

Mrs. JAMES MELTON

ONE BAYSIDE TERRACE, RIVERSIDE, CONNECTICUT

May 8, 1962

Dear Mr. Marshall;

There is a young man who lives near W. Palm Beach who was in our employ for ten years, as worker and later curator of cars in the Autorama. He is a fine person, and completely trustworthy. He moved many cars for Jim during the years he was with him. This young man, whose name is Henry Chidsey now works for a construction company in Florida. As this is their slack season, he has offered to transport the train and ~~can~~ carousel north if you wish to hire him. I'm sure his price would be less than Brandon.

I had Henry (we call him Jiggs) pick up the tracks for the little train, which were on the grounds of the Autorama. He now has them stored at his house.

I have paid the rent for storage on the items to May 14th, and I trust the items can be moved out by then. You could telegraph Jiggs or wire him to call you and make your arrangements if you wish. His address is Box 8624, Lantana, Fla. A wire to him at Lantana would reach him.

Jiggs knows the little train and the carousel well, and could even help you get acquainted with them, if you like.

I hope all is well with you. I'd expected to hear from you before now, and I trust the "flu" bug hasn't got you in its clutches.

With best wishes,

Sincerely,

*Mayorie M. Melton*
