

AND NOW . . .

FLORIDA'S NEWEST SPECTACLE

AMERICA THE BEAUTIFUL

The nation's largest three dimensional CINERAMIC MURAL portraying the history of our great country . . . TWO YEARS TO COMPLETE, by the famed western muralist Bernard Preston Thomas . . . truly one of the most dramatic, pictorial wonders ever painted on canvas!

As you enter the spacious Mural Room you walk before massive, winding contour panels of scenic America, and see upon the curved walls and ceiling, a necklace of brilliantly chosen historical scenes which influenced the development of our nation since the time of Columbus. Lifelike scenes portraying the action-filled moments of our historic past . . . memorable scenes and incidents born among the pioneering struggles of our forefathers, who conquered the barriers of their day to make America the beautiful, the land of the free.

. . . and NOW, as you view AMERICA the BEAUTIFUL, another incomparable feature has been added for your LISTENING pleasure: WORDS and MUSIC! WORDS by Lowell Thomas, world traveler, lecturer and commentator, narrating the story of the Mural Room . . . and then, as the story unfolds, MUSIC by James Melton! . . . unexcelled in blending his arrangement of the American ballad, western and folk songs into the story . . .

Picture yourself in the soft-lighted Mural Room . . . America the Beautiful being sung by the nation's favorite tenor . . . America's most renowned commentator is telling the story of AMERICA the BEAUTIFUL, unfolding scene after scene, until SONG and STORY have completely swept you through 300 years of our nation's history. Here you LIVE in the midst of the history you have read about . . . SEE the work of an inspired artist, and LISTEN to the voices and music which continue to thrill the American people.

Only at the James Melton Autorama can you SEE and HEAR Florida's most irresistible entertainment combination in ART . . . WORDS . . . MUSIC! . . . the CINERAMIC MURAL story of your AMERICA the BEAUTIFUL.
