FOR THE

Stanley

STEAM CAR

Price List of Parts for STANLEY STEAM CARS

**Order for parts must be accompanied by cash. We will not send parts
C. O. D. unless we receive sufficient funds to cover transportation
charges both ways**

All prices are F. O. B. Factory and are subject to change without notice.

In ordering parts for STANLEY CARS, specify whether to ship by MAIL, EXPRESS or FREIGHT, and be sure to give the number and name of the part wanted, as these numbers and names are listed in this price list of parts. Also, give the model and number of the car as on the name plate at the rear of the body. For parts of cars more than one year old, it is advisable, when possible, to send the old parts as samples. For parts that connect two other parts, give dimensions. For tubing, give outside diameter and length required. Otherwise, on account of changes which are made from time to time, we would be uncertain as to what was required. Careful attention to these suggestions will assist us materially in filling orders promptly and correctly.

* 1/8" diameter is standard size valve stem on all cars built since January, 1909. We do not carry any other size in stock.

When writing us, always give model and NUMBER of car.

Explanation

The individual parts of a made up part are numbered in the cuts individually, while in the list they are numbered as a whole. For instance, the rear axle frame right half, in the list No. 1, is made up of five parts brazed together, and is shown in the cut as follows:

1	Rear axle inside forging	.	.	.	.	.	No. 1A
1	" " outside "	.	.	.	.	.	" 1B
1	" " spring block	.	.	.	.	.	" 1C
1	" " brace rod lug	.	.	.	.	.	" 1D
1	" " tubing	.	.	.	.	.	" 1E

The differential, list No. 9 is made up as follows :

1	Differential spider	.	.	.	.	.	No. 9A
1	" gear ring	.	.	.	.	.	" 9B
3	" pinions	.	.	.	.	.	" 9C
3	" " studs	.	.	.	.	.	" 9D
3	" rivets	.	.	.	.	.	" 9E

There is no such thing as a differential gear ring with the teeth cut. The ring is shrunk on to the spider, pinned and sweat on, then the teeth are cut, so as to insure a true running gear.
