

Matheson

"SILENT SIX"

Built for Those Who Use the Best "Silence is Golden"—in an Automobile

The conditions that produce silence in a motor car are those which make for economy in upkeep cost. Silence is the sign board of minimized wear. Silence is proof of economy in fuel and oil consumption. Silence in the operation of running parts is most vital to the life of any car.

The silence of the Matheson "Silent Six" is produced by the elimination of the causes of wear. Its long record in private use has demonstrated that it is not only silent when new, but stays silent.

The Matheson "Big Four" which has been a consistent winner of first honors for five years past, is recommended to those preferring a luxurious, powerful, seven-passenger car of four cylinder chain driven type.

Prices—Silent Sixes, \$3,500 to \$4,000; Big Fours, \$4,000

Our catalogue and "The Secret of Silence" mailed on request.
Applications of established dealers considered for open territory.
