.

Spokane, Wash., Aug. 14.—More than 100 men will be sent into the Coeur d'Alene national forest next fall to gather fir and pine cones, to be used in reseeded the timber districts in Northern Idaho, burned over by fires a year ago. The United States forestry department will make an effort to gather 20,000 pounds of seeds, which are to be planted during the spring and summer of 1912.

Breaking Ground at San Diego  
For Panama-California Exposition

Reading from Left to Right—With hand upraised, Acting Director-General Joseph W. Sefton, Jr.; G. A. Davidson, father of the exposition idea; Governor Sloan of Arizona; Percival E. Woods, Acting Mayor of San Diego; Hon. John Barrett, turning first sod; Senator Lee C. Gates, representing Governor Johnson of California; Pres. C. C. Moore, Panama-Pacific Exposition, San Francisco, 1915; Vice-President John D. Spreckels, Panama-California Exposition.

San Diego, Cal., Aug. 12.—One of the most important events of the summer on the Pacific Coast was the visit of John Barrett, personal representative of President Taft to San Diego, where he turned the first spadeful of earth for the Panama-California Exposition, July 19.

In Balboa Park, where the exposition is to be built, a special stand had been erected. Flags of all the nations of Central and South American, of the United States, and the President's flag were released by President Taft himself, who pressed a key in the White House at Washington at 7 o'clock Washington time, four o'clock San Diego time.

As the buzzer on the stand at Balboa park began to sound, Mr. Barrett suspended his address, and in company with governors and representatives of governors of Pacific Coast states, he took from Acting Director General, Joseph W. Sefton, a silver spade and thrusting it into the ground turned over a spadeful of earth. Others followed in order of their official precedence.

The ceremony began a four-day celebration that terminated in the great Mission Pageant Saturday, July 22, when for the first time in history all the missions of California were shown in one grand picture, the most elaborate and beautiful ever seen on the Pacific Coast.

The celebration was an earnest of what the Panama-California Exposition is to be, its projectors intending to make it the most elaborate and beautiful exposition that has ever been built. It will make an especial appeal to the countries of Latin America and to the great Pacific Coast and the Southwestern portion of the United States.

Active construction work on the first building, the administration building, to be a permanent affair, will begin in a few days, the grading and excavation being already started and the material being assembled. The managers expect to occupy the building by the first of January, 1912.

MR. ROOSEVELT DISCUSSES SOME  
PHASES OF ALASKA DEVELOPMENT

New York, Aug. 14.—Ex-President Roosevelt has an article entitled "Alaska Again", in the current number of the Outlook. After taking issue with the newspaper statement that during the Roosevelt administration the same course had been pursued as had been pursued later in connection with Controller Bay, Mr. Roosevelt discusses some of the general phases of Alaskan development and adds:

"The government must itself control the development of Alaska and adopt as the guiding principle the idea of shaping that development in the interest primarily of the people as a whole, the syndicate or other developing agencies thus receiving benefit only as an incident to conferring it.

Thinks Task Not Difficult.  
"I do not think the task is a very difficult one if only we, the people, personally and through our representatives, approach it with this purpose clearly in mind, and if we insist that the agents of the government act with an understanding of the needs of the people and a resolute purpose to see those needs accomplished, even though it be necessary to override the representatives of the great interests who wish to prevent Alaskan development unless it is shaped primarily to benefit those interests."

Mr. Roosevelt begins his article with a reference to an article from the Washington correspondent of the New York Tribune of July 28, justifying the withdrawal of the Controller Bay lands from the forest reserves on the ground that similar action had been taken by Mr. Garfield and Mr. Pinchot in eliminating certain areas at Eyak and Valdez Arm from the forest reserves. Mr. Roosevelt continues:

## Assumes the Responsibility.

"The article assumed that I was reversed by the Messrs. Garfield and Pinchot. It is hardly necessary to say that any such assumption may be made either with intent to be humorous or with a full knowledge of its falsehood. I was in a peculiar sense responsible for every act of Mr. Pinchot and Mr. Garfield when they held office under me. They represented to a very special degree the policies and principles which I had especially at heart, and while of course there were necessarily many actions I took on their recommendations, with the details of which it was impossible for me to be acquainted, I was absolutely and entirely cognizant of the principles in accordance with which each one of

these acts was taken and each act faithfully represented the putting into effect of the principles in which I believed and which I laid down for the guidance of my administration.

## Necessary to Eliminate.

"In every part of the country in which there are forest reserves it has been found, and will in future be found, necessary to make eliminations for townsites, for agricultural purposes, for manufacturing purposes and the like. Each such case depends on its own merits; each such case depends for its justification upon the conditions existing at the time it is made and is in no sense a precedent for any other case, arising under new conditions or when facts hitherto undiscovered have been made known.

"It may not be only proper to eliminate a given tract of land, but highly improper not to eliminate it, and yet, if the elimination of another tract of land will give monopoly to a mining company, or a transportation company, or any other company, it may be to the last degree improper.

## Refers to Cunningham Claims.

"At the time of the elimination at Eyak and Valdez Arm no suggestion had been made to me from any source, nor was there any public knowledge that there was the slightest danger of the Guggenheim syndicate, or any other syndicate, obtaining control of Alaska, as the developments during the last three years have shown to be the case, and as has been a matter of public notoriety for at least two years.

"Months after the dates of these eliminations Cunningham made affidavit that he knew of no entrymen in the Cunningham group that had any contract with the Guggenheim syndicate; the eliminations being made in July and September, 1907, and the Cunningham affidavit in September, 1908. When the eliminations were made there was not a vestige of evidence to show that we should be on our guard to prevent such a monopoly as he now evidently threatened.

## Guggenheims Will Get Road, He Says.

"Incidentally, against the assertion of Mr. Ryan that he has no interest whatever in the Guggenheim syndicate, let me point out the explicit character of the Cunningham affidavit that the Guggenheims had no interest in their claims; and in any event, our entire past industrial history gives us warrant for saying that, if the Ryan road is built as planned, it will be but a matter of time and

probably a very, very short time before Ryan's road and the Guggenheim interests are merged into one.

"The state of affairs brought to light during the administration of Mr. Ballinger showed conclusively and for the first time that we had to guard against monopoly in connection with the development of Alaska, or to speak more properly, the exploitation of Alaska by a great syndicate for the sole benefit of that syndicate.

## Urges Amendment of Laws.

"In the Eastern states we have suffered from the fact that the ownership of the coal and the ownership of the railways have been permitted to fall into the same hands. What havoc such a combination can work was shown when, during the anthracite strike, the people of a large section of the country were threatened with a winter coal famine, which would have caused disaster as great as those of the civil war. The effort to remedy this state of affairs by government action, after it had been permitted to arise because of government inaction, was necessarily fraught with hardship and suffering for many innocent holders of securities. It is, to my mind, the duty of the United States government to prevent a similar condition arising in Alaska.

## Would Have U. S. Build Road.

"I do not believe in the policy of state-owned railroads as a general thing; but I am quite willing to see the Panama railroad owned and run by the government, as it actually is, and in the same way, if difficulty occurs in connection with what has been done in Controller Bay, I feel that it would be a good thing for the United States to build and operate the short line railway with its terminals, which would connect the bay with the coal fields. Then with the coal fields given over to private developers on a leasehold system, as simple as possible, and on such terms as to guarantee an ample profit to those engaged in the work of development, the trouble in connection with the Alaska coal fields would vanish.

"I have said already that the resources of Alaska must be developed. I advocate, with all my heart, the conditions of development being made such as to give ample return to those willing to undertake the work, and, as there is an element of hazard in the work, I would prefer to see the government err, if at all, on the side of liberality in making these conditions. A bill in principle such as, or at least on the general lines of that introduced by Mr. Robinson, of Arkansas, ought to become law."

## Ships That Cross the Bar.

As a general thing the kind of man who is always waiting for his ship to come in is willing for you to buy him a schooner of beer.—Galveston News.

GERMANY IS NEXT ON  
TREATY LIST

SAID TO NOW BE WILLING TO  
NEGOTIATE ARBITRATION  
AGREEMENT.

State Department Has Received Reply Said to Be Favorable to Principles Laid Down by Secretary Knox—Ratification of British and French Treaties Not to Be Urged.

Washington, Aug. 15.—The reply of Germany to the proposition for a general arbitration treaty with the United States has been presented to the state department by Count Von Bernstorff, the German ambassador. It is understood to be distinctly favorable to the principles laid down by Secretary Knox, and to preface the negotiation of a treaty with Germany similar to the pending conventions with Great Britain and France, provided the United States senate does not drastically amend those agreements.

## Moot Question Settled.

All previous efforts to negotiate an arbitration treaty with Germany have failed because of the necessity to refer the question of arbitration to the senate in each case in controversy. It was contended that a treaty would bind Germany absolutely to arbitration, while the United States was bound only on condition of the senate's approval.

It is understood that Germany's objection on this score will be met with a clause in the proposed treaty, providing that disputes shall be arbitrated under the special agreements in each case and the special agreements shall be binding only when confirmed by the two governments by an exchange of notes. This will give the German emperor, as well as the senate, an opportunity to ratify the special agreements.

The senate's threat to modify the pending treaties with Great Britain and France found an echo in the house yesterday when Representative Bartholdt, of Missouri, made a plea for international peace, denouncing the upper body's opposition to the convention. He said the "big stick philosopher of Oyster bay" wanted to leave the doors open for war.

President Taft has about decided not to press the senate to ratify the arbitration treaties at the special session of congress. After his return from Beverly the president learned that an attempt to have the senate act favorably on the pacts at this time might result in long debate and finally they might be agreed to only in modified form.

BRITISH RAILWAY MEN OUT  
TO ENFORCE DEMANDS

Liverpool, Aug. 15.—The strike committee at midnight declared a general strike of all transport workers, including the railway men, who, up to the last, had refused to go out. The strike will be in effect on all the local steamships and the Mersey ferries.

Seven thousand dockers struck last night at Birkenhead. During the day the lock-out threatened by the ship owners became effective and 30,000 men were refused employment until they decide to abide by the terms of a recent agreement.

According to the strike leaders 20,000 men of all classes are out in Liverpool and 25,000 in Birkenhead and the surrounding cities.

## Companies to Resist.

London, England, Aug. 15.—At a meeting yesterday of managers of all railroads having terminals in London, it was decided that the time had arrived to resist the men's encroachments. The managers contended that the men, by striking, will violate the agreement arrived at after the railway troubles of 1907, under which all disputes were to be referred to conciliation boards or to arbitrators.

This agreement, they say, was to run until 1914.

Yesterday's meeting was unanimous that the only way to terminate constant dislocation of business would be to take a firm stand and refuse all concessions to the men. One manager, in an interview, expressed the fear that there will be grave troubles on all railway systems before the week is ended.

BIG TIMBER DEAL IN  
OREGON IS UNDER WAY.

Eugene, Ore., Aug. 14.—One of the largest timber land deals in this state was partly consummated here recently by the transfer of record of timber lands on the Siuslaw River, containing about 800,000,000 feet of timber, to the Wendling-Johnson Lumber Company, of San Francisco. A further option has been secured on 500,000,000 additional feet. The total consideration is to be \$1,300,000, of which payment of \$655,000 was made Friday. The timber lies along the route of the proposed Eugene-Coos bay branch of the Southern Pacific company.

You are hereby notified that the County Commissioners of Island County will meet at the Court House in Coupeville, for the purpose of levying said tax, when and where any tax payer in said county will be heard in favor of, or against any proposed tax levy.

I hereby certify that the above estimate is a true and correct estimate of the expenses of Island county for the ensuing year, as given to me by the County Commissioners.

Witness my hand and official seal this 11th day of August, 1911.

H. T. Wadmaker,

Clerk Board of County Commissioners.

IN THE SUPERIOR COURT OF THE State of Washington, for Island County.

NOTICE OF SHERIFF'S SALE OF REAL ESTATE.

Under General Execution.

Case No. 941

Charles R. Crouch, Plaintiff

vs.

Thomas G. Mortland and Sam G. Mortland Defendants.

Under and by virtue of a general execution issued out of and under the seal of the Superior Court of the State of Washington, in and for said County, on the 8th day of August, 1911, upon a judgment rendered in said Court, on the 19th day of May, 1911, in favor of Charles R. Crouch and against Thomas G. Mortland and Sam G. Mortland, judgment debtors, for the sum of two hundred twenty-six and 40/100 Dollars, together with attorney's fees, interest, costs and increased costs, and to me directed and delivered, I did on the 9th day of August, 1911, levy upon all the right, title and interest of said judgment debtors in and to the following described property to satisfy said judgment, to-wit:

South west one-fourth (S. W. 1/4) of the North east one-fourth (N. E. 1/4) of section twenty-three (23) township twenty-nine (29) North range three (3) East W. M. situated in Island County, Washington.

Now Therefore, Notice is hereby Given, That on Saturday the 9th day of September, 1911, at 10 o'clock in the forenoon of said day, I will sell the above described property, or so much thereof as may be necessary to satisfy said judgment, together with attorney's fees, interest, costs and increased costs, in all amounting to the sum of two hundred fifty-five and 65/100 Dollars.

Said sale will take place at the front door of the Court House at Coupeville, in said County and State, and will be at public auction, for cash in hand to the highest and best bidder.

Dated at Coupeville, Wash., this 9th day of August, 1911.

Jack Rosenfield,

Sheriff of said County.

CURRENT EXPENSE WARRANT CALL.

All outstanding Current Expense warrants up to and including No. 3721 will be paid on presentation and no interest allowed after this date, August 11, 1911.

Roy H. Gillespie

County Treasurer.

### CLOTH IN THE MAKING.

The Way the Uncouth Product of the Loom is Finished.

Every woven fabric is made by crossing or interlacing two distinct series of threads together. When the yarn comes from the spinner it is mounted upon the loom in spools, writes Rupert Bowers in Harper's Weekly. So wonderfully automatic are these modern looms that when a bobbin is emptied it is forced out and a full spool is put in its place without stopping the loom. There are all classes of looms for all classes of material, from the thinnest fabrics up to the thickest felts. To attempt to describe one of them or the principles on which they are constructed would involve the reader in a wilderness of technicalities. The power loom is one of the most remarkable and complex of mechanical products, the growth of many years of experience and ingenuity and the crystallization of the inventive genius of many minds.

The cloth in the shop window resembles the cloth as it comes from the loom so remotely that there would seem to be no relationship between them. The first product of the loom is usually uncouth, harsh and anything but inviting in appearance. It has to pass through many processes before it is finished and made ready for the market. It is first mended so as to correct weaving faults as far as possible. Then it is scoured and thoroughly cleansed. Again it is looked over and mended before it passes to the fulling or milling machine which, with soap and fuller's earth, produces the finish that is required. Then it is scoured again.

Tentering is the next process. This sets the cloth at a satisfactory width and straightens it for the operations that follow, the first of which is called raising. The millions of tiny hooks on the gilling machine raise up the fibers on the surface of the cloth and leave them in an upright position. The pile or nap is the result. This produces a remarkable change in the appearance and condition of the fabric. Shearing is the next thing. This cuts off all the raised fibers, leaving them of a uniform length. The required gloss and solidity are obtained by the pressing which follows.

### A JOLLY TIME AT HOME.

Advice to the Man Whose Wife is Away on a Vacation.

During any time when your wife is on an extended visit with her relatives you can save money from your board allowance by keeping house for yourself. You may find the following suggestions helpful:

If you forget to order ice you can render the butter serviceable in the following manner: Take a cut glass finger bowl and fill it with cool water. Scrape the butter into the finger bowl. When ready to spread your bread extract your butter in quantities as needed with the cucumber lifter. That's that! That silver spoon with holes in it.

If you smell smoke you will doubtless find the lamp is smoking and the room is covered with soot. First turn the wick down to save oil, then get a damp cloth and go over everything carefully, rinsing out the cloth from time to time. When cleaning the walls use only a downward motion, so that the streaks will all run vertically.

Not having your wife's social charm, you will doubtless be given rough steak by your butcher. One way to make steak tender is to run it repeatedly through the sewing machine. Use a coarse needle, but no thread. The bobbin trough will catch the juice, which can be used later for gravy. If you take out the bobbin first you will have more room for the juice.—Walter A. Dyer in Delineator.

### A Washless Washboard.

"Women haven't the artistic temperament," complained the orchestra musician to the Cleveland Plain Dealer. "That's why I am unmarried. Oh, yes, I was married once. I thought to acquire a woman who could take care of my home, make a little domestic place of refuge for me and all that, but the dream soon fled."

"A few days after I was married my bride came to me and said: 'Dear, that new washboard you got for me is no good at all. I can't wash your socks on it!'

"Washboard!" says I. 'Why, I never bought you a washboard.' But she led me out into the kitchen and showed me what she'd been scrubbing away on all the morning. Great heavens! It was my new xylophone."

### Rebuking an Emperor.

Once, so the story goes, Emperor Nicholas of Russia asked Liszt to play in his presence. The musician complied, but during the performance the czar started a conversation with an aid-de-camp. Liszt stopped playing at once. The czar asked what was the matter. "When the emperor speaks," said Liszt, "every one must be silent." The czar smilingly took the hint, and the playing proceeded.

### Didn't Have To.

"Did you hear the rain in the night?"

"Yes."

"Pleasant music, wasn't it?"

"I didn't notice the music. I was too busy bustling around closing the windows. Didn't it keep you busy too?"

"Oh, no! We rent a furnished house, you know."—Cleveland Plain Dealer.

### Her Concession.

"How do you know she's older than you are?"

"Why, she admitted it herself."

"Honestly? What did she say?"

"She said, 'You and I are just the same age, dearie.'"—Toledo Blade.

## NORTH-WESTERN SANITARIUM

Port Townsend, Wash.

Few realize that right at their very door is located a medical and surgical sanitarium, planned and conducted on the same principles as those which made the great Battle Creek, Michigan, sanitarium famous. It is true, however, that at Port Townsend, just a little south of the city, is located the North-Western Sanitarium. It is beautifully located on an elevation overlooking Port Townsend Bay. The building, a five-story structure, containing one hundred fifty rooms, is so arranged as to be well adapted for a sanitarium.

The institution possesses the best features of a first class hotel and all the medical advantages of a modern, scientifically equipped hospital and sanitarium. The means used comprise all of Nature's powerful remedies; complete bath rooms, where all forms of baths are given, including electric, electric light and vapor baths; massage-manual, Swedish, etc. These treatments, together with gymnastic exercises special dietary, and such natural remedies as pure air and water, sunshine, walking, riding, mountain climbing, sea bathing, swimming, outdoor exercise, and rest, comprise the system of treatment.

A complete and modernly equipped surgery for the care of surgical cases; complete laboratories for special examinations, a fully equipped electrical department, including the X-ray, static, faradic, galvanic and sinusoidal electricity. Maternity wards and a limited number of rooms for old people who wish a comfortable home. Rates are moderate and according to room occupied. Particulars made known on inquiry. Carriages will meet all patients when notified of time of arrival. Address,

North-Western Sanitarium

## COUNTY CORRESPONDENCE.

### Oak Harbor News

Secure a lightning picture at the  
drug store.

Architect Rottschaefer was a Se-  
attle visitor the first of the week re-  
turning Tuesday.

FOR SALE—A 1300 lb. horse  
driving and work horse very cheap.  
J. M. Bos. 33 St.

A large crowd went to Everett  
Wednesday to visit the circus and  
enjoy the day.

The residence of Mr. B. Loers  
is nearing completion and will be  
known as one of the very finest in  
this county.

John and Henry Muyskens left  
this week for Grand Rapids, Michi-  
gan, where they will attend school  
for the ensuing term.

L. W. Smith has plans for a new  
bungalow for the center of town.  
It will be neat and attractive in ap-  
pearance when complete.

All persons knowing themselves  
to be indebted to firm of Strating &  
Zylstra. Please call at the Farm-  
er's Trading Co. and settle.

FOR SALE—One horse 1000 lbs  
two seated spring wagon and single  
work harness, hand made.  
Henry Muyskens. 34-2t.

Work has commenced on the  
new school building in earnest and  
every effort will be made to have it  
completed as soon as possible.

Maylor Bros. store is finished  
now and with a new coat of paint  
looks up in a prominent way at  
the west center of Oak Oak Har-  
bor.

Mr. Pillman, the clothing man  
was in town Saturday looking after  
his interests here. He seems pleas-  
ed at the change in his location  
near the bank.

Some 80 left on the Verona Wed-  
nesday morning for Everett to see  
the Ringling circus. Those that  
went all seem satisfied and arrived  
home in good season.

Miss Clare Nichols and Miss  
Birdie Thomas, of Mt. Vernon,  
have been spending a few days of  
recreation here, returning to their  
respective homes Tuesday.

Mr. Olson has built a neat addi-  
tion to his blacksmith shop and  
will be in readiness to handle his  
work to a better advantage. He  
expects to keep a horseshoer in the  
future.

Buy at home and save money.  
We carry a nice line of Men's and  
Boy's suits, shoes, and gent's fur-  
nishings. Our stock is good and  
clean and low prices. W. T. Pill-  
man & Co. 32 St.

Mr. and Mrs. Hodges, of Everett,  
purchased 40 acres of land through  
Mr. W. R. Parker on last Friday  
which lies near Oak Harbor. Mr.  
Hodges returned to Everett with a  
bundle of wheat over seven feet tall.

Jake Defreese, who left here  
some 8 years ago with his family  
for Alberta, Canada, spent last week  
here looking for some future loca-  
tion for a home where it is not so  
cold as in the northern country.

The thunder and lightning storm  
on Thursday evening of last week  
was witnessed by young and old.  
Such magnetic shocks of lightning  
have never been seen even by  
the pioneer settlers of this section.  
While many were frightened those  
who are used to the Eastern States  
were satisfied.

The old Indian gentleman, Tom  
Martin as he is called but better  
known as "Oak Harbor's mayor,"  
died some time ago on the La Con-  
ner reservation where he was spend-  
ing a few weeks with friends. Oak  
Harbor loses its oldest resident.  
He not knowing his exact age is be-  
lieved by those who know him to  
be more than 100 years of age.

### San de Fuca Notes.

Miss Nellie Boyd, of Bellingham,  
is visiting Miss Anna Grasser.

Fred Armstrong opened the  
threshing season here Thursday by  
threshing for John Armstrong.

Mr. and Mrs. Frank Riepma  
with their children spent a few  
days in Everett and Seattle last  
week.

Among the visitors to Everett  
Wednesday were: Mr. and Mrs. S.  
Benson and children, Mr. and Mrs.  
Elwell Libbey, Mrs. W. Thompson,  
Hazel Myers, Niel Pillar, Mrs.  
Fisher, Edward Eisher, Mrs. C.  
Mitchell, Jacob and Jennie Riep-  
ma, Mrs. Fred Armstrong and son,  
and Winnie and Ida Johnston.

### Austin Anecdotes.

The Porter Fish Co., of Ana-  
cortes, are driving a trap in Mut-  
iny Bay.

Conrad Meyer and Will Cond-  
it have gone up in the straits  
fishing.

Sorry to hear of the sudden  
death of our neighbor, Mr. Pear-  
son of Freeland.

Mr. Hildreth, of Hallers Point,  
passed through Austin last week  
with a bran new auto.

Mrs. Cookson's son Melville  
and Miss Bjork have gone to Se-  
attle on business.

Chas. Condit and family came  
over home in their new boat  
the Geveun last Sunday.

Mr. H. Lovejoy has had quite  
an increase in his family of late,  
about 17 girls. It makes son  
Howard smile.

Mrs. Fiman and children, of  
Delta, Wash., formerly of the  
Island, are camping at Mutiny  
Bay for a few weeks.

Condit & McGraw are getting  
out another lot of poles. Ray  
Aughlbaugh, Neal Stoddard,  
Alfred Oliver, Earnest Darling-  
ton, Leo Porter and Mr. Vogh  
are bossing the job.

School district No. 10 has  
finally agreed upon a new school  
site and will hold an election  
next Saturday to bond the dis-  
trict to build a new building.  
Good, let the good work go on.

Mr. Ed Howard passed thru  
Austin this week in his auto we  
understand with real estate buyers  
but they did not stop. The  
Langley people don't care to  
show the people the good side of  
this end of the Island. About  
all we saw of them was a cloud of  
dust.

### Langley Items.

S. Hanson, of East Langley,  
is reported very ill.

Mr. and Mrs. H. Harrington  
spent Sunday in Everett visiting  
friends.

F. Wilson, of Cripple Creek,  
Colorado, is visiting at the home  
of J. Wallingford this week.

O. Lingenfelter, of Seattle,  
spent Sunday and Monday visit-  
ing his family who are camping  
here.

Mrs. A. Bosshard and children,  
of Everett, are spending this  
week visiting her mother, Mrs.  
J. Hunziker.

Mrs. and Mrs. Ed Howard  
took in the launching of the  
Calista at Seattle Saturday, re-  
turning Monday.

Miss Bessie Workman, who  
taught school at Browns' Point  
several years ago, is visiting  
friends here this week.

Mrs. W. Hunziker and child-  
ren returned from Everett Sun-  
day, after a week's visit with her  
sister, Mrs. A. Bosshard.

Irene Cushman, who has been  
sick the past two weeks, is rap-  
idly improving and will be able  
to be up soon.

The ball game with Birming-  
ham was not played Sunday.  
They canceled the game on ac-  
count of their team going to  
pieces.

Captain Ed. Lovejoy and wife  
spent several days last week visit-  
ing relatives in Seattle and while  
there saw the new steamer Calis-  
ta launched.

Messrs. Ebb Boynton and E.  
Rothgeb accompanied the Max-  
welton ball team to Port Ludlow  
Tuesday to help them out. Max-  
welton got beat 7 to 1.

Probably the last ball game of  
the season will be played here  
Sunday with the Swans-Trail  
team whom Langley beat at  
Swans-Trail last month.

A gentleman from Chicago,  
who's name we have not yet  
learned, will take the Langley  
Islander for a month's trial and  
will publish the paper next week.

Nearly everyone in Langley  
attended the circus in Everett  
Wednesday. There were 120  
people down to take the Verona  
but she could only accommodate  
118 which made the limit 325  
passengers. Several other boats  
went during the day which gave  
everyone a chance to go over.

J. Stangland, who sold his  
place here recently, has purchas-  
ed a large farm between Tacoma  
and Seattle and will move his  
family there this week.

Mrs. Z. Randall's sister and  
brother-in-law, Mr. and Mrs. W.  
Townsend, spent Monday and  
Tuesday at the formers' home.  
They left Tuesday evening for a  
trip to Oak Harbor.

Mr. and Mrs. R. McLeod and  
Mr. and Mrs. Bishop returned  
from their trip to Deception Pass  
Sunday well pleased with the trip  
and full of praise for the Coupe-  
ville and Oak Harbor farmers.

The brush camp closed down  
last Friday which leaves a num-  
ber of men out of work. But  
Hartley & Howard are trying to  
get a contract for some Everett  
brush which will be a big job if  
they get it.

The remains of S. Jensen, who  
formerly worked for G. Mortland  
here but who has been living in  
Everett, was brought over Sat-  
urday and buried in the Wood-  
man cemetery. He leaves a wife  
and five children to mourn his  
loss.

Anybody who has an item of  
interest, or anything they wish to  
put in the Langley items will  
confer me a great favor by leav-  
ing the same at the post office.  
I also take subscriptions for the  
Island County Times.  
W. J. Hunziker  
Correspondent.

### Clinton Brevities.

Mrs. Henry Finch and child-  
ren are visiting Mrs. Andrew Or-  
wick this week.

Mr. Bardahl and a friend from  
Everett were visiting him a few  
days last week.

Messrs. Olsen and Melling  
came home Saturday from San  
de Fuca to do home work.

Mrs. Kingsley went to Conpe-  
ville Tuesday to attend the W. C.  
T. U. convention and to visit  
friends.

Harold Olsen returned Monday  
to San de Fuca. His brother  
Andrew and his sister Ollie ac-  
companied him.

Mark Catron and family have  
moved to Langley for a few  
months where Mr. Catron is in-  
terested in the pole business.

Ezra Horton expects to have  
work near Marysville for the  
winter. He came home Satur-  
day to attend the social.

The shingle mill, we hear,  
will have a two weeks' shut down  
Mr. Salisbury and men will thus  
have a summer vacation.

Mrs. Haviland and her daugh-  
ter have returned to their home  
in Iowa, after visiting her niece,  
Mrs. W. Hall, for a week.

Amelia, Abbie and Grace Fiske  
also Ferne and Florence Lingsley  
are home from their summer  
camping at the Chautauqua  
grounds.

Mr. and Mrs. O. Nelson and  
little children went to Seattle  
last Saturday to attend the  
launching ceremonies of the new  
boat Calista.

Anna and Nora Olsen went to  
Tacoma Saturday to visit rela-  
tives, and to have some dental  
work done. They will be gone  
about two weeks.

Mrs. Anderson and Mrs. Ness,  
who have visited their relatives,  
Mr. and Mrs. R. Anderson, for  
about a week, have returned to  
their home in Tacoma.

It is announced that the gospel  
meetings will continue this week  
at Progressive hall, and that  
Friday night is thought to be the  
last night of the meetings.

Mr. De Witt and family are  
now staying temporarily at the  
Sandvig ranch, recently sold to  
B. C. parties, and caring for the  
stock, poultry and place.

Deer Lake S. S. meets at Pro-  
gressive hall Sunday, August 20  
at 2 p. m. and it is expected that  
church services will be at 3 p. m.  
as announced. My mistake in  
writing the item last week: so,  
remember this is the correct date.

We hear that the Clinton Im-  
provement club gave an enter-  
tainment and social last Saturday  
night in the hall near Mr. Good-  
rich's. The proceeds were nearly  
twelve dollars and after the

expenses are paid the balance  
will be used toward a fund for  
building the school house near  
Mr. Horton's.

The Sunday schools in Island  
county will hold their Annual  
convention in the auditorium at  
the Chautauqua grounds August  
19 and 20. Every one is cordial-  
ly welcomed, as 'tis hoped that  
these meetings will bring the  
work close to the people, be more  
fully understood and the interest  
deepened and strengthened.

We understand that fire de-  
stroyed the new barn, seventeen  
tons of hay, a harness and many  
other articles therein for Gust  
Annis on Saturday August 5.  
The orchard was also destroyed.  
Cause of fire unknown but some  
one had started a fire in a small  
brush pile some distance away  
and the wind helped it along to  
the clearing.

### Bay View News Notes

Mr. Palmatier was a Seattle visit-  
or Saturday.

Mr. Johns was a visitor to Seattle  
last Thursday.

Steve Cunningham is painting  
the school house now.

Mr. Kin Layton is at home now  
visiting with his parents.

Mrs. Terry returned from her  
visit to Everett Monday.

Miss Hellen Galelein was an  
Everett visitor on Friday.

from Seattle last separator.

Mr. and Mrs. Bruckner were  
Everett visitors on Tuesday last.

Mrs. Trim is at present visiting  
with her sister at Hood's Canal.

A meeting of the Bay View  
Social club was held Saturday even-  
ing.

The Ladie's Aid Society met at  
Mrs. Chas. Muhr's home last Thurs-  
day.

Visitors to Everett Saturday  
were A. Terry and Miss Lillie  
Ulrich.

Our baseball boys played Wood-  
land on Sunday and won the game  
12 to 14.

Sunday school every Sunday at  
10 o'clock a. m. at Bay View school  
house.

Mr. and Mrs. Summer, from Eve-  
rett, moved on their new place here  
last week.

Jacob Zeller conducted German  
services at the home of Mr. Gale-  
lein Sunday.

Mr. John Thompson was in Se-  
attle last week and while there he  
purchased a new week.

A surprise party was held at Mr.  
Blankenburgs home last Sunday.  
A good time was had.

Mr. P. Lund has purchased the  
lumber from the old shingle mill at  
Langley. He intends building a  
new barn out of it.
