

The Bon Bon Post says: The prevalence of diphtheria brings out many new facts in connection with the origin and spread of this dreaded malady. A New Haven paper says it was introduced into that part of the country about twenty-five years ago, and has since been spreading. The estimation of remains in West Haven. Nearly all who were exposed to the exhalations from the graves died in spite of all that could be done to remove the deadly poison that arises from the drains and other receptacles of refuse acts in a similar, even if less violent manner, and the subject of ventilation has its extreme importance freshly illustrated by these facts.

The genial Shillaber gives, in the Post, some account of the early days of that journal, before the days of steamships and telegraphs, including the gradual changes that occurred with the establishment of those great aids to publication. He tells this story of the editor, Colonel Green, who shared with the compositors the interest of a steamship arrival:

"The files were brought over by Harnden & Co.'s people, and left at the office in Court street for the several papers. The 'Colonel' was almost invariably at the printing office as soon as the men, and while they were filling their cases he would volunteer to go after the files. One night he had thus volunteered but his stay was so extended that the men grew uneasy, partly on his account and partly for fear that they should be compelled to stay all night, when, just as they were about to send one man to seek for him, they heard him coming up stairs laughing immoderately. And such a sight as he presented when he came! He had on a new fifty dollar suit, sent home the day previous, but now it hung from his shoulders in two sections, united at the collar, split open in the back like a mackerel. He could not explain the phenomenon. He said that at last he told us that he had found the express office deserted by all except a large mastiff. His files were upon the counter, and, taking them, he moved toward the door. But at this the dog, which had apparently taken little notice of him, now manifested a wish to have something to say about it, and planted himself before the door. The Colonel wheeled and flattered, but the animal was not to be moved by such blandishments, until at last, grown desperate, he made a dash at him, seizing him by the coat and cutting it through to the crupper with his teeth, while the Colonel, with his dismembered coat dapping about like the sails of a wind-mill, fled to the quickest time possible for Water street. That was the morning night ever enjoyed in the old Post office."

RELICS OF SIR JOHN FRANKLIN.—Thomas Barr, second mate of the New Bedford bark, *Star*, which was wrecked in Hudson Bay last June, near Cape Fullerton, arrived in this city yesterday, bringing with him a silver spoon bearing the coat of arms of Sir John Franklin, and a number of white fox skins, which he had obtained from the Esquimaux. He also brought a *Herald* reporter at the whaler's headquarters, No. 109 South street, and told the following story concerning the silver relic: "I obtained the spoon from one of a party of fifteen Esquimaux who came from Cape Englefield. There were some men in the party who were not less than seventy years old, and had only seen two ships in their lives, one being, I imagine, Sir John Franklin's ship, and the other the *Glacier*. They spoke of Franklin—the 'Hata' or captain—as a big man. They also said they had a quantity of his books and writings. They made their way South to where we were lying in Hudson Bay, from Cape Englefield by Melville Peninsula, Repulse Bay, down to Rowe's Welcome, which leads to Hudson Bay. They were several in number. They were all, and the natives helped them to come ashore. After a time, however, sickness broke out, and their provisions gave out, and the whole party died. The only way I can conjecture that Sir John Franklin reached their place was up Davis Strait, and then through Kellogg or Lancaster Sound. Cape Littlefield is at the mouth of Fury and Hecla Straits. They made their way South to where we were lying in Hudson Bay, from Cape Englefield by Melville Peninsula, Repulse Bay, down to Rowe's Welcome, which leads to Hudson Bay. They were several in number. They were all, and the natives helped them to come ashore. After a time, however, sickness broke out, and their provisions gave out, and the whole party died. The only way I can conjecture that Sir John Franklin reached their place was up Davis Strait, and then through Kellogg or Lancaster Sound. Cape Littlefield is at the mouth of Fury and Hecla Straits. CHURCH OF THE CITY.—Services morning and evening at the usual hours. The evening lecture will be a summing up of the evidence concerning the books of the New Testament.

A new grocery store will soon be opened in Olympia. Jos. Chilberg will reside behind the counter and welcome all his old friends who may give him a call. Part of the building now occupied by his brother as a furniture and broom store will be used. We are glad to have "Joe" back with us again.

The Unitarian *Advocate*, of Olympia, has completed its first year, and volume two will appear in time improved and perhaps enlarged.

"ONE who knows" corrects a statement with respect to the absconding J. C. Duncan of the Pioneer savings bank, San Francisco. Duncan was a member of no church, never taught in Sunday school, and, perhaps, never was in one, and never went to church. He was not of that kind. Of late, it has been the custom to add as a postscript to the announcement of nearly every defalcation or breach of trust that the perpetrator was a church member, Sunday school superintendent, or a man of great professions of morality. We do not believe the assertion to be true in half the cases, and even if the other half be true, it only goes to show that the mass of mankind have more confidence in the honesty of a professor of religion than in the average of humanity, and that shrewd rascals avail themselves of this fact to more securely and certainly carry out their fraudulent practices. The writers of the paragraphs referred to intend them as slings at religion, but in reality only offer proof in support of the great underlying truths in the religious belief of the Christian world.

MARRIAGE.—In Seattle, Nov. 22d, by Rev. D. Bagley, John F. McNaught to Miss Mary E. Williams, of Fall City. Mr. McNaught is a brother of James McNaught, of that city.

DIED.—At Milton, King county, W. T., Nov. 26, 1877, Thomas M. Brownell, a native of Westport, Massachusetts, died of pleurisy, aged 48 years. He was captain of the little steamer Ceilo, and generally respected.

Mr. A. Schuster, sheriff of Klickitat county, arrived in town last Tuesday night, with two Indian prisoners in custody, who had been convicted on a charge of horsestealing. They were reservation Indians at or near Simcoe, and Father Wilbur was the complaining witness. The trial was closed at Vancouver, last Saturday, and Judge Greene sentenced them to the penitentiary, one for three, and the other for five years. They have been placed in charge of sheriff Billings.

The *Herald* says Miss Abbie Connolly, of Olympia, who had been engaged to teach another term of school in the Annis district, was compelled to give up the school after one week's trial, on account of continued ill-health. The schoolhouse in this district is situated in a sparsely settled community, where no mortal woman could be expected to teach during the winter months, and "board 'round." Miss Connolly will spend a few weeks with friends in the Valley before returning to her home in Olympia.

District Court closed at Vancouver, last Monday, Nov. 26th, and will convene in Olympia next Monday.

Andrew Laws, long time resident of this county, and a man named Shobert were tried at Vancouver on a charge of shooting at a man on Lewis river, a few weeks ago. We have no particulars, but learn that Mr. Laws was convicted and sentenced to imprisonment for eighteen months at Vancouver.

Mr. and Mrs. J. J. Gilbert returned, last Tuesday night, from a visit to San Francisco.

Gen. E. B. Babbitt, an old and very highly respected citizen of Portland, was stricken down, last Sunday, with paralysis. So severe was the stroke that he is both speechless and helpless; being only able to move one hand. He has since improved, somewhat, but at last accounts, was still in a critical condition.

Dr. Steele will read the next paper before the Academy of Science on Tuesday evening, Dec. 4th, on the "Rainfall and Temperature of Oregon and Washington Territory." An able lecture may be expected and the public are invited to come out and hear it. Admission free—doors open at 8 o'clock sharp.

The remains of Thomas Chapman, who was drowned at Tacoma, last week, after being taken from the water, lay exposed the whole day before anyone could be found with humanity enough to attend to the last sad rites that are due the dead according to the rules of the civilized world. Towards night, one good Samaritan was found—H. B. Grammer by name—who took the matter in charge, provided the coffin, and superintended the burial. Salmon had her lot and Tacoma had one Christian.

So far as heard from, three appointments to the University have been made. Miss Helen Hall has been chosen by Mr. Hanford, Fred Sparling, by Judge Lewis and Miss Rosa Downs of Renton, by Mr. Tibbets.

Bisnop Scott Grammar School will be rebuilt, next spring.

The following is worthy of consideration by our railroad managers. Perhaps, by corresponding with the managers of the road named valuable information can be obtained. If a road and rolling stock can be secured on such economical terms that will answer our present purpose all further doubts or difficulties about its completion at an early day will be at an end. A correspondent of the New York *Express* gives a description of the new ten-inch gauge railway, eight and a half miles long, connecting Billerica and Bedford, Mass., now in successful operation: "There are eleven bridges on the route, one over one hundred feet long. The rail weighs twenty-five pounds to the yard, which is quite strong enough; twenty pounds would be better. The road is well built and equipped; one grade is one hundred and fifty-five feet. The cars and engines are very well proportioned and make a very handsome appearance. The engine is behind the tender and next to the cars, so that when the train moves the car next to the engine draws down upon and increases the adhesion of the engine to the track. Both engine and cars are constructed so as to be very near the ground, giving great advantages in regard to safety, also very little oscillation. The cars have an aisle with one seat on each side, in the same manner as ordinary cars have two seats. The length of the cars allows thirty seats, each person having a seat to himself. The cars are warmed with steam, are well ventilated, have closets, water-tanks, all the modern improvements, Westinghouse brakes, &c. They weigh but four tons and an half, ordinary cars weighing on an average eighteen tons. The engines are equally light and less costly than on ordinary roads. The road cost \$1,500 per mile, the right of way free. The trains run about twenty miles an hour. Engines weigh about eight tons, and draw two passenger and two freight cars twice per day each way, at the cost of coal only one-fourth that of ordinary engines.

The slaughter house of A. Malsou, near Seattle, was burned, last week. Loss about 1,500. It is thought to have been the work of an incendiary, and a reward of \$500 has been offered for the apprehension of the latter.

A portion of the material for the *Northern Pacific* terminus has been put in position at New Tacoma, so, we presume, we may look for the appearance of that paper ere long.

The *Standard* celebrated its seventeenth birthday by a candy pulling, and thereat the *Transcript* pokes fun. The *Transcript's* celebration jug always contains something stronger than sorghum. No milk for babes for Gunn.

MARRIED.—At the Presbyterian church in Olympia, Nov. 25, 1877, by Rev. Jno. R. Thompson, Mr. Geo. S. Allen and Miss Anna, daughter of Alex. Farquhar, Esq., all of Olympia. The wedding ceremony was witnessed by a very large number of our people, in fact many could not find standing room in the aisles, even; and after the close of service a wedding reception was given at the residence of the bride's parents at which scores of friends attended to pay their compliments to the happy couple. The following day a wagon load of refreshments were sent around with their compliments and the *Courier* force had no reason to complain about the manner of distribution. We wish them a happy and prosperous future.

The trial of W. H. N. Stiles, on a charge of perjury in connection with the Grover investigation, came off in Portland, this week. The case was very ably handled on both sides, and resulted, as might have been expected, in a disagreement of the jury. On the first ballot the latter are reported to have stood 8 for conviction and 4 for acquittal, which was gradually changed until there were 11 for conviction. The 12th man proved intractable and the jury was finally discharged. A new trial will be had next term of court, and, in the meanwhile, as Stiles cannot give bail he will have to remain in confinement.

The Otter's retirement from the route between here and Seattle is reported to be a very profitable one to her, as she gets a subsidy of \$500 per month from the Messenger and Zephyr, or \$250 from each of these boats.

The whereabouts of a young man, named Woodside, is sought for by inquiring friends. He was last seen at the Talbot coal mines, in King county, in September last.

The usual public worship will be conducted in the Presbyterian church, tomorrow by Rev. J. R. Thompson. The fourth lecture of the course on "Popular misconceptions of Orthodox Doctrines" will be delivered in the evening. Subject, "What is Total Depravity."

British Columbia enjoyed her first Thanksgiving day yesterday. This seems odd to us who have been accustomed, all our lives, to the observance of the day.

In Your Life Worth 10 Cents!

SICKNESS prevails everywhere, and all complain of some disease during their life. When sick, the object is to get well, now to say plainly that no person in this world is suffering with Dyspepsia, Liver Complaint and its effects, such as indigestion, Costiveness, Sick Headache, Sour Stomach, Heart Burn, palpitation of the Heart, Depressed Spirits, Biliousness, &c., can take GREEN'S AUGUST FLOWER without getting relief and cure. If you doubt this, go to the nearest Druggist and get a sample bottle for 10 cents and try it. Regular size 75 cents. Two doses will relieve you.

Mrs. Dr. Hewes, one of the first lady graduates in Medicine and Surgery, has located in Seattle, W. T. The Doctor has had a large practical experience in the Hospitals and Dispensaries of New York and Philadelphia, as well as years of successful private practice. She comes well recommended, and offers her professional services to the people of Seattle and the North Pacific Coast. The Doctor will open her home to ladies during confinement as well as to patients for general medical treatment. Will send medicine by mail or express to any part of the coast. Patients will receive kind and careful attention. Charges reasonable. Residence, Union street, between 4th & 5th, Seattle. Dr. Hewes, the great Magnetic healer and clear seer, treats all diseases and cures ninety per cent. of all that the rest of the faculty fail to benefit. Try the Doctor when all the rest fail.

NOTICE.
IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE TERRITORY OF WASHINGTON, holding terms at Olympia, for the counties of Thurston, Lewis, Mason and Chehalis.

SARAH E. WILLEY, Plaintiff,
WILLIAM J. WILLEY, Defendant.

Action brought in the District Court of the Second Judicial District of the Territory of Washington, holding terms at Olympia, for the counties of Thurston, Mason, Lewis and Chehalis, in the office of the Clerk of said Dis- trict Court.

To WILLIAM J. WILLEY, Defendant.

In the name of the United States of America, you are hereby required to appear in an action brought by your wife, the above named Plaintiff, in the District Court of the Second Judicial District of the Territory of Washington, holding terms at Olympia, for the counties of Thurston, Mason, Lewis and Chehalis, in the office of the Clerk of said Dis- trict Court, on the 8th day of November, 1877, to answer to a copy of which accompanies this summons within twenty days exclusive of the day of service; after which day, if you fail to appear and answer to said copy of this sum- mons—if served within this county; or, if served out of said District, within thirty days; or, if judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain the judgment of said Court dissolving the bonds of matrimony existing between you and said plaintiff. The cause of said action is the abandonment by you of said plaintiff, willfully and without cause on the 24th day of May, 1877, and continuously from said time to the filing of said complaint, and to obtain a suitable provision for the support and maintenance of the said plaintiff during said time, and you are hereby notified, that if you fail to appear and answer said complaint as above required, the Plaintiff will apply to said Court for relief in said complaint demanded.

Witness my hand and the Seal of the said District Court, this 10th day of October, A. D. 1877.
R. G. O'BRIEN, Clerk.
