

THE SEARING WHEEL

JULY 14, 1972

Fellow tourists, a final goodbye.  
Reno, Yellowstone, L.A. and Big Sky.  
Overland travels for four Summer weeks  
Mean marvelous views of prairies and peaks.

Millard's months of preparation  
Offered car buffs a great vacation.  
Newcomers, Brammers, Sheldons and Martin  
Rated comfort for being spartan.  
Rolph and Tom with wobbly wheels  
Enjoyed concocting gourmet meals.  
A waters welcome was hearty and Strong.  
Lazier's motor went smoothly along.

The terribly tenacious Grundy group  
Overcame problems from nuts to soup.

The Fixit men, Durham and Gill  
Ingenuously repaired, with never a bill.  
Judy and Howard's electrification  
Underwent a transformation.  
And Marshall made it in his car of steam,  
Now completing a lifelong dream.  
Also Hartline, Hovey and Hecht

Traversed the desert without being wrecked.  
In the minds of Pettingill, Blake and Snyder  
Trips like this should be longer and wider.
