CURRENT EVENTS OF THE WEEK

Doings of the World at Large Told in Brief.

General Resume of Important Events Presented in Condensed Form for Our Busy Readers.

A strike of the hoisting engineers in a Pennsylvania colliery has thrown 4000 men out of work.

A 13-year-old girl from Portland was one of the first of a party of 15 to reach the top of Mt. Adams.

Kansas proposes to cut off one day from the sentences of its convicts for each day they work on the roads.

Fung Rue, a noted Chinese aviator, was killed by a 200-foot fall while giving exhibitions at Canton, China.

Col. C. C. Wilson, ex-president of the United Wireless Telegraph company, died in the Federal prison at Atlanta, Ga.

The king and queen of England send a large wreath of flowers for the funeral of Commander Booth, of the Salvation Army.

A sailor on the training ship Intrepid has been sentenced to a year's imprisonment for refusing to be vaccinated against typhoid fever.

A battle between Southern Pacific shopmen and strikers at Sacramento resulted in several being injured. The strike has been on nearly a year.

The wireless station at Mare Island, Cal., talked with the recently completed station at Pribyloff Island, Alaska, a distance of 3100 miles.

Bank Wrecker Robin, serving a sentence in a New York prison, has made a fortune speculating in stocks, giving his buying and selling orders by telephone.

A company has been formed to build seven steamships costing \$1,000,000 each, to establish a Panama Canal line between Boston and Los Angeles.

Nathan Behring, a New York stenographer, broke the world's record by writing 280 words a minute for five minutes.

Eleven persons are dead as the result of drinking poisonous liquid refreshments at a celebration near Montreal, Canada.

Tons of Alaskan freight were left on the docks at Seattle when the last steamer sailed for points on the Upper Yukon river.

MERCILESS CAMPAIGN BEGUN

Rebels and Their Supporters to Be Executed Summarily.

Mexico City—Merciless extermination of rebels and all those who support them is the feature of the new campaign which began officially Monday.

Throughout regions infested by rebels the measure providing for a suspension of the constitutional guarantees of regular trial is now in effect, and any officer above the rank of major has the right to inflict summary capital punishment on all rebels who fall into his hands, if satisfied of the captive's guilt.

Instead of having disappeared from the state of Guerrero, the Zapatistas are now reported as practically in control of the villages and haciendas a few miles south of Toluca, the capital. Benjamin Argumedo and Murillo, two of Orozco's officers, are operating in the rear of General Huerte near Torreón, while Campos, Campa, Fernandez and Rojas are giving the government forces in Sonora plenty to do.

PASSAGE OF SHOSHONE BILL SAVES WOMAN'S HOME

Washington, D. C.—The foreclosure of a mortgage on a Montana home was prevented and the savings of a lifetime were restored to Mrs. Katherine MacDonald, of Butte, when congress finally passed the Shoshone irrigation claim bill. Mrs. MacDonald will receive \$11,000 of the \$42,000 carried in the bill for the relief of about 400 claimants who lost heavily by the failure of a contracting firm which was erecting the Wyoming irrigation project.

President Taft vetoed the original bill, but approved the amended measure, which in its final form imposes the charge against the general reclamation fund.

WOMEN FALL IN BATTLE.

Nicaraguan Rebels Fight Desperately Against Government.

Washington, D. C.—Twenty women aiding the government forces at Managua in preserving order against the rebels were shot down during the four days' bombardment of Managua, according to delayed dispatches to the State department from George T. Weitzel, the American minister there. One hundred and twenty non-combatants were killed, according to the same advices. The news is coming slowly but surely, and reveals atrocities committed by the rebels in their campaign against the government.

General Menas' grievance in Nicaragua, the cause of the present revolution, dates back to the time last year when the assembly called together to ratify the convention between the United States and Nicaragua proclaimed the next constitutional president to take the oath of office on January 1, 1912, succeeding Adolfo Diaz.

DEMAND WAR ON TURKEY.

Servians Would Retaliate for Massacre By Turks.

Belgrade, Servia—The massacres by Turks have extended to the Servian frontier. Telegrams received here from Sieniza, on the southern boundary, say Turks attacked the town and butchered many of the inhabitants.

News of the massacre caused great excitement in the capital and the newspapers issued special editions demanding that the Servian government protest vigorously to the Porte. Later 5000 persons marched to the palace, where they shouted their demand that war be declared against Turkey.

Canton Cold to Kaiser.

Berne, Switzerland—Impelled by his fellow Socialists, Herr Blocher, the Socialist leader, has renounced the idea of receiving as head of the cantonal government of Basle, Emperor William on His Majesty's forthcoming visit to Switzerland to attend the Swiss army maneuvers. Herr Blocher announced he would be obliged to be absent from Basle on the date on which the German emperor crosses the Swiss frontier.

Canadian Strike Ends.

Port William, Ont.—The striking Canadian Pacific Railway and Grand Trunk Pacific freight handlers have decided to give up the fight and report for work. There have been many desertions from the ranks and, convinced that their cause was unpopular, the leaders felt it would be unfair to the faithful few who remained to hold out any longer.

3000 Left Dead on Field.

Lisbon—The general revolt of natives against Portuguese rule at Timor, Malay archipelago, has been suppressed after sanguinary battles. The governor of Timor telegraphs that the rebels left 3000 dead on the field and that 4000 natives were made prisoners.

INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

SUMMER SCHOOL CLOSED.

Largest and Most Successful Ever Held at Cheney.

The summer school at Cheney just closed was the most successful and largest in the history of the school. The full faculty worked full time. The enrollment in the normal proper was 407 and in the training school 89, making a total of 496. In order that the public may know the sources of revenues and financial standing, a short statement is made. One-third of all revenues accruing from the sale of the 100,000 acres set aside for the normal schools by the enabling act to the constitution goes to each normal school in Washington. Twenty-three thousand acres have already been sold and the fund from this source is now \$664,000. Some of the lands have been leased and a yearly revenue of \$2400 is now received from this source. The legislature of 1911 passed a mill tax bill for the maintenance of the higher institutions of learning and provided that the bill could not be repealed or amended for five years. By this bill Ellensburg normal gets seven hundredths of a mill tax annually on all taxable property in Washington, Bellingham gets nine hundredths and Cheney gets nine hundredths. This will give to the normal at Cheney an annual revenue in excess of \$100,000, available on April first next. This is a larger income than ever before and it makes possible the greater work the school has been planning in all its various departments, but more especially in its rural school extension work, agriculture, manual training, and the publication and free distribution of timely bulletins on these and other topics.

BENTON ON CASH BASIS.

Road Funds Levied and All Warrant Indebtedness Paid.

Prosser—A statement given out by County Auditor A. E. Verity regarding the financial condition of Benton county shows that the county is on a cash basis. It has no bonded indebtedness and there is cash enough in every fund to pay all warrants outstanding against that fund and leave a small surplus on hand.

At the close of business on July 31, 1912, there were in the purely county funds from various sources, after deducting the amount of all warrants outstanding, \$3698. In addition to this sum there was \$32,343 from the road funds, from the three road districts, after all warrant indebtedness had been paid, making a total of all funds now on hand above warrant indebtedness of \$36,042. There is also in the state permanent highway fund \$10,412, of which \$7627 is available for immediate use.

The road funds have been levied and intended for use on the Richland-Kennelworth road as soon as the contract can be let. The cash in the general road and bridge fund will pay for the new cement abutments for the Richland and Kiona bridges and leave a small surplus for other work.

Benton county reached a cash basis in May of this year. When it was organized it had to assume \$25,000 in indebtedness of Yakima and Klickitat counties as its share of the debt, which has been steadily reduced each year, until the present cash basis has been reached. The tax levy for county expenses is lower than any adjoining county except Walla Walla.

Yakima to Ship 6000 Lambs.

North Yakima—It is estimated that 6000 lambs will be shipped to Chicago from the North Yakima valley in the next two weeks. Cars have been ordered by Ernest Berg for 2200 animals, and Meyers, McGee and Jensen will send nearly that many. Lambs are now quoted here at \$3.75 a hundred pounds and it is believed that a better price can be obtained by shipping to the middle-western market.

Weather Delays Peach Shipments.

Toppenish—Movement of Elberta peaches from the Yakima valley will be slightly delayed because of the cooler weather recently. Both growers and shippers were expecting to ship Elbertas rapidly until the end of the crop, but there will be but few for the market from now on. Crawford peaches are now being shipped.

Colton Flour Mill to Resume.

Colton—George K. Bryant and Casper Hamp have formed a partnership to operate the flour mill here. The mill has been idle for nearly two years, but these men have overhauled it and replaced the worn-out machinery with new and will be ready to make flour by the first of September.

Grandview Fruit Goes Abroad.

Grandview—Fruit was shipped by the Washington Fruit Distributing company this week to England, Scotland and Canada. The shipment included pears and peaches.

HOQUIAM SEEKS MEN.

All Kinds of Work to Be Had on Grays Harbor.

Hoquiam—With every manufacturing and industrial plant of this city in operation, with a large amount of building and road and street work under way, with all of the logging camps tributary to Hoquiam, with one exception, in operation, and that exception preparing to start within a few days and another big camp to be started soon afterward, there is a great shortage of men for all kinds of work in this city and in none of the lines can enough men be secured.

According to Manager Horn, of the citizens' free employment and information bureau, he has places for 300 men in the woods about Hoquiam at once if he could get them. There is not a mill in the city but would employ a considerable number of men if they were to be had.

This shortage of men exists despite the fact that a large number, many of them with families, have been brought into the city in the last four months and is a result of greater industrial activity than has existed in Hoquiam and on Grays Harbor for the past three years. A minimum wage of \$2.25 per day is being paid in the city, and good men will command even better wages. All classes of labor from skilled woodmen and mill employes to common labor is needed.

GROWERS PROFIT IN FRUIT.

Richey & Gilbert Make Shipment of Winter Apples to Alaska.

Toppenish—Realizing \$1000 for the growers, the Richey & Gilbert company made the first shipment of winter apples from the Yakima valley to Alaska this year, a solid carload of four varieties being sent by express to Alaska, transferred to a steamer for Nome, and will be forwarded from there to Fairbanks and Dawson. The order was filled from several orchards, as few apples had sufficient color to warrant such early shipment.

The shipment was composed of Spitzenbergs, Winter Bananas, McIntosh Reds, and a few of other kinds from the Walden & Sons, E. O. Keck, E. T. Angell, J. P. Fox and H. M. Gilbert orchards, all excepting the latter being in the Zillah district.

Charles W. Grant, assistant manager of the company, says that as the crop of Elberta peaches has started to move the company anticipates sending at least 35 carloads each day from the Yakima valley. Thirty cars compose a solid fruit train, according to the usual hauling capacity of the Northern Pacific on its fast fruit service.

The shipments for last week, despite cold weather and rains that held fruit back, totaled 110 carloads.

Ship 5000 Cars of Fruit.

Wenatchee—Owing to the large increase in the shipping business in this city during the last year the Great Northern for the fourth time in the last eight months has a crew of men extending the track facilities in the Great Northern yards at this point. So far this season the shipping of fruit has broken all records and with the bulk of the peach and pear crop now coming on the demands for better loading facilities is growing beyond present means.

Estimates made at the beginning of the season in every variety of fruit are being exceeded and that there will be nearly 5000 carloads of fruit shipped out of the Wenatchee valley this season is conceded by the most conservative.

Orchards in the Entiat valley and in other adjoining valleys are beginning to produce and the supply from these points is assuming large proportions.

Hay Boosts Good Roads.

Spokane—Governor Hay, addressing the chamber of commerce of this city, pronounced the Panama Fair as the greatest exhibition the world will have seen, and urged upon that body the necessity of boosting for good roads in this state as one of the attractions to induce travelers to the exposition to stop and see the wonders of Washington.

Open Reservation Canals.

Toppenish—Headgates of the Yakima Indian reservation canals have been opened, under direction of the reclamation service, so that the reservation farmers are now securing a flow of 500 second feet, the heaviest irrigation flow that has been given this year. Some time ago the headgates were shut down to 147 feet.

Plaza Wheat Not Hurt.

Plaza—Threshing is being resumed after nearly a week's delay caused by rain. Farmers are cutting spring wheat and oats. The late rain did little damage to crops.

CONGRESS WOULD QUIT.

Progress Made Toward Final Consideration of Bills.

Washington, D. C.—With a celerity that hitherto has not marked the session, congress rushed toward completion four great supply bills and looked forward confidently to adjournment.

Conferees on the sundry, civil, Indian, army and postoffice appropriation measures were passed by the senate, and the general deficiency bill, the last of the big supply measures to be taken up, was reported in the senate and the way prepared for its consideration.

The house took action on appropriation legislation further than to order all conference reports printed in the record so that prompt action could be had. Unlike the senate's quick work, by which the three bills passed were rushed through in less than ten minutes, the house is expected to develop sharp clashes on the sundry civil and Indian bills when they are reported.

Leaders on both sides did not regard these difficulties as unresolvable and it is believed before adjournment the legislative dockets will be comparatively clear. A fight developed in the senate on the army bill over the proposed seven-year term of enlistment. The army measure and the postoffice appropriation bill were finally carried over.

Radical changes in the postal services were provided for by the senate and house conferees on the postoffice bill. The Bourne parcel post system was adopted for the present, including the Oregon senator's ideas as to zones, distances and rates. The postmaster-general, however, was empowered, with the consent of the Interstate commerce commission, to change the rates, zones and articles admitted to the post.

The Simmons good roads provisions was adopted. This appropriates \$500,000 for experimental road construction with a joint committee to study the proposition.

The senate provision requiring newspapers to publish semi-annually a list of stockholders was adopted and another provision added to require every daily newspaper to print a statement of its daily circulation.

In the postal bill the eight-hour labor provision was agreed to, together with the clause for the payment for over time work in cash. The senate amendment to allow employees to join associations was adopted.

MORE TROOPS TO GO.

Full Protection Extended to Americans in Nicaragua.

Washington, D. C.—The State department is determined to extend the fullest measure of protection to American life and property in Nicaragua. It was announced that if the naval forces in that country, reinforced by the naval contingent now being assembled at League Island, and the several hundred blue-jackets en route to Corinto on the California and the Denver, are not sufficient to assure that protection, more forces will be rushed forward.

The State department is unmoved by utterances in congress, relying implicitly and confidently on the long line of precedents, where American military and naval forces have been employed without congressional direction in cases where American life and property were in jeopardy.

The officials say that is the sole purpose of the landing of the marines and blue-jackets in Nicaragua.

When the reinforcements which will be en route to Nicaragua before the end of the week have arrived at their destination the navy will have ashore in that country the most numerous force it has ever landed in an American republic in time of peace.

Women Are Fed Forcibly.

Dublin, Ireland—A hunger strike was started by Jennie Leigh and Helen Evans, suffragettes, who were sentenced here recently to five years' imprisonment, the former on the charge of wounding John E. Redmond, leader of the Irish Parliamentary party, with a hatchet thrown at Premier Asquith's carriage and the latter for setting fire to the Theater Royal. They were being fed forcibly by the jail officials.

Tariff Board Omitted.

Washington, D. C.—Provision to continue the tariff board another year, which the senate had inserted in the sundry bill, was stricken out by the house and senate conferees. The house receded from its demand to consolidate the officers of receivers of public moneys and registers of the land offices. Four hundred amendments to the bill were agreed upon.

State After War Claims.

Washington, D. C.—The general deficiency appropriation bill reported to the senate carried the Chamberlain amendment appropriating \$193,543 to pay the war claim of the State of Oregon against the federal government. Several times the house has rejected similar senate amendments, but Senator Chamberlain has hope of securing some of this old claim in this bill.

CANAL BILL IS SIGNED BY TAFT

Does Not Consider Hay-Pauncetote Treaty Violated.

British Protest Would Lead to Absurd Conclusion—Neutrality Will Be Maintained.

Washington, D. C.—President Taft signed the Panama Canal bill at 7:10 o'clock Saturday night. Following this he sent to congress a memorandum suggesting the advisability of the passage of a resolution which would declare that this measure was not considered by this government a violation of the treaty provisions regarding the canal.

In discussing the British protest against the exemption of American shipping from the payment of tolls for the use of the canal, Mr. Taft says the irresistible conclusion to be drawn from it is that "although the United States owns, controls and has paid for the canal, it is restricted by treaty from aiding its own commerce in the way that all the other nations of the world may freely do."

"In view of the fact," Mr. Taft continues, "that the Panama canal is being constructed by the United States wholly at its own cost, upon territory ceded to it by the Republic of Panama for that purpose, and that unless it has restricted itself, the United States enjoys absolute rights of ownership and control, including the right to allow its own commerce the use of the canal upon such terms as it sees fit, the sole question is: Has the United States (by the terms of the Hay-Pauncetote treaty) deprived itself of the exercise of the right to pass its own commerce free, or to remit tolls collected for the use of the canal?"

The president points out that the rules specified in the articles of the treaty, which is made the basis for the British protest, were adopted by the United States as the basis of neutralization of the canal and for no other purpose.

The article, he further says, "is a declaration of policy by the United States that the canal shall be neutral; that the attitude of this government towards the commerce of the world is that all nations will be treated alike and no discrimination made by the United States against any one of them observing the rules adopted by the United States. In other words, it was a conditional favored-nation treatment, the measure of which, in the absence of express stipulation to that effect, is not what the country gives to its own nationals, but the treatment it extends to other nations."

"Thus it is seen that the rules are but the basis of neutralization intended to effect the neutrality which the United States was willing should be the character of the canal and not intended to limit or hamper the United States in the exercise of its sovereign power to deal with its own commerce, using its own canal in whatsoever manner it saw fit."

MARINES ON GUARD.

Corinto, Nicaragua, in Hands of United States Troops.

Washington, D. C.—Detachments of bluejackets from the cruiser Annapolis and the collier Justin patrolling the city at night; an armed guard of volunteers made up largely of the foreign element acting as police during the day, and all the foreign women and children sleeping on the American naval vessels, describes the situation in Corinto, according to the last report from American Consul Johnson.

The report was dated August 22. Telegraphic and rail communication between the port and Managua had been severed nearly a week by the rebels, who are believed to be in possession of the stations along the line of the railroad. The last message from American Minister Weitzel was brought down from the capital by Commander Terhune, of the Annapolis.

Astrology Is Fortune-Telling.

Olympia, Wash.—The conviction by the Spokane County Superior court of F. F. Neitzel, astrologer, has been affirmed. The Supreme court held that, although a horoscope is used and the performer says that he cannot tell fortunes, but that he may be able to forecast the future with the aid of astrology, which he terms a science, the practice constitutes fortune telling, and therefore the performer is guilty of vagrancy under the law.

\$355,000,000 Is Allowed.

Washington, D. C.—President Taft signed the postoffice and postroads appropriation bill, which carries \$266,000,000. The president also signed the army appropriation bill, carrying \$39,000,000 and providing for reforms in the of the War department.

FRIDAY, AUGUST 30, 1912

State Senator Peder Jensen of Pierce county, who was appointed a member of the state board of pharmacy by Governor Hay, has been arrested, charged with embezzlement of \$1,180 of the state board's funds.

John L. Wilson seems to have made a bad guess in picking Alex Falconer for endorsement for congressman-at-large. Falconer switched to the Bull Moose promptly after the P.-I. had boosted him and in consequence Wilson seems to be in bad.

Democrats and Republicans in Washington will nominate their respective tickets at the primaries to be held September 10. The Progressives will also have a preferential primary and subsequently ratify the selections in a convention. There is considerable confusion in getting out the ballots, as many who filed as Republican candidates have withdrawn, as the result of the decision to put a third party ticket in the field. The pre-election contest, in many instances promises to be a Kilkeny Kat affair because of the rivalry.

King county is to submit a proposition to the voters at the fall election to raise \$3,000,000 to be used for building roads in that county. Snohomish county is to vote on a proposition to issue \$1,500,000 for the same purpose. Would it not be well for Island county to wake up and also have good roads. It is merely a business proposition and an investment that will bring large returns, \$100,000 placed on roads in our county would do more to settle up the vacant land that we have than all the other agencies combined that could be used. Let the Commissioners give the people a chance to express themselves on this matter at the coming election.

Albert Hoffman of Oak Harbor had a long article in the O. H. News last week bemoaning the voters to support Mr. Terry of Coupeville for county assessor, giving as his principal reason that the south end of the island has had the assessorship long enough. Mr. Hoffman ran for assessor two years ago against Ernest Caskill and has never quite recovered from his defeat. Mr. Caskill being a Langley man received a good vote on this end of the island, needless to say, did not please Mr. Hoffman and he now asks the voters of that end of the island to support the candidate from Coupeville. This end of the island is represented in the court house with only one candidate, that of assessor, and Mr. Hoffman would even like to take that from us and hand it to Coupeville, where most of the candidates hale from now. The ISLANDER has nothing to say against Mr. Terry personally and we agree with Mr. Hoffman when he says that Terry has lived at Coupeville all his life. The same thing can truthfully be said of about half the people residing on the Prairie back of Coupeville, except the Chinese, who were shipped in later by the old timers. Does that qualify him to office any more than if he had been born in Nebraska, Tumbuckto, or any other old place? It is also argued that Mr. Terry is a progressive. Years ago when an attempt was made to incorporate the town of Coupeville every mother son of the old timers there fought it and

it was not until some of the new comers moved from the Prairie to the town and others located there from Nebraska and elsewhere that it was possible to incorporate the town. This editor lived in Coupeville at the time and knows whereof he speaks. Every forward step that Coupeville has taken has been done through the efforts of the new comers, and not by the votes of the Terrys, Gellispies, et al. You may call them progressive if you want to, Mr. Hoffman; but it will be a difficult job to make the Oak Harbor people believe it. The voters of Oak Harbor will support A. C. McLeod, Mr. Hoffman's paid advertisement to the contrary notwithstanding.

IN THE SUPERIOR COURT OF THE State of Washington For The County of Island.

IN PROBATE.
In the Matter of the Estate of Minnie Rupp, deceased. Order to Show why distribution should not be made.

George Rupp, the administrator of the estate of Minnie Rupp, deceased, having filed in this Court his petition setting forth that said estate is now in a condition to be closed and is ready for distribution of the residue thereof among the persons entitled by law thereto, and it appearing to the Court that said petition sets forth facts sufficient to authorize a distribution of the residue of said estate.

It is Therefore Ordered by the Court that all persons interested in the estate of the said Minnie Rupp, deceased, be and appear before the said Superior Court of Island county, state of Washington, at the court room of said Court, in Coupeville, said county and state, on the 28th day of September, 1912, at the hour of 10 o'clock A. M. of said day, then and there to show cause, if any they have, why an order of distribution should not be made of the residue of said estate among the heirs and persons in said petition mentioned, according to law.

It is Further Ordered, that a copy of this order be published once a week for four successive weeks before the said 28th day of September, 1912, in the Langley Islander, a newspaper printed and published in said Island county, and of general circulation therein.

Done in open Court this 19th day of August, 1912.

LESTER STILL,
Judge of said Superior Court.
State of Washington, } ss.
County of Island, }

I, Markus Wanguess, clerk of the Superior Court of Island County, State of Washington, do hereby certify that the above and foregoing document is a true correct and complete copy of an order of said Superior Court to show cause why distribution of said estate should not be made in the above entitled matter, made and entered by said Court on the 19th day of August, 1912.

In witness whereof, I have hereunto set my hand and affixed the seal of said Court this 19th day of August, 1912.
MARKUS WANGNESS,
Clerk.

Notice and Summons

In Foreclosure of Tax Lien.
In the Superior Court of the State of Washington, for Island County.

Henry F. Sell, Plaintiff, vs. R. B. Brown and all persons unknown, if any, having or claiming an interest or estate in and to the hereinafter described real property, Defendants.

THE STATE OF WASHINGTON to R. B. Brown, the owner or reputed owner of, and all persons having or claiming an interest or estate in and to the real estate hereinafter described. You and each of you are hereby notified that the above named plaintiff, Henry F. Sell, is the holder of a Delinquent Tax Certificate numbered 97, issued on the 13th day of July, A.D. 1912, by the Treasurer of Island County, State of Washington, for the amount of \$2.75, the same being the amount due and delinquent for taxes for the year 1908, and the further sums of \$2.61, \$2.31 and \$2.50 paid for the subsequent years of 1909, 1910 and 1911, together with penalty, costs and interest on said amounts at the rate of fifteen per cent per annum. Said delinquent tax certificate being for delinquent taxes upon the tracts or parcels of land situate in Island County, State of Washington, described as follows:

The southeast quarter of the southwest quarter of the northeast quarter of section 20, township 29 north of range 3 east W.M.

And you are further notified that plaintiff will apply to above entitled court for a judgment foreclosing his lien against said property.

Now, therefore, you are hereby summoned to appear within sixty days after the date of the first publication of this Notice and Summons, to-wit: within sixty days after the 25th day of July, A.D. 1912, exclusive of the said day of first publication and defend this action in the above entitled Court or pay the amount due, and in case of your failure so to do, judgment will be rendered foreclosing said tax lien for such taxes, penalty, costs and interest against said lands and premises hereinbefore mentioned.

Any pleading or process may be served upon the undersigned at the address below stated.

Wm. F. Leedertsen and lady of Seattle spent a few hours in the city Sunday, as guests of Mr. Langley.

Labor Day will be celebrated at Holmes Harbor by a picnic and speaking at the park, Monday, Sept. 2d.

Geo. Grebin was home from Seattle over Sunday visiting his family. He reports business good in the metropolis.

Will Rothgeb was circulating among his many friends in Langley the first of the week, returning to Seattle Tuesday.

Mrs. Alice Bosshard and children of Everett spent a few days with her mother, Mrs. Hunziker, the fore part of this week.

A. Melson and family have returned from Tutulup where he has just completed a large barn 36 x 140 for the government.

Burwell Buntz of San de Fuca was in Langley a few days the fore part of the week doing some surveying for Mrs. G. Bush.

T. H. Marshall was over to Silver Lake the first of the week where he went to show some parties a bargain in real estate.

We make our trunks and sell direct to you. Matting suit cases, lunch baskets and leather goods. Everett Trunk Co., 2819 Rockefeller.

The petition for a new school district at Clinton was rejected at a hearing Tuesday at that place by County Superintendent Miss Lena Kohne.

Mrs. James C. Langley arrived from Seattle yesterday to visit her better half. They expect to rent a home until they dispose of their Seattle property.

Rev. B. F. Caudill, pastor of the First Baptist church in Everett, will preach at the M. E. church in Langley next Wednesday evening, Sept. 4. All are invited.

The school election held here Saturday to validate the indebtedness of Langley District was carried by the necessary two-third vote. Not many people took time to attend.

W. F. Main and wife, who came from Marysville a month or so ago, in the hopes of benefiting her health, left yesterday for Everett where they will reside, for a time at least.

H. I. Shotwell and family who have been spending the summer in Langley returned to their home at Wenatchee Tuesday. Mr. Shotwell is one of the big fruit growers of that section.

The Scandinavians of Langley entertained a party of excursionists from Everett last Sunday at the home of H. P. Jensen. A good time is the verdict of both the visitor and home folks.

Mrs. Julia Iles, of Snohomish, who recently purchased the Burl place at Brown's Point, arrived here with her personal effects Tuesday to take charge of her newly acquired ranch.

Fred Funk is sporting one of the finest turnouts in Langley these days. Mr. Funk is one of the progressive citizens in Langley and a few more like him would be a good thing for the town.

A. Nelson and family have moved into their new cottage on First street and one vacated by them is being occupied by Mr. Jensen and family of Oak Harbor. Mr. Jensen is a brother of our townsman H. P. Jensen.

The summons in the injunction suit argued in Coupeville yesterday was squashed, and the plaintiffs gave notice of appeal. The petition was to temporarily restrain School Dls. 502 from establishing a school at the brick yard nor to build onto the Deer Lake school.

James C. Langley, our new banker, arrived last week and has made arrangements for the opening of the bank early in September. Mr. Langley is thoroughly pleased with present and future prospects of this section, and intends to make this his permanent home.

Mrs. W. A. Kraber entertained at a six o'clock dinner Wednesday evening in honor of Mr. and Mrs. Stultz, who leave the first of September for the East. Mrs. Parkhurst, who leaves next week for Walla Walla, and Miss Bernice Stultz who will spend the winter in Everett.

H. M. McLeod and Phil Simon were the only two that went on the moonlight excursion to Camano Head from Langley, but about 150 went from Everett. The affair must have been a success as the Verona did not get back until six the next morning, long after the moon had gone to bed.

Mr. Roy Catron and Miss Lucy Bainter were married in Everett last Monday, Rev. William E. Randall of that place officiating. Both the contracting parties were practically brought up in Langley and have many friends in this vicinity who will join the Islander in extending congratulations. They left on the boat Tuesday evening, amid a shower of rice, for Monroe where Roy is tending hook in a logging camp.

The following corps of teachers have been hired by the board for the various schools of Consolidated District 202: Langley, Miss Olga Reynolds superintendent of district; Miss Juliet Moran, grammar, and Miss Etta Kraber primary departments. Saratoga, Miss Beatrice Hirth; Brown's Point, Minnie Chapin; Woodland, Miss Grace Craw; Deer Lake, Mr. Elvin Seltzer, grammar, and Miss Mable Sili, primary departments; Island, Miss Yola Barrett. School begins Sept. 3d.

Mrs. L. Wham and children arrived in Langley Tuesday from Santa Anna, Cal., where they have resided the past two years. Mrs. Wham says that Whidby island suits her better than southern California and they will again take up their abode in Langley. Mr. Wham who has been in Everett for some time will join his family here later. It may not be out of place at this time to state that Mrs. Wham left her Angora cat behind, the cat that caused so much excitement in Seattle on their departure for their southern home two years ago.

Sheriff Jack Rosenfield was in Langley last Monday at the request of Nicodemus Schneider. It appears that Schnider still insists that the two polls, in Mrs. Taylor's possession and over which a law suit was had in Justice McLeod's court a few weeks ago, are his, and he appealed to the sheriff to come over and see what could be done. The sheriff held with Justice McLeod that the only way for Schnider to get the polls would be to replevin them. In order to pacify Mr. Schnider the justice offered to pay for having two other polls cut and W. E. Howard offered to haul them in free of charge, but this Mr. Schnider refused. So it seems that trouble is more desirable to Mr. Schnider than the polls.

Camano

A. E. Frizzell spent Sunday and Monday with his cousin, Mrs. Melendy, at Seattle.

The wheat growers here are threshing their grain this week.

Mr. and Mrs. A. A. Terry went to Deer Lake Tuesday on business.

Quite a number of young people went to see the Langley ball game Sunday, but as the Hafeorn's didn't show up went buggy riding instead.

Frank Steuber of Lowell is visiting with friends here now.

Mrs. Rothgeb and Misses Alta Rothgeb and Eleanor Warren of Seattle are visiting at the Brooke home this week.

Richard Ulrich of Greenbanks came home Friday and took in the big Leap Year ball.

A fine time was had at the Leap Year ball Saturday evening. A large crowd was in attendance from Langley Holmes Harbo, Mutiny Bay, Saratoga and last but not least the home place. The dance was a Leap Year and birthday affair combined, it being Miss Blanch Bock's birthday. We all join in wishing her many, many more happy birthdays and a grand ball on every one in the future.

Mrs. Myron of this place spent a few days at Stanwood last week.

B. L. Bock was an Everett passenger Wednesday.

Paul Cunningham has been at Maxwellton the past week digging wells on Chautauqua Heights. He dug 77 feet and got plenty of water.

Misses Anna Siemers, Lillie and Josie Ulrich, Josephine Thompson, Messrs. Paul Cunningham, Clifford and Albert Thompson, Eugene Schumacher and C. G. Melendy and son were Everett sightseers Saturday.

Mr. and Mrs. Ken Layton of Everett visited over Sunday at the Layton home.

Miss Beck is a guest at the Melendy home now.

Earl Bartlett is visiting parents here.

The threshing crew were at Jacob Zeller's home on Monday, and being short of helpers Mrs. Zeller gave a helping hand in pitching bundles for the machine. Woman's Rights, O. K.

Freeland

Our new school house is nearing completion and looms up quite cityfied.

Mrs. Celia Denning was down from Greenbanks last week putting up fruit at her uncle's, Henry Croyle.

Launch Alverene took an excursion party to Fort Flagler last Saturday from Clinton.

Mrs. Staiff and daughters, Elsa and Inza, were visiting in Everett last week.

Mrs. Pauline Endsley was an Everett visitor last week.

Mrs. Versema Sr. and daughter, Maude, who have been visiting friends here since last October, started back to their home in Chicago last Tuesday. We were sorry to see them go and they will be greatly missed.

Mr. and Mrs. Edwin Versema went to Everett last Tuesday to see Mr. Versema's mother and sister started on their home journey.

Misses Opal and Feun Barton of Lowell who have been camping near here returned to their home last Tuesday.

Mr. and Mrs. Scott White of Seattle who have been boarding at Mr. Lovejoy's returned to their home Tuesday.

Last Sunday the launch Alverene took an excursion party from this place to Deception Pass. There was a big crowd and all report a fine time.

On Sunday Sept. 1st the Alverene will take an excursion party to the Debs meeting in Everett, going from here to Coupeville, Oak Harbor, and way points, reaching Everett in time for the meeting.

Last Friday when the Alverene came from Everett Mrs. M. Pierson was very much surprised at the arrival of five old time friends. Two of them, Mr. and Mrs. A. P. Nelson, are from San Bernardino, Cal., and came to Portland in their Auto where they took on the other three, Mr. and Mrs. Fishwood of Silverton, Ore., and niece, Miss Alma Wilman's of Nebraska. From Portland they made the journey in about two days in their car to Everett.

There will be a "Harvest Home" picnic in the grove at this place on Monday Sept. 2nd. All invited, and bring lunch baskets well filled prepared for a good time.

Wild Red Rice.
In Senegal red rice grows wild. The fields in which it grows are inundated regularly by the Senegal or by its affluents, and in measure as the tide rises the rice plant rises above the flood. The grain is very red and very dry and hard. It swells in the water and as it swells loses some of its rich color. It is very nourishing and requires no cultivation.—Harper's Weekly.

The Wedding Ring.
The wedding ring is of foremost interest to the groom and a new wedding ring is to be had, called the "alliance ring." This appears to be one solid ring, but is actually two, the joints being invisible, and whenever engraved, the ring is separated by inserting a pin in the inside pinhole, which separates the ring and the marble is done on the inside surface.

DANGER PERIOD OF WOMAN'S LIFE FROM 45 to 50

Interesting Experience of Two Women—Their Statements Worth Reading.

Asheville, N.C.—"I suffered for years with female trouble while going through the Change of Life. I tried a local physician for a couple of years without any substantial benefit. Finally after repeated suggestions to try Lydia E. Pinkham's Vegetable Compound, I quit my physician and commenced using it with the happiest results. I am today practically a well woman and anxious to contribute my mite towards inducing others to try your great medicine, as I am fully persuaded that it will cure the ailments from which I suffered if given a fair chance.

"If you think this letter will contribute anything towards further introducing your medicines to afflicted women who are passing through this trying period, it is with great pleasure I consent to its publication."—Mrs. JULIA A. MOORE, 17 East St., Asheville, N.C.

The Case of Mrs. Kirlin.
Circleville, Ohio.—"I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound. Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. If all women would take it they would escape untold pain and misery at this time of life."—Mrs. ALICE KIRLIN, 353 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.

VETO UPHELD BY SENATORS

Action of House Nullified and Taft Is Pleased.

Amendment Agreed Upon—Commerce Court Retained—Decisive Victory for Administration.

Washington, D. C.—For the third time the house passed a legislative, executive and judicial bill over the veto of President Taft by a vote of 154 to 53, but in the senate the effort to pass it failed, 34 to 27. As a result, the house amended the measure to provide a continuing appropriation for the Commerce court until March 4, 1913, passed it and sent it to the senate appropriation committee with good prospects that it will pass the senate.

The solution of the deadlock between congress and the whole White House is believed to have been found and as a result adjournment now looms appreciably nearer. When it was found that the chief executive had been overruled by the house by a 3-to-1 vote, there was a tumult of applause. But when it was put through after the failure of the senate to follow the house lead, there were less than 30 members in their seats, there was no debate and scarcely an audible vote.

POSTMASTER MERRICK, OF PORTLAND, DIES SUDDENLY

Lakeview, Or.—Without audible cry or noticeable struggle, Charles B. Merrick, postmaster of Portland, sank to his death in a shallow bathing pool, one and one-half miles south of Lakeview. Subsequent examination revealed that death was due to heart failure, and this was the cause assigned by the coroner's jury which assembled and held an inquest.

The Lakeview bath house is fed by a natural hot spring, the water rising from the ground at nearly boiling point but is cooled in passage to the pool by running through a shallow trough.

The depth increases gradually from about two feet to a maximum of six feet six inches, but in only one corner is the water over the head of a man of average height. The temperature of the water at times is high, being at a stage usually that would be called a "hot bath" in the home.

MEDFORD PEARS \$2.50 BOX.
Sale of Fruit at High Prices Means Prosperous Season.

Medford, Or.—With six cars of Bartlett pears sold, averaging \$1.70 a box f. o. b. Medford, and another car sold in New York averaging \$2.50 f. o. b. New York, the ranchers of the Rogue River believe they are entering upon the most prosperous year in their history. In 1911 \$1.50 was the maximum, and many cars sold as low as \$1, while there were practically no apples in the valley.

This year the pear crop is three times as large as last year, the pears are unusually uniform and large-sized, and it is predicted that now the California crop is practically disposed of the Southern Oregon fruit will enter a constantly rising market. The entire output will approximate 150 cars.

The apple crop is a record-breaker. The trees are so heavily loaded that scaffolding has to be used throughout the orchards to prevent the limbs from breaking. Where there were less than 100 cars shipped out in 1911 there will be between 500 and 600 in 1912, and the size and color of the fruit will be the finest in the history of the valley.

Gold Pen to Sign Bill.
Washington, D. C.—President Taft will sign the Panama canal bill with a gold pen supplied by William R. Wheeler, representative of the San Francisco chamber of commerce. To Wheeler's work is due more than any other man, as is generally acknowledged here, the fact that free tolls for American ships are provided for in the bill and railroad ships barred from the canal. Wheeler will take the pen with him when he leaves for San Francisco and present it to the chamber of commerce.

LIFE WORK WIPED OUT: Butte Woman Beggared By Veto of Shoshone Bill.

Washington, D. C.—Mrs. Katherine MacDonald, who made a fight to override the president's veto of a bill that meant success or failure for herself and her husband, is returning to a home in Butte, Mont., from which she soon will be evicted. Her struggle of years was nullified by the lack of just six votes in the house. A bank in Butte, which holds the mortgage upon her property, has withheld foreclosure pending congressional action which would decide whether the government would honor time checks given laborers upon one of the biggest undertakings of the government, the Shoshone irrigation project.

Mrs. MacDonald and her husband conducted a grocery store in Butte. The time checks of construction companies engaged in government projects were accepted as cash. The MacDonalds handled thousands of them.

The contractor failed and the sub-contractor failed. The MacDonalds held about \$11,000 in time checks.

The government completed the work. It cost the government about \$180,000 more than the original contract price. The contractors were bonded for \$75,000. The United States has priority in suits against the bondsmen.

AMERICANS IN DANGER. More Marines Needed to Curb Overbearing Rebels at Managua.

Washington, D. C.—More American bluejackets and marines probably must be landed on Nicaraguan soil if the safety of American life and property there is to be assured. This was made apparent to the officials. Managua, the capital, with the American railway station, steamboat wharves, legation and the residences of the American customs officials, and many others, is considered safe, but American Minister Weitzel has informed this government that he has taken notice of the report that General Keledon, one of the rebel leaders, has promised his men that they may sack and pillage the capital. Minister Weitzel had determined the rebels shall not be allowed to do so.

There is grave apprehension of a clash between the American forces and the rebels, who appear to have assumed an overbearing attitude. The rebellious movement appears to have extended to the Gulf coast of Nicaragua, and because of many incendiary attempts to destroy the town, Commander Edwin Durell, of the gunboat Tacoma, landed 54 officers and sailors to police the town. As in the case of Managua, the American forces were called into service by the Nicaraguan government itself.

Ringling Big Top Burns.
Sterling, Ill.—While 25,000 persons stood waiting an opportunity to gain admission to Ringling Bros.' circus, a blazing shingle from a barn that had caught fire a few minutes previously lit in the center of the big tent and soon the tent was a mass of flames. The blazing canvas fell inward and carried to the ground with it all of the scenery and trappings that were to have been used a few minutes later in entertaining the crowd. The loss, according to various estimates, is placed at from \$10,000 to \$50,000.

Infantile Dread Appears.
Sacramento—Santa Cruz and Riverside have been placed upon the map in the offices of the State board of health as places where infantile paralysis has made its appearance. One case was reported from Santa Cruz and two from Riverside. To date this year, no fewer than 298 cases have been reported in the state, out of which 52 child victims have made up the death toll, most of which came from Los Angeles.

One Battleship Allowed.
Washington, D. C.—By a vote of 151 to 50, the house adopted the conference report on the naval appropriation bill. The measure, which will now go to the president, provides for one battleship and a number of submarines, colliers and auxiliary vessels. Thirteen members opposed to the battleship voted "present."

The bill as it goes to the president carries \$123,220,707, an increase of approximately \$4,500,000 over the measure as it passed the house.

Towns Get Obsolete Cannon.
Washington, D. C.—Under Senator Jones' amendment to the bill passed by the senate, obsolete cannon now owned by the government will be presented to the towns of Everett, Bellingham, Vancouver, Wenatchee, Walla Walla, Olympia, Ellensburg and North Yakima, Wash., to be placed in their public parks.

Alaska Report Adopted.
Washington, D. C.—The conference report on the Alaska administration bill, providing for two branches of a legislative assembly and a railroad commission, was adopted by the house. Its approval by the senate and the president's signature will provide "home rule" for Alaska.

Wood to See German Maneuvers.
Washington, D. C.—Major General Leonard Wood, chief of staff of the army, will accept the invitation of the German government to attend the maneuvers of the German army this fall.

FEDERALS SURROUND OROZCO

Rebels Burn Their Trains and Take to Horses.

Government Scouts On Every Hand—Insurrectos Suffer for Food and Forage for Horses.

Juarez, Mexico—Pascual Orozco, commander-in-chief of the rebel forces in the North, is caught in a trap 100 miles wide and 200 miles long, according to advices received here by General Joaquin Tellez, federal commander of this zone. The official announcement is verified by railway reports and from various other sources.

Orozco now has only about 600 men. He is surrounded by federal forces aggregating 10,000 men, that are spread out from the city of Chihuahua on the south to the border at this point, and along the Mexican Central, running directly north to the border, and the Mexico Northwestern, which runs from Chihuahua City west and north to Juarez.

Orozco left Villa Ahumada, a station midway between Chihuahua and Juarez, Saturday. Three times he attempted to move away from the railway, only to have his scouts encounter some federal forces. On his final departure he burned his trains, 65 cars, destroyed three locomotives, and mounting his men, rode away to the southwest. The rebels are suffering greatly for want of food for themselves and their horses.

Coincident with the last departure of Orozco for the southwest, the Mexican Northwestern railway was cut between Pearson and Cumbre. But the communication was cut only temporarily. Seventy-five federal cavalrymen were sent out from Pearson and met the rebels near Cumbre. The insurrectos were routed utterly, losing three killed and 26 captured, besides suffering the loss of their ammunition and provision train. The road has been repaired and traffic resumed.

OREGON GOVERNOR OUSTS DIST. ATTORNEY CAMERON

Salem, Or.—Governor West Tuesday morning removed District Attorney Cameron, of Portland, from his office and appointed in his place Walter H. Evans. The removal was made under the statute providing that whenever a district attorney shall fail to furnish the governor with the complete statement of facts in a pardon case, the governor may remove him.

This is the first move of the governor in his avowed campaign to "clean up" Portland. The prosecutor made the statement that he would resist West's attempt, but added that he would make no move until officially informed of the governor's action.

SEATTLE GETS \$3,100,000.
Deal With New York Company Insures Harbor Improvement.

Seattle—The Seattle Port Commission has signed a contract with the Pacific Terminal company, a New York corporation, providing for harbor improvements to be made here at a cost of \$3,100,000.

A large block of Harbor Island property is leased to the New York concern, which agrees to make improvements similar to the Bush terminals in Brooklyn.

The term of the lease is 30 years. The contract was signed by Commissioners Chittenden and Rensburg, a majority of the commission.

France and Russia in Pact.
Dunkirk, France—Premier Raymond Poincaré has returned here from his diplomatic mission to Russia. At a luncheon given in his honor Premier Poincaré declared that his visit to Russia had resulted in a complete understanding in regard to the common action to be taken by France and Russia to meet all eventualities likely to arise out of European complications either at the present time or in the future. This united action, he concluded, had been immensely strengthened by Great Britain.

Trouble-Makers Caught.
San Diego, Cal.—Captain "Jack" Hollens and W. Albridge, prominent members of the Industrial Workers of the World, according to the police, were captured by Chief of Police Wilson and a posse in Cottonwood creek. The seven men arrested recently at El Cajon will be turned over to the federal authorities, as statements made by two of them indicate they were sent out by a Mexican junta at Los Angeles to invade Lower California.

Canal Rate War Denied.
Paris—The Suez canal company declares that it is a mistake to imagine that a federation of ten cents a ton of the Suez canal dues is in any way connected with the Panama canal. The company at its annual meeting in June reported an increase of \$856,000 in its receipts, compared with the preceding year, and this, it was said, justified a further reduction in the tariff on vessels.

BEST PEACHES FOR MARKET

Five Varieties That Can Be Safely Relied Upon for Succession—Mountain Rose Ranks First.

(By R. G. WEATHERSTONE.)

We consider the following five varieties of peaches to be the best that can be safely relied upon for a succession. They cover the season from medium early to late, says the Agriculturist.

Mountain Rose.—This peach is too well known to need an introduction. It is one of the best, if not the very best of the medium early sorts. Unlike many of the earlier varieties, it has never rotted with us. We have found it hardy, productive, of fairly good size, and, for an early kind, of exceedingly good flavor. We have never found all these qualities in any other early peach. It ripens in early August and is a fairly good shipper.

The Champion is a worthy successor to the Mountain Rose, which is follows early in ripening. The tree is a rapid grower and hardy. It also ranks next to the Oldmixon. White, round as an orange, with a dainty pink cheek rivaling the blush on a modest maiden's cheek, and of a luscious flavor that is barely surpassed by the ruby lips of the aforesaid maiden, we consider it the most beautiful of all the varieties yet introduced and just as good as it looks.

Oldmixon Tree.—We would not think of setting a peach orchard that did not include the Oldmixon. We would not, however, advise a very heavy planting of it, as it has not proved with us an extra good shipper. The fruits are of good size, white, with a red cheek and very luscious. Nothing ever grown by us has excelled them in flavor, except it be the Stephens Rarities. The trees quickly attain a large size, produce abundantly and the fruit ripens about the last week in August.

With the exception of the Elberta, the white varieties have been far the better producers and much more remunerative than the yellow. We have tried Globe, Willett, Smock, Salway and several other sorts, but have discarded them all except Elberta and Crawford Late. Elberta is unquestionably the market peach and just now the most remunerative of all known varieties.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Fish Puzzles Scientists.
A quantity of extraordinary and quite unknown fish has been landed by a trawler at Granton, England. The fish were caught while the vessel was engaged in trawling in the North sea. Fish-curers and experts state that they have never seen this species before. It has the appearance of a herring, but the head is pointed and the tail forked, while the eye covers the whole side of the head.

Slide Back!
Backsliding, indeed! I can tell you on the ways of most of us go, the faster we slide back the better. Slide back into the cradle, if going on is into the grave—back, I tell you; back—out of your long faces, and into your long clothes. It is among children only and as children only that you will find medicine for your healing and true wisdom for your teaching.—Ruskin.

Water in bluing is adulteration. Glass and water make liquid blue costly. Buy Red Cross Ball Blue, makes clothes whiter than snow.

Divided Nest.
A North Westmorland (England) farmer recently came across a very unusual sight. In the course of his rounds through his fields he found a nest with 25 eggs in it. The large number was not the only marvel, for on examining the eggs, he found that 15 of them belonged to a pheasant, and the remaining ten to a partridge. The pheasant, as the stronger bird, was the probable intruder.

Answer of a Soldier.
When Napoleon was a student at Brienne he happened to be asked by one of the examiners the following question: "Supposing you were in an invested town threatened with starvation, how would you supply yourself with provisions?" "From the enemy," replied the sub-lieutenant of artillery; and this answer so pleased the examiners that they passed him without further questioning.

Shake Into Your Shoes

Superstitious Italians.
Perhaps of all countries Italy is the most rife with superstition in all its strange and imaginative varieties. Italians believe in the "evil eye." They have a "false spirit," which is given to practical jokes on poor mortals, and a darker hobgoblin, the "Fata Morgana," who draws youth beneath the waves of the Straits of Messina to drown.

Not Yet.
A hard word makes "fine" rhyme with "mind" has won a prize in a "poetical" contest. Nevertheless, we are not yet convinced that "poetical" contents are the most ridiculous things in the world.

Overlooked.
"Very few mosquitoes taste anything but the juice of tender plants," remarked the naturalist. "Is that so?" exclaimed Farmer Cornstossel. "It kind o' looks as if human beings hadn't been properly advertised as mosquito food."

Between Girls.
"I haven't received a love letter from Jack in three days. I think it's a shame. I shall be positively ill unless I get a love letter by tomorrow." "Well, my dear," said the other girl, "if you need a love letter from Jack as badly as that, I have 40 or 50 I'll be glad to let you have."

Marking on Wood.
If any one in your home has a pyrograph outfit, use it for marking your boy's hockey sticks, baseball bats, tennis rackets and all such wooden things. Painted names can wear or be scratched off, but when burned in deeply the identification is there to stay.

Don't buy water for bluing. Liquid blue is almost all water. Buy Red Cross Ball Blue, that's all blue.

Day of the Whip.
The dreaded "cat" is probably the best known of old naval punishments. Whipping was provided for at least as long ago as the fifteenth century, and in Drake's time the regular trouncing of the ship's boys by the boatswain on Monday morning was regarded as the only means of insuring a fair wind for the rest of the week.

Time and Place.
A little six-year-old Philadelphia girl was sent to the family physician for a vaccination certificate, so that she could enter school. The certificate required the date of vaccination. Not remembering when he had done it, he said, "Janet, how long are you vaccinated?" To which Janet innocently replied, "Here it is on my leg, about an inch long."

MEXICAN MUSTANG LINIMENT
FOR MAN AND BEAST.
John Watson, Fall Brook, Cal., writes: "Am much pleased with the good results obtained from Mustang Liniment. It certainly acted like a charm on my horse's lame shoulder. It should be kept on hand by all stock owners. They will find it a remedy not only for their horses and cattle but also for their own aches and pains." 25c. 50c. \$1 a bottle at Drug & Gen'l Stores.

Named for General Wadsworth.
Fort Wadsworth in New York harbor is not named for Capt. Joseph Wadsworth, but for Gen. James Samuel Wadsworth of Genesee, N. Y. General Wadsworth raised a regiment when the Civil war broke out, served with distinction, and was killed in the battle of the Wilderness. In his memory the name of Fort Tompkins was changed to Fort Wadsworth.

Women Form Fire Brigade.
The women of Idria, in the Austrian province of Krain, were so dissatisfied with the fire-brigade that they have formed one of their own, consisting of 60 "firewomen," with Frau Marie Straos as their commander.
